Rising to the Challenge

2022 RITES OF PASSAGE PROGRAM *Surrender → Empowerment*

Brief Program Overview:

The intention of this program is for each individual to emerge feeling **happy, healthy, whole and healed and to reach his truest, highest potential**. If you can wholeheartedly say that you presently possess all of the aforementioned attributes then this program may not necessarily call to you...

On the other hand, this program **is for you** if you are like many men, who by no fault of your own, weren't given adequate tools to navigate the very real challenges facing men today. There is a better way than the ongoing struggles of searching for peace of mind; feeling that there is never enough; relationship conflicts; health issues; trying to find your purpose... can you relate?

Waska is dedicated to guiding you on this journey to once and for all be the man you are meant to be. After 2 decades of numerous initiations and in depth studies with many masterful teachers, mentors and indigenous wisdom keepers Waska has been given permission to share much of the practical wisdom with other men who are ready, willing and able to stretch themselves into learning **self-mastery**.

This **Rites of Passage Program** is not like any other. Only a small group of dedicated men will be vetted and welcomed to enroll. Each man will receive personalized focus throughout the nine month intensive program including weekly 1:1 mentorship tailored to your needs, goals and vision... and much more.

Some of what will be offered in this 9 month commitment:
