

Let us Think - July 9, 2019

I can see the Father's face looking down and smiling at all our performances—using the talents and gifts He has placed in our hands...

- Now, He is saying: Stop!
- I want to do something NEW in the earth!
- But first, you must take time to feel My heart
- and mourn for Me as I mourned for the race of children I had birthed at My holy Mt. Sinai.
- As they began the journey to their Land of Promise
- they were such a joy to My heart, as I took them by the hand and gave them power to defeat any king who tried to stop them—
- and they clung to me in faithful obedience.
- Then, they were detained by doctrines of the prophet Balaam—
- giving time and allowance to explore the world around them;
- learning how to worship and serve gods of wood and stone
- and gods of Strangers from the East.
- Little by little their heart turned from Me until I no longer enjoyed their sacrifices and sweet incense, for their heart was not in it!
- My bowels, My bowels! I was pained at My very heart
- watching them by the way; smelling My Incense now dedicated to Baal—
- as they carried their newborn of My own children
- to be devoured in the fires of their fancy!
- At times I was as a leopard by the way and could have
- pounced upon them; but I Am God!
- Please, just STOP! LISTEN-TO and BELIEVE THE PROPHECIES.
Listen over and over; Learn of Me now!

In December, 2019 the present Pandemic began—As if God Himself—is bringing the world to a halt!
