

National Patient Safety Goals

#5 - Prevent Infection

**NO GERM GETS
PAST THESE PAWS**

- Wash or sanitize your hands every time you enter or leave a patient's room.
- Make sure PPE is worn correctly, every shift, every patient.
- Wipe down shared equipment before and after use.

From hand hygiene to cleaning equipment, every step we take helps keep patients—and each other—safe.

Our meerkats know the drill: they scrub their paws, sanitize their tools, and stay alert so no germ sneaks by.

***Safety isn't solo.
It takes every one of us.***

No Germ Gets Past These Paws
