

NPSG Goal #3

Use Medicines Safely

ACROSS

3. Furry safety mascots powering this year's campaign
6. Small container often used to deliver oral meds
8. The process of keeping a complete and accurate list of a patient's medicines
9. What every unlabeled syringe becomes — a safety ____

DOWN

1. Before passing a medication, always do this to ensure it's identified
2. A common high-alert class of drugs that prevent clots
4. Clear instructions and understanding provided to patients
5. A checklist action: do this twice for safety
7. Form used to track medicines at admission, transfer, or discharge
