

THE WEEKEND GETAWAY EDITION

A person is seen from the side, wearing sunglasses and looking out of a convertible car. The car is parked on a road with a scenic view of mountains and trees in the background. The person's hands are visible, holding a large, detailed map spread out on the car's dashboard. A circular logo with the letters "DS" is prominently displayed in the center of the map.

INSPIRATION FROM OUR CURATOR

Welcome to the Weekend Getaway Premium Box. Last quarter, we received a lot of feedback regarding the items we featured and the quality of each product. We surveyed our members, and as the curator of each box, I took that feedback very seriously and changed the direction of how we will curate items in each box moving forward. The idea behind the premium box was to offer a variety of lifestyle essentials, something different than what you experienced with the Classic Subscription and a service that would provide tremendous value for what was asked from you. Trying to balance providing a variety of goods with a value that exceeds your expectations, I found to be a challenging task. What I realized was that I was sometimes sacrificing quality in the products we were providing.

Moving forward we have changed the direction of how we curate the Premium Box. The experience, the lifestyle, and the quality has been taken to a whole new level. Starting with this box, you will see that direction reflected, with the boxes only getting better moving forward... this I PROMISE. We will be focusing entirely on quality over quantity. The entire Gentleman's Box team and I are very excited about the boxes that wrap up all of 2019 and more... I wish I could tell you now, but you will just have to trust me. If you have any suggestions, comments or feedback regarding the premium boxes, as we continue to strive towards excellence, please feel free to contact me at john@gentlemansbox.com.

VEGANWEAR

Weekender Duffle Bag, \$99

This quarter, Gentleman's Box and Vegan Wear partnered up to help expand the Vegan Wear line by introducing a vegan leather duffle bag. This bag is made of eco-friendly polyurethane microfibers, offering a feel similar to leather and looks that mimic imprinted grains... all while not harming any animals and preserving mother nature.

Measuring 18" x 8" x 13", this duffle is the perfect weekender bag for those short getaways. The duffle is lined with 100% polyester, has a detachable shoulder strap, interior organizational pockets and dual rolled vegan leather handles for easy carrying.

VEGANWEAR

— For the Modern Man —

Transitioning to a plant-based lifestyle, Vegan Wear found that one of the biggest hurdles was getting dressed for the office. Business wear for men typically includes leather, wool, silk, and other animal-derived fabrics. Not wanting to contribute to animal suffering, Vegan Wear researched and learned about a supply chain where human and animal suffering, unfortunately, is a standard part of businesses.

Focused on fixing this, Vegan Wear partnered with a fair labor factory to create a briefcase. The best briefcase on the market. With that, a vision was born. Briefcases are just the start. The vision is a full menswear line, one that leaves you confident that you not only look great but also are contributing to a better world. Their products are made free of animal testing, animal-derived ingredients, and unethical labor practices. And they always will be.

PACKING TIPS FOR A LONG WEEKEND AWAY

When preparing for a long weekend adventure, try to save yourself from being the guy with "too much stuff!" Pack light, but logical. Check out our quick tips to packing your ***Weekender Duffle Bag***.

1. **Always pack the most important items first.** These are the items you need to travel and those that are harder to obtain when away. Examples would be your passport, credit cards, debit cards, medications, and camera.
2. **Transitional pieces are a must!** These are those items you can wear both at night and during the day and can be mixed with different clothing and accessories to create a completely different look. A nice pair of chinos can be worn with a blazer or a t shirt and can be worn with a variety of shoes, making them extremely versatile.
3. **Roll your clothes instead of folding.** This simple trick minimizes wrinkles and gives you maximum space.
4. **Pack items you enjoy wearing regularly.** Chances are if you have your favorite clothing items with you, you will almost always be able to create a comfortable look.
5. **Purchase some toiletries when you arrive at your destination.** Most hotels or AIRBNB's offer toiletries, and no matter where you are going a CVS or similar shop will be close by, so if your bag is feeling tight, leave the shampoo, conditioner, hair products and body washes behind and grab some when you reach your destination. Travel sizes will also be the right amount of product to last the long weekend.

EKHO ELECTRONICS

Wireless Headphones, \$139

Bluetooth Version: 4.2

Playing Time: Up to 10 Hours

Standby Time: Up to 10 Days

Charging Time: 2 Hours

DEFINED MEN

Sunglasses, \$70

Summer is around the corner, and it's best to start it off with a pair of shades that showcase a modern style with a round lens and tortoise frames. We engineered this pair for optimal balance, comfort, and durability. The frame material is made up of a premium, handcrafted cellulose acetate, offering a lightweight feel that is comfortable for prolonged wearing. The frames and legs are also hand-cut and manually machined into shape, then by hand, individually polished. The CR39 Resin Lens contains a low refractive index, with low optical distortion, for better optics. They also provide UV protection, offering 100% protection against harmful UVA, UVB, and UV400 rays. Lastly, the lens is shatter-resistant offering great impact resistance and safety. Unlike most manufacturers that automate assembly, each pair is manually assembled by hand to ensure premium quality.

Defined Men provides gentlemen with the finest accessories to take their style, whether formal or casual, to a higher standard; because no one defines themselves like you.

GENTLEMAN'S TIP

When your sunglasses
are not in use, ALWAYS
store your glasses in
their protective pouch
and case.

DEADSOXY

Socks, \$27

DeadSoxy's exclusive line of socks, called the Boardroom, set the bar high with their bold colors, patterns, and innovative no-slide technology. Designed to be tried-and-true workhorses, their breathable, moisture-wicking fabric, makes these socks perfect for whatever the day throws at you. From business meetings to weekends away, these socks stay with you wherever the day goes.

The Feel:

- Breathable Bamboo blend provides maximum ventilation
- Incredibly soft fabric that feels like cashmere
- Enhanced arch support for a sleeker fit
- Durable elasticity that retains shape over time
- Their socks are designed to stay in place all day/night

DeadSoxy started with one question. Why was no one getting a basic men's essential right? We questioned how something so simple could be so difficult to perfect. The dress sock has been long overlooked. Not only are colors and styles limited or outdated, but many products on the market slide down, roll, or bunch—a nuisance during the workday. Nothing out there offers both function and style.

DeadSoxy developed their very own high-performance fabric that is both luxurious and durable to give you the best fit with a barely-there feel. We tested and retested this technology until we got it perfect. Their prints, colors, and designs are exclusively designed for your personal style.

The DeadSoxy Difference

Smart design, premium fabrics, superior socks. That's it. Gone are the days of the traditional dress sock. It's time to get the base layer right and express your style. The difference is in the details, and it's all about the feeling you get when wearing DeadSoxy. No-Slip, No B.S. Guarantee. DeadSoxy's socks are specifically designed not to slip or fall during your wear.
