

FEYNLAB®

MAKING NANO BIG

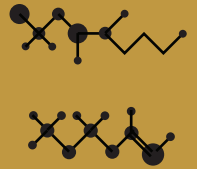

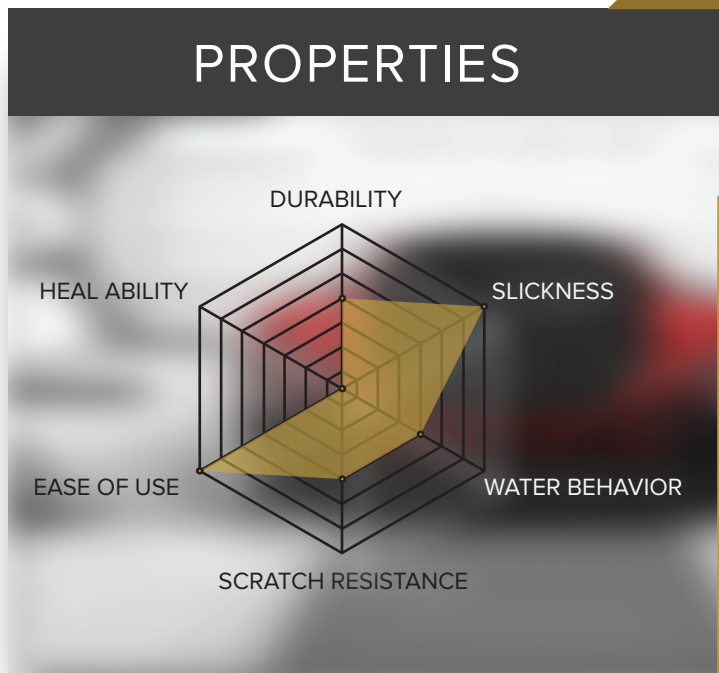

CERAMIC LITE

FEYNLAB® Ceramic Lite is a cost effective coating which greatly out performs traditional waxes or sealants. With its impressive durability, gloss, and hydrophobic properties it is the perfect entry level coating to keep vehicles cleaner for longer with a track record of 60,000 vehicle installations.

FEATURES

PROPERTIES

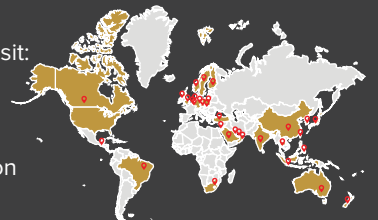

Ceramic Lite is a durable, slick, hydrophobic paint coating that will provide a high level of gloss to enhance any paint. Ceramic Lite is classified as our entry level coating. 'Lite' designates the coating contains a lower solids content than our traditional offerings, however it still packs quite a punch in the durability and performance departments. FEYNLAB engineers, manufacturers, bottles, and ships all products in-house. Therefore, we can offer a consumer grade product at a reasonable cost since we have cut out the price inflation of the traditional two and three tier distribution chains.
