

# FEYNLAB®

## MAKING NANO BIG

# HEAL LITE

FEYNLAB® HEAL LITE is the solution for those hard to maintain dark colored vehicles. With Heal Lite, washed induced love marks and other light scratches will quickly vanish when the panel is heated by the sun. HEAL LITE offers up to 60% recovery of finer scratches and marring.

## FEATURES

## PROPERTIES

HEAL LITE is a single-step ultra durable coating with excellent UV protection, extreme hydrophobic properties and contains up to 60% of the healing capability of FEYNLAB® HEAL PLUS. HEAL LITE was developed with darker colors in mind, especially non metallic vehicles, which more easily reveal defects such as 'spider web' swirl marks and other micro defects. In addition to the impressive healing capabilities, HEAL LITE has all of the UV & chemical protection, gloss, and hydrophobic properties that FEYNLAB® coatings are known for.
