NOTICE!

Proper use, placement, and storage of Club and Member boats.

Friday I visited the property and was concerned by how some members were leaving the boats. I feel it necessary to remind everyone of the club rules about boats.

1. Storage - No boats should be stored on the shore line along the picnic area or on the boat ramp. We have signage throughout the property that explains proper storage.
 1. Important note - In years past the boat ramp has been 'paved' with crushed rock, which can damage the bottom of a boat.
2. Storage - Club boats (those with a red bow) are to be stored on the shore facing the dam. Exceptions are the yellow paddle boat and white surf board which can be kept near the main dock, and the 99 boat which is kept near the fish cleaning table. Boats should be flipped over to prevent filling with

rain water and debris.

3. Storage - Member boats should be stored on the shore line between the fish cleaning table and the trailers.
4. All member boats must have the member's name somewhere on the boat, preferable near the bow.
5. Member boats should not be used without permission.
6. No one is permitted to use a gasoline engine on the lake. An exception was made for our lake biologist company.
7. Members who wish to use club boats are encouraged to bring their own life vests, paddles, drain plugs, etc.
8. Any member who wishes to store their boat on the property must pay the annual storage fee.

Not related to boats specifically, but please ensure you park in the standard parking areas. The area between the driveway and lake shore with member boat should be kept as clear as possible to give members access to their boat and trailer. You are permitted to temporarily park on this side to load or unload, but then please move your vehicle to the side facing the lawn, field between the trailers and shed, or near the picnic area.

It is extremely important that EVERYONE follow these rules as Gary is still healing and cannot police the property. Abuse of these rules could cause damage to the boats, lake, or discussion of membership status.

View of the boat ramp for at least the past week.

Sincerely,

Nick Myers - President
