

Jeremiah Jams

Made with a lot of fruit and a little love.

Inspired by my grandmother's love of making jam, using fruit from her own garden, I have begun my own journey making delicious jams. I use fruit as my number one ingredient and half the sugar of a regular jam recipe. The result is jam that actually tastes like the fruit it's made from - perfectly sweet!

Each summer, I visit the farmers markets and nearby farms in the Chicago area, buying the freshest fruit for my jam. I take care in preparing each batch of jam so it tastes the best and has the best fruit flavor possible.

My goal is for you to love the jam as much as I loved making it!
