Introduction to C4 Services, LLC

110 Osceola Ct. - Winter Park - Florida 32789

C4 Services, LLC is Florida a based company with 5-star across the board ratings on Field Nation, Work Market and OnForce. We have a 100% completion rate on over 1200 projects covering a wide range of technologies on those networks, and over 220 outside the networks in the past three years. We provide advanced technical installation services for virtually all low-voltage systems. We cover the entire state of Florida and recently expanded our operations to the New York metropolitan area.

Our team has extensive experience with all versions of Windows computing, Cisco networking, large property phone systems, IBM systems, Fujitsu and all other POS systems, EMC and Netscout hardware, drive imaging, backup systems, hardware install and parts swapping and much more. We have current certifications for Fujitsu, Zeiss Optical Clarifeye Systems, ICC Certified Elite Installers, Delphi Drive Through Systems, and WorkSafe WorkSmart.

We recently began providing network field services to our local public school district, providing structured cabling, network services and upgrade and repair services to over 120 of their properties and campuses.

Complete Low Voltage System Project

We are currently upgrading their entire network, replacing over 3,500 network switches, fiber core switches and wireless access points.

Our rapidly expanding team has expertise with advanced server and data center hardware installation, repair, troubleshooting, and upgrades. We are experts in distributed commercial audio, video and paging systems, media players, video walls, digital signage, digital menu boards, security camera systems, access control systems, and just about any other type of electronic or digital systems. We have been building computers and servers from bare boxes, designing machine control systems, and repairing and upgrading laptops for over 20 years.

Structured Cabling Services - Low Voltage Expertise

We are structured cabling experts with 20 well trained technicians who provide the most advanced level of cabling services to our clients. We have performed some of the most complex cable installations in the Orlando area including 322 cables installed in an all concrete ceiling at the CNL tower downtown. We recently installed 580 Cat6 and Cat6A cables with over 900 ft of rod supported cable tray at Rockefeller Center in Manhattan, the rewiring and merging of two separate networks of the busiest restaurant in Central Florida, distributed audio and digital menu boards for Disney Springs, large scale data center installations and relocations, flight-simulator network cabling, bank branch networks installations, a complex 75 access point wireless network for Amerisource

Bergen's 500,000 plus sq. ft. automated pharmaceutical distribution center, big-box retail store cabling, 1,000+ unit switch upgrades, 2,000+ unit AP upgrades, 300+ handset VOIP phone system installations, hotel analog phone system systems, low voltage lighting, 70 volt overhead audio and paging systems and much more.

We are currently provide structured cabling services for many of Florida's and New York's new and renovated Sprint, T-Mobile, Hallmark, Marshalls, Metro PCS, Victoria's Secret, Hobby Lobby and Bath and Body Works stores. We recently installed over 3,000 cables for a major real estate holding company. We perform regular work for some of the largest national cell phone carriers in their data centers and retail stores. We also employ a master electrician who handles our permitting and overseas all of our electrical work.

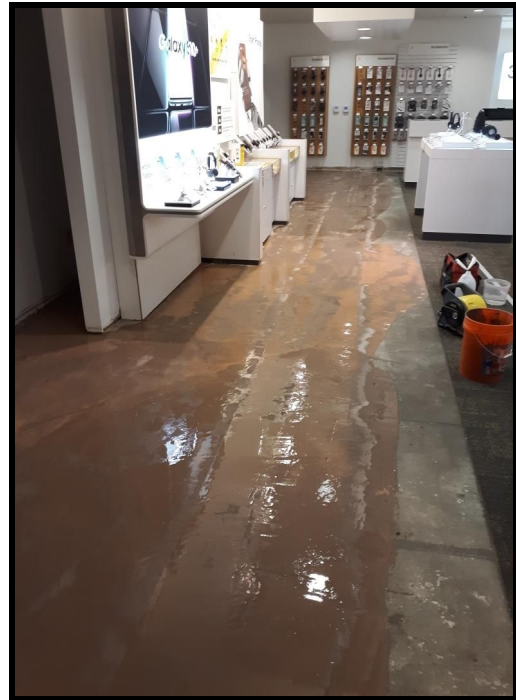

Lennar Construction 300 Unit Aria Apartment Complex - All Low-voltage Systems

Our company was recently selected by Lennar Commercial Construction (the nation's second largest construction company) to perform the installation of the full low-voltage scope. This included. data, voice, wireless, access control, distributed audio and video, security, surveillance cameras, pool gate control, fire alarm, burglar alarm, and gate control systems for a 300 unit apartment complex development project with over 8,000 cables and

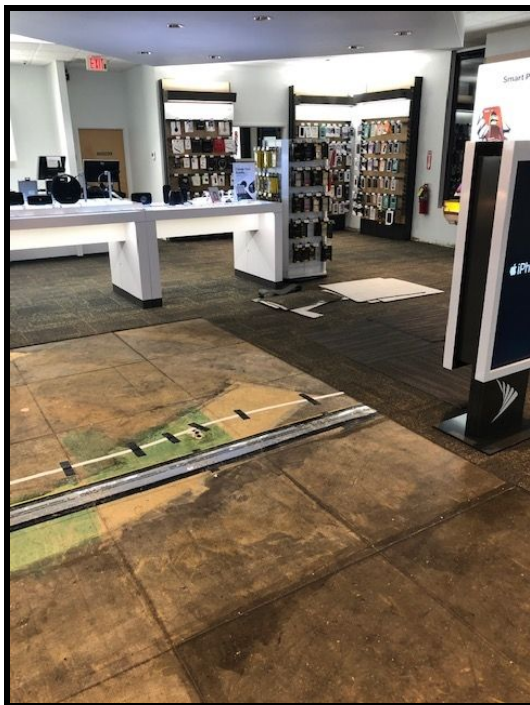

60 panels. ***We are also trusted by the U.S. Senate to provide services to Senator Mario Rubino's and Bill Nelson's Orlando Office.***

Interior Construction and Renovation Services

C4 Services also provides a full suite of interior renovation and electrical services to support our retail customers. We recently renovated ten Sprint stores in Florida, and eight in Wisconsin. We provide fixture installation, removal and replacement, lighting upgrades, circuit extensions, power pole installations, concrete trenching and conduit installation, outlet installation, relocation and extensions, interior patching and painting, drywall damage and hole repair, drop ceiling upgrades, carpeting, floor leveling, baseboard Installation, and LVT and VCT flooring services.

Under Carpet Power and Data Installation - 35 Touchscreen Kiosks Installed in 12 Days

Disney Springs Zara Store - Balcony, Display, Fixture & Window Frame Installation

Recently, Zara was behind schedule with the grand opening of their flagship store at Disney Springs. The project manager called our company for assistance in completing the project. Within two days, we supplied twenty carpenters, craftsmen and aluminum workers who worked around the clock to help them complete the store. We installed all of the aluminum window frames, iron balconies, 80 full length mirrors, store fixtures and provided carpentry services. Zara was exposed to a \$100,000 per day in liquidated damage penalties from Disney for not opening on time. C4 Services helped get the job done right and on time. The project manager thanked us and let us know that without our assistance they never would have completed the job in time for their grand opening at Disney Springs.

Our craftsmen have decades of experience, always carry PPE and fall protection equipment, are properly equipped, and have a relentless commitment to getting the job done right, on time and on budget. Additionally, all of our tradesmen have excellent interpersonal skills, reliable transportation, and clean background and substance tests.

We take full responsibility for, and guarantee all of our company's work, so you can count on C4 Services, LLC to do whatever it takes to get your project completed correctly.

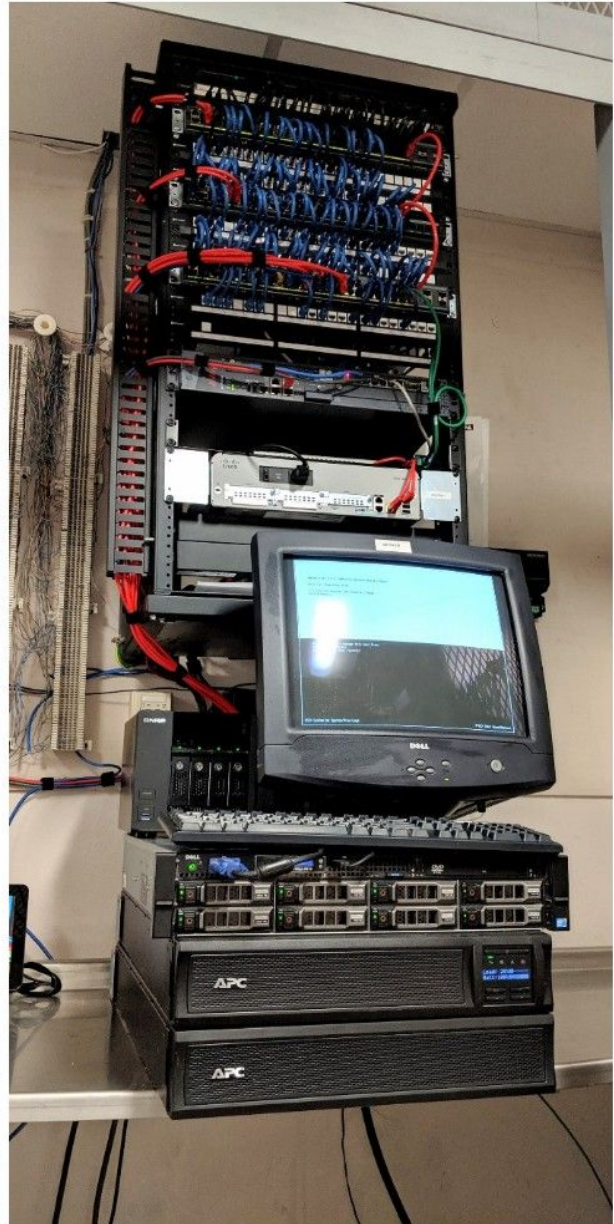

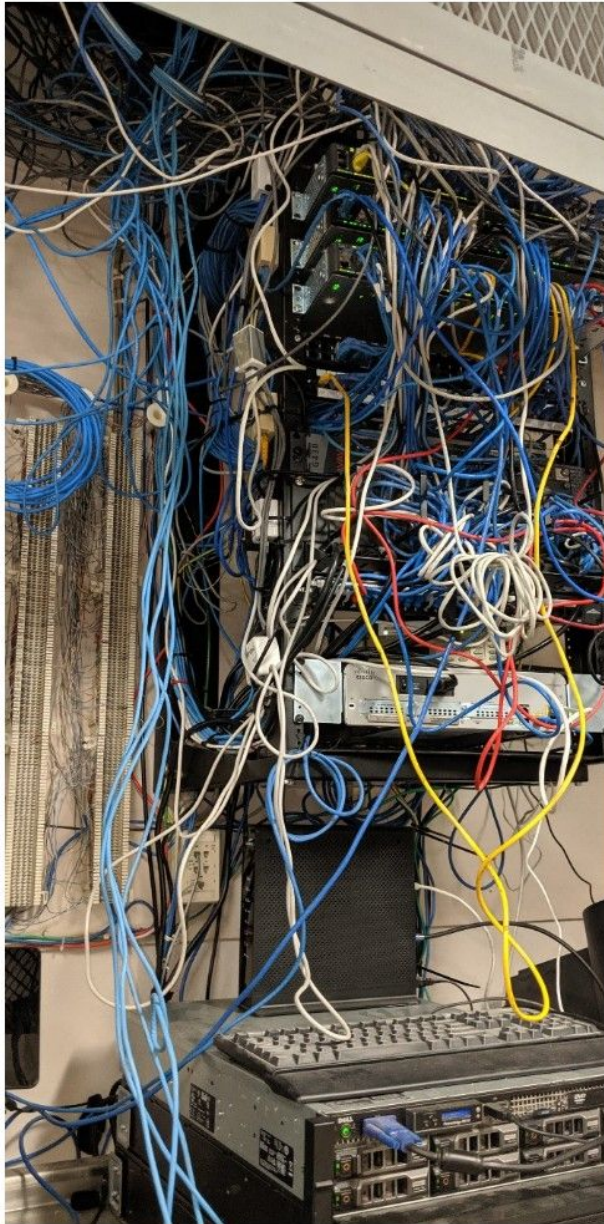

Disney Springs Coke Store Video Wall

As the founder and CEO of C4 Services, I have built and been the CTO for three mid-market sized companies for over the past 25 years. I have a degree in architecture from the University of Michigan with a concentration in computer science. I also own a construction company in the area, so I have the background and experience to effectively and efficiently handle projects of any scale.

Best Regards,
Michael Gouda
