

FAMILY SCIENCE ADVENTURES

BELIZE: REEFS AND RAINFORESTS ADVENTURE ITINERARY OVERVIEW

Day 1:

Flight to Belize City, Belize. Transfer to the lodge near the Belize Zoo. After dinner, explore the Zoo at night with biologists.

Day 2:

In the morning, float through a system of caves on a tube. See the amazing cave formations. Return to the zoo lodge in the afternoon for the daytime visit to the zoo.

Day 3:

Visit the Actun Tunichil Muknal cave. This Mayan archaeological site includes ceramic, stoneware and skeletal remains. Transfer by boat 12 miles off shore to Tobacco Caye. The “glamping-style” cabanas on this caye are protected by surrounding reefs and shallows.

Day 4:

In the morning, our guides will offer an introduction to snorkeling the reefs that are teeming with various wildlife. After lunch, we'll have a similar lesson to learn some kayaking skills.

Day 5,6:

We'll split into smaller groups for some mixed activities including snorkeling, kayaking, stand up paddling, fishing and more. Or, spend some time relaxing in a hammock on the beach.

Day 7:

Depart Tobacco Key and take the boat back to Dangriga on the mainland. Arrive at our rainforest lodge in time for lunch. Enjoy a guided hike to a waterfall and a waterfall swim. After dinner, there's an optional night hike in the jungle.

Day 8:

Visit a chocolate farm and learning about the process of making chocolate. Explore a Mayan village and then take an adventure on a canopy zipline tour. End the night with a jungle bonfire after dinner.

Day 9:

Transfer to the airport in Belize City and depart for home.
