

## Balacing Pen Holder

### About Corbie

We design teacher-made toys and tools that turn everyday moments into hands-on learning. Every Corbie product is created, tested, and refined by real classroom teachers to be simple, durable, and actually useful in your day. **Thank you for supporting teacher-designed products.**

### Included Components

1 Balancing Pen Holder

### Getting Started with Corbie Balancing Pen Holder

1. Gently shake or tap the pen holder on a flat surface to settle the internal balance media.
2. Insert pens cap-side down into the holes.
3. Try different hole combinations and numbers of pens to see how the balance changes.

### Tips

- The Corbie Balancing Pen Holder is designed for BIC-style capped pens.
- Pencils and heavier pens will balance differently and may require more experimenting.
- Writing tools that are very different in size or weight from a standard BIC pen may produce unexpected (but interesting!) balancing results.
