

# The Chinese Communist Party Is at War with America

## Why and How the United States Must Respond

A Briefing Prepared by the Committee on the Present Danger: China

[PresentDangerChina.org](http://PresentDangerChina.org)

The Chinese Communist Party (CCP) has brutally misruled the people of China for over 70 years.

## Examples of the CCP's Crimes against the Chinese People

- Mass starvation
- Rape
- Torture
- Industrial-grade organ harvesting
- Persecution of religious communities
- Slave labor
- Millions of political prisoners and others incarcerated
- Genocide
- Social credit system for surveilling, controlling and enslaving entire population

Any Regime that Treats its Own People So Badly,  
Will Not Treat Others' Better

## *The China Dream & the Great Rejuvenation*

*“Remain true to our original aspiration and keep our mission firmly in mind, hold high the banner of socialism with Chinese characteristics, secure a decisive victory in building a moderately prosperous society in all respects, strive for the great success of socialism with Chinese characteristics for a new era, and work tirelessly to realize the Chinese Dream of national rejuvenation.”*

*&*

*“Let us work together to create a mighty force for realizing the Chinese Dream and the dream of building a powerful military.”*

*General Secretary Xi Jinping,  
19<sup>th</sup> Party Congress October 2017*

Now, the Chinese Communist Party wants to do the same to the rest of the world

## **The CCP's Instruments for World Domination**

- The **United Front** for exporting Chinese Communism
- **WHO and “the China Model”** for pandemic response
- **Social Credit System** for population control
- **Belt and Road Initiative** for global colonial build-out
- **Huawei and the CCP's global 5G network**
- **TikTok, WeChat** – Data harvesting, mining
- **“Elite Capture”** and other influence operations
- **State propaganda** and other information operations
- **Subversion and Espionage**
- **‘Wolf Warrior’ Diplomacy**

## We All are Being Targeted

The only real impediment to the CCP's quest for global domination is a **powerful United States.**

## We All are Being Targeted

So, the **CCP** is determined to **destroy the USA.**

And, consequently, **the CCP is threatening *every American*, making countering it a *non-partisan priority*.**

## A Longstanding Ambition

General Secretary of the CCP  
**Deng Xiaoping**

- In 1991, Deng recognized that, with the collapse of the USSR, a **new Cold War had begun between the PRC and USA. He declared *China would win it.***
- He adopted the **“Hide and Bide” strategy**: patiently seek the West’s help in building up China’s power by concealing the CCP’s true, malign intentions

# The CCP Adopts a Strategy of 'Unrestricted Warfare' against America

In 1999, two influential PLA colonels revealed how to wage war against the United States *without fighting*, including:

- **Economic** – destroy U.S. industrial base, create supply chain dependencies
- **Financial** – recruit Wall Street to fundraise for the CCP: \$3-6 trillion to date
- **Political** – delegitimize the U.S. constitutional republic: Maoist race warfare
- **Information** – aggressive propaganda, suborn U.S. media
- **Subversion** – insinuate Chinese nationals loyal to the CCP, decry U.S. xenophobia
- **Espionage** – FBI/MI-5 “massive threat”
- **Technology theft** – force U.S. companies to surrender proprietary information, buy or steal it
- **Cyberwarfare** – TikTok, Big Data, Huawei, vast army of cyberwarriors
- **“Elite Capture”** – penetrate every institution in America, greed, sex, influence
- **Biological** – devastate the population without destroying their infrastructure

## The CCP Declares War on the United States

In May 2019, the CCP declared a “People’s War” against America in *People’s Daily*, the Party’s most important propaganda outlet.

## Specific CCP Lines of Attack Against America

- **Fentanyl** – Chemical warfare manufactured and transported to the U.S. by the CCP, enabled by money-laundering operations and precursors in Mexico
- **Human trafficking**
- **Influence operations – aimed at governors and others**
- **Confucius Institutes and curricula**
- **Agricultural and other land purchases** (some in proximity to military bases)
- **Acquisition by theft, purchase or other means of sensitive technologies**
- **Penetration of CCP companies in state pension funds** (likely including some sanctioned by the U.S. government for military or human rights reasons)
- **Biological warfare – the COVID-19 pandemic**

## Another of Deng's Ambitions

General Secretary of the CCP  
**Deng Xiaoping**

Deng reportedly tasked **the CCP's biological warfare program** with *depopulating* the United States, enabling its colonization by China

## The CCP's Biological Warfare Attack against America

Within months of declaring a People's War on America, the CCP launched what has been described by a distinguished group of experts known as **Team B III** as a **“biological warfare attack against America”** – namely, the SARS-CoV-2 virus and the COVID-19 pandemic it precipitated.\*

- **Over 1 million Americans have been killed to date by “the CCP virus.”**

\* See Team B III report *The CCP is at War with America*, [www.CCPatWar.com](http://www.CCPatWar.com).

## Key Findings of Team B III: *The CCP is at War with America*

- There is **no evidence that the virus emerged naturally**;
- There is, by contrast, **significant circumstantial evidence that it came from a PRC biological weapons laboratory**; and
- **The virus was deliberately unleashed on the world by the Chinese Communist Party (CCP)** when it allowed millions of travelers from Wuhan to fly internationally, even as it was locking down movement within China.
- **Worse is in store**: Evidence of ongoing CCP research, gain of function, genetic engineering of more deadly viruses
- Some of that **research is *still being done* in U.S.** universities, facilities and laboratories

## **Mounting Evidence of CCP Preparations for *Kinetic* War with the U.S.**

- **Senior officials' explicit threats** (Xi, Wang, Wei)
- **Guangdong Province video** – transition from “normal to war” in 90 days
- **Massive Chinese lockdowns** – justification for supply chain restrictions/disruptions, population control and use of social credit system to restrict movement of would-be demonstrators
- **Exercises** aimed at Taiwan, Japan, South China Sea
- **Leapfrogging 1<sup>st</sup> Island Chain**, gaining footholds in the 2<sup>nd</sup> one
- **Hoarding** food, fertilizer, fuel, silicon chips, rare earth minerals, other critical materials
- **Weaponizing space, cyberwarfare capabilities**
- **Nuclear build-up**
- **Conventional force build-up** (especially, naval forces)

## What We *Must* Do Now: Six Steps

In the face of the truly existential threat posed by the CCP's war against America, we must be **able and willing to defend ourselves** against *and defeat* the present danger. This will require, among other things:

1. The United States must recognize that **the Chinese Communist Party is our mortal enemy, a transnational criminal organization and a threat that must be defeated.**

## What We *Must* Do Now: Six Steps

2. To that end, **the United States must adopt a *war-footing*** that will end our dependence on Chinese supply chains for everything from medicines to rare earth minerals to fertilizers and silicon chips.
3. In fact, we must wean ourselves immediately from such vulnerabilities by **disengaging from business dealings with China** and **finding genuine alternative sources of supply** (not simply Chinese cut-outs in other countries).

## What We Must Do Now: Six Steps

**4. We must rebuild our military** by focusing its funding, energies, training, deployments and acquisitions on defeating the CCP threat.

The forces we currently have available to counter China must have that mission as their priority objective and be deployed for *offensive*, as well as defensive, action. We must engage our allies to this end, as well.

## **What We Must Do Now: Six Steps**

- 5. U.S. politicians and officials compromised by the Chinese Communist Party must resign.**
- 6. Financial managers must stop using American investors' money to underwrite the Chinese Communist threat.**

## What *YOU* Should Do Now

Informed by this presentation, **engage those who will be representing you in the new Congress and in your state's executive and legislative branches to:**

1. **Take “The Brief”** at [www.CCPatWar.com](http://www.CCPatWar.com); and
2. **Take up “The CCP Challenge”** (also at CCPatWar.com) – explicitly committing to pursue the 6-step agenda and to be **held accountable** for doing that.
