About Us

Inviro Industries Limited is a leading group of companies specializing in the manufacturing of high-quality steel fabricated products, including nails, wire, pipes, rods, sheets and more. We are committed to serving the global construction and manufacturing industry with precision-engineered solutions.

With a **global presence** that allows us to serve customers worldwide from USA and Canada to the east, like Japan and South Korea.

Image: Wire Rod Stock, Mill, Dakar, Senegal

Our Fasteners

Precision-crafted nails, manufactured specifically to meet the high standards of the U.S. market. Manufactured in compliance with ISO and ASTM standards at state-of-the-art facilities located in **Chennai, India** and **Dakar, Senegal**.

Delivered to key port destinations or directly to **customer warehouses** nationwide with guaranteed shorter lead times.

Quality and Products

Our nails are crafted from premium hot-rolled wire rods. This coupled with our rigorous **quality check** and **inspection** process, at every stage of production, guarantees superior strength and durability in our finished goods.

Our testing lab is equipped to measure the following testing; **Tensile Bending, Hardness, Corrosion and Coating Thickness.**

What We Offer

Inviro Industries offers high-quality fasteners manufactured to meet ASTM and ISO standards, ensuring reliability and excellence.

With **Inviro** you gain access to a comprehensive range of nail fasteners, delivered directly to your location for your convenience. Trust us for all your fastening needs.

**Precision.
Strength.
Delivered.**

Custom Packing

We provide **various packing size and weight options**; 1 Lb, 5 Lbs, 30 Lbs, 50 Lbs as well as **custom sizes, as per customer requirements**.

White Labeling

This includes **packing and labeling tailored to meet your needs**, i.e. Product Name, Description, Company Logo and Contact Information.

Mixed SKUs

Smaller quantities of different SKUs, i.e. Plastic Collated, Wire Collated as well as Bulk Nails in a single container.
