

Theta 3.0 AMA Notes (collaborative from [BigDog1111](#) & [EverythingTheta!](#))

- Current edge nodes can earn even more by doing data relay by doing other jobs, with option to stake TFuel in 2021 as part of 3.0 launch
 - Goal, as we knew, is to get more edge nodes online (hoping around 25k nodes worldwide)
 - Edge node staking opens up to more stakeholders
 - TFuel staking likely min/max, fairly low **min: 10k TFuel, max: 100k**
- Wes' hair haha gettin' shaggy!
- 10k TFuel minimum (entry) 100k max? (100x the current network J)
- **TFuel in games, Wes hinting at it, in game currency, NFTs (can't leak)**
- Breakout tfuel into different categories within ecosystems.
- see Wes's face when he brought up coinbase.
- C corp (theta labs) good to know for tax structure.
- **WORKING WITH A BUNCH OF PARTNERS - CUSP OF INFLECTION POINT TO HYPERGROWTH - CLOSING DEAL WITH YOUTUBE TYPE CALIBUR OF PLATFORM IN 2021!!! HOLY SCIENCE**
- 2020 building network out 2021 hyper growth
- \$100.00 theta Mitch's goal (100x)
- **another global 100 company about to sign (as validator) - i think he was talking about Samsung here without saying Samsung? Other than Samsung. Samsung 2021???? LG!!!!!!!!!!!!!!!!!!!!!!**
- Market sentiment has shifted for blockchain. (Wes)
- positive PR momentum for crypt0 as a whole, tide is turning
- Line is being worked on to go live one regulatory issue. (should be solved soon)
- **MERRY GNOMEMAS**
- Discord vs telegram - may migrate theta chats to Discord to avoid scammers!
- Cooking up TFuel in smart contract from staking then can pull
- J Youtube example resolutions
- examples for edge computing (microsoft, amazon, google) transcoding
- **THEY ARE DEPLOYING THEIR OWN TRANSCODING NEEDS TO THE EDGE NODES**
- go through blog again for smart contracts interesting features.
- three letters? DEX? NFT? (dex not three letter word...???)
- **WES SAID DEX COMING WITHOUT SAYING DEX COMING...BIG GRIN ON FACE yep! new revenue for streamers and platforms**
- Purchasable NFTs coming soon aka dex
 - I think they mentioned the [big dog NFT coming soon???](#)
- 10 trips to South Korea multiple branches in Samsung, highly complex deal. (daily daily delayed and replaced moved towards TV plus pushed to mobile devices.
- 2 other groups in Samsung they are engaging with. (TV & VR??)
- Truffle libraries? over my head.
- <https://www.trufflesuite.com/teams>
- Smart contract cost average, pennies 10 cents wow
- **TFUEL Pre EEN for testing to determine min/max will pay out rewards on a % basis**
- What did he say about jobs becoming available? I think about encoding jobs for theta labs...they are soon going to be handling their site's encoding via edge node caching
- Linux is on road map for EEN
- Use case to pull projects over through low cost and other innovations theta brings.
- **Cross chain bridges to stable coins even mentioned in 3.0 whitepaper**
- wow dex brings stable coin.
 - *Dascinos!!! (decentralized casinos)*
- Mitch wants to drive the word out about the project we have our work cut out for us!
- Second Hackathon January 2021 (larger amounts of token rewards and more guidance from team)
- Content on Edge Nodes - two different ecosystems, one is fully decentralized and one they more so curate
- **Relaying must be on to earn tfuel for the EEN**
- **Potentially collaborating with infrastructure partner to enable items within their app stores or creating a decentralized app store on the theta blockchain...a "dAppStore"?**
 - *downloads through the edge network.*
 - *decentralized steam*
- Open sea (game) referenced who owns it?
 - **BOOM MITCH DROPPED HINT FOR NFT EXCHANGE?!?!?!?**
 - <https://opensea.io/>
