

F.A.C.E. Painting Enterprises

Health & Safety Disclaimer

PRODUCT REGULATIONS:

F.A.C.E. Painting Enterprises uses the highest quality professional face paints and products that are skin-safe and FDA approved for this purpose. Our paints are water-based non-toxic, antibacterial and hypo-allergenic cosmetic paints that will wash off with gentle soap & water, or a wet washcloth. We use poly-glitter responsibly, which is manufactured specially for safe use on the face and body.

HEALTH REGULATIONS:

In the best interests of our Clients and Staff, particular circumstances may hinder a client's ability to be painted. In conjunction with CDC guidelines and to prevent the spread of germs and/or risk of infection, **we reserve the right to refuse face painting on any client who displays:**

- | | |
|--|---|
| <input type="checkbox"/> Runny Nose / Excessive Sneeze | <input type="checkbox"/> Poison Ivy / Skin Rash |
| <input type="checkbox"/> Wheezing / Excessive Cough | <input type="checkbox"/> Head Lice or Bed Bugs |
| <input type="checkbox"/> Cuts or Open Wounds | <input type="checkbox"/> Ringworm or Fungal Infection |
| <input type="checkbox"/> Extreme Eczema or Psoriasis | <input type="checkbox"/> Cold Sores / Herpes |
| <input type="checkbox"/> Chicken Pox or Shingles | <input type="checkbox"/> Warts or Infected Blisters |
| <input type="checkbox"/> Conjunctivitis / Pink Eye | <input type="checkbox"/> COVID-19 (<i>Positive in last 14 days</i>) |

Our Staff is required to maintain best-hygiene practices. All persons wishing to be painted must be presented with a clean, dry face. We clean all brushes, sponges and hair clips thoroughly and our cleansing water is emptied repeatedly during every event. To ensure that these cleanliness standards are maintained, we ask that our products are only handled by our Staff.

F.A.C.E. Painting Enterprises accepts no liability for any symptoms or effects of face painting services. Although our products are hypoallergenic and non-toxic, allergic reactions may occur on rare occasions or on clients with sensitive skin. Any itching, burning rash, or breakouts that occur after the services are performed are accepted at the client's own risk. If a person has never been painted before or has sensitive skin, a patch test may be performed to determine skin sensitivity. If there is no reaction after 15 minutes' time, it is likely that no long-term reactions may occur. It is advised that if any discomfort is felt after services are performed, our products can be removed with a wet towel.

Health & Safety Disclaimer

SAFETY REGULATIONS:

F.A.C.E. Painting Enterprises accepts no liability for personal injury or any items that are lost, damaged, stained, or stolen while waiting for, or during the time in which services to be performed. In addition, we ask that all parties adhere to the following safety regulations:

- ⊘ No eating or drinking is allowed during Face Painting.
- ⚠ Clients and their language and/or actions are the sole responsibility of the individual.
- ⚠ Clients must consent to be painted. We do not paint anyone who is asleep or unaware of painting.
- ⚠ Event Organizers must obtain Parental Consent of all minors in attendance for Face Painting.

AGE RESTRICTIONS (MINORS):

- ⊘ Children under Age 2 will not be painted.
- ⚠ Children Ages 2-16 must be supervised at all times.
- ⚠ Children under Age 16 must be accompanied by an adult.
- ⚠ Photographs may only be taken of your own child.
- ⚠ Parental Consent must be provided for Staff to take photos for Promotional purposes. In this case, photographs are used to promote our services only. You are under no obligation to give consent. Parent/Guardian permissions for use of photos in advertising will include Promotional mailings, Press Releases, Website Gallery photos, Social Media, *etc.* The identity of any photographed client will not be revealed to or shared with third parties. A copy can be emailed to the client upon request.
