RE: **Criminal Referral** - A Pattern Of Racketeering Acts And Fraudulent Concealment Conducted By The United States, Including Currently On-Going Entrapment And Fraudulent Concealment Operations

Good day -

The Department of Justice violates federal law. It fails to protect Americans from an illegal bioweapon which is subject to penalties to life in prison under 18 U.S.C. § 175. The Department has and does engage in racketeering acts in its so-called intelligence operations which violate the Fourth Amendment and 18 USC 1961-1968, which it has run against targeted persons and groups, and uses to fraudulently conceal government police powers operations in the control of illegal human experiment victims in involuntary servitude, violating the Thirteenth Amendment and federal statutes.

*The United States' effort to fraudulently conceal generations of its illegal bioweapon development and its illegal experiments on humans has now failed utterly and completely - in full view of the American People and the world. Federal law is being actively violated by the federal government in its use of the illegal bioweapon against American civilians and military personnel. Violations of the 1972 Bioweapon Treaty's "never to possess" absolute prohibition are well established, beyond doubt, on the public record, and on government records throughout the United States.*

*The Department of Justice has systematically failed to protect the American People from these corrupt and criminal acts of government for decades. State secret privilege cannot be invoked for illegal programs and illegal operations of our government. The Department must act to perform its constitutional duty to "establish justice" – or be replaced by government entities which will:*

"That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. " - July 4, 1776

I wrote to you as the designated nominee on January 21, 2025 regarding these persistent failures in Department operations, inspection, and agencies. During your confirmation process, I received a very telling reply from the Department's Criminal Division. About ten days later the FBI reply to that same letter crossed in the mail during the nominee's status changed to confirmed and appointed for the new FBI Director. As shown in the enclosed document set, the Criminal Division referred me to FBI, which then replied using a blue "Return to Sender" label to cover its address on my mailed envelope without ever having opened the envelope to read its contents. This bureaucratic pettiness would not ordinarily be worth mentioning, much less a letter to the Attorney General.

But this particular pattern - down to the smallest details of a coordinated reply to my letter to nominated officials before appointment and this crossing in the mail as these officials are appointed - undertaken in yet another in a long series of deliberate, disdainful, in your face contemptuous gestures replying to citizen complaints about egregious and illegal government operations - is emblematic of the Department and FBI's long-running lack of comprehension of and consideration for constitutional and civil rights of American citizens. I note this here based upon decades of direct experience with its predatory operations. By way of example, the pattern of acts in this January 2025 letter reply sequence is almost exactly the same as the M.O. displayed in the September 2021 NYPD admission, coverup, and subsequent FBI HQ letter sequence, see Interline Exhibits 17-18 at paragraph 555 in the complaint NDTX 2:24-cv-123.

Apparently FBI already knew what the letter said - from reading it while I had written it, then passing the content to FBI Headquarters from its local field office here. This comes as no shock to me these days.

We go way back, to an FBI church and religious rights hijacking process in collaboration with Army and CIA This likely began around 1948, several years before I was even considered a future option by my mother, then a teenager. She was busy playing baseball after Sunday morning home-based church services in her father's living room and an afternoon potluck dinner at their dairy farm home. The FBI sent two agents in a car to sit on the county road outside the farm on Sunday morning and surveil these in-home church services.

My grandfather invited them in. They didn't accept. But my unwitting religious family was in for a very long ride - in the trunk of a government sedan secretly driven by DOJ, FBI, Army, and CIA. That corrupt ride continues today, but at least we finally all know where we sit. Or perhaps I should say those of us who have so far survived this depravity do. Not all of us have been that fortunate at the hands of the Department and its government allies, as described in the complaint synopsis at paragraphs 1-37, and in complaint paragraphs 400-419, 803, and 805.

## **On-Going Pattern Criminal Acts Echo Historical Conduct**

As a closely placed subject (and long held in involuntary servitude) in this long running sequence of Nazi-style illegal human experiments on Army veterans (my father and uncle among them) and their children and descendants (my siblings, their children, and me among others), from my age 5 to now age 69; and as a victim of direct human trafficking by FBI and Army in this secret illegal experimentation beginning at age 12, I have been subjected to a lifetime of Thirteenth Amendment violations by the United States.

These rights and racketeering crimes include decades of Fourth Amendment violations, and other racketeering acts perpetrated and fraudulently concealed by the Department and federal police powers agencies, primarily FBI, in conspiracy with other police powers, military, and intelligence operations of the United States, its political subdivisions, and, at times, allied intelligence and police powers in Canada, Great Britain, and France, among others, which have been used against these victims and against other Americans who were targeted by other destructive sabotage of rights and property.

The now clear intent of the United States throughout in this depraved illegal program has been to fraudulently conceal it from the American public, and the world. These US violations of 18 U.S.C. §§ 175-178, and of the 1972 Bioweapon Treaty, wherein the US agreed “never to possess” a bioweapon which produces biochemicals harmful to humans, including by synthetic means - the mode which the illegal bioweapon uses in its pulsed energy sequence mechanism of action to hack brain biochemistry, as described in the referenced complaint at paragraphs 2-7, has and does continue in violation of our Constitution and “unalienable rights.”

My complaints, including to the Department on dozens of occasions, and to the federal courts on over a dozen occasions, have been met by official silence, legal rebuffs, and repeated offensive police powers operations against me. These attempts to silence me, send me to another realm, to discredit and to undermine have thus far failed, and in full public view as they continue these days.

The Department of Justice is systematically compromised and corrupted by its own decades of participation in these illegal operations. See the complaint NDTX 2:24-cv-123. The federal district and appellate courts are also compromised and contorted by judges, 88% of whom hail from the Department. See the Fifth Circuit docket in 24-10614 and the Supreme Court cert petition 24-6448. These documents are also available on ProjectMindBreaker.org

## **Yet Another Set Of Entrapment And Instability Operations Initiated In Late 2024**

And here we are again, bound in the trunk of that 1948 government sedan in yet another Department operation without legal foundation. This sequence began in October 2024 when my mother's death was reported to me. It involves family members, including my siblings.

When I attended my mother's funeral in Washington state in late October, I noted among many other things, a black sharpie line drawn on the cadaver which was visible just below the blouse line in the neck area. The service was attended by far fewer people than I have ever witnessed at any such funeral amongst members of this church since I was old enough to sit upright during a funeral. I attended dozens of funerals as a child, held on almost every day of the week.

When we reached the cemetery, I noted that the grave marker used to mark the final resting place, together with my father who preceded her in death, were mislocated about 100-150 feet to the northeast of his original burial plot and the adjoining plots purchased in 1970 for members of my mother's family of origin and my parents when my eleven year old sister Sandra died. The grave marker of my eleven year old sister Sandra, buried years before and adjacent to my father's final resting place, had also been relocated.

Sandra died in April 1970 from Reye Syndrome, a medically induced hemorrhagic brain swelling perpetrated by a surreptitiously embedded USPHS doctor, Kohler, though none of our family understood this at the time. Sandra's programmed death was induced months after the 1969-70 peak of winter influenza season had passed. Her twin sister in the same sixth classroom had no such influenza infection, as related at paragraphs 803 and 805 in the above referenced complaint. We were reassigned to a government hijacked version of our church weeks later as related in complaint paragraphs 1-37. The church elder, a member of Army Intelligence acting secretly, would later be known as Stephen Breyer, an Associate Justice of the US Supreme Court.

Complaint paragraphs 803 and 805 also relate the untimely death of my uncle's granddaughter. My uncle, a conscientious objector like my father, had served as an Army medic. Audrey, 18, was murdered by a never-violent woman on September 6, 2011, in a love triangle murder caused and created by illegal bioweapon remote manipulation. Army General Petraeus became CIA Director Petraeus later that day. He resigned from CIA 14 months later over a love triangle classified leak scandal while had occurred while he was an Army general officer. That confluence of events on 9/6/11 was no accident.

It was a tradecraft signature which has been and is sadly and horrifically indicative of the long-running depraved nature of this pattern of government criminal acts against Americans, many of whom have faithfully served and against their dependents and descendants. These victims were originally adversely selected, through religious discrimination by military and intelligence departments and agencies, for these depraved inhumane sacrifices to United States.

This serial psychopathic pattern of racketeering acts has been and is used to test, deploy, and protect the illegal bioweapon and this illegal program, and to sustain a fraudulently

concealed pattern of Fourth Amendment violations by FBI and other police powers, intelligence, and military departments and agencies. Criminal. Illegal.

The Department, and FBI in particular, have failed these victims systematically and for decades. And have relentlessly pursued those of us who can testify accurately and truthfully about their pattern of racketeering acts.

### **The Current Fraudulent Family Estate Proffer Being Made By FBI And SDNY**

My “mother’s estate” remains an issue at the moment in this particular on-going operation. My sister Susan, who is Sandra’s surviving twin from that April 1970 USPHS medically induced murder, lives near my mother’s former residence, and was her primary late life caregiver. Susan’s text message on February 26, 2025 voluntarily proffered that a \$134,000 equal share of my mother’s estate is available to me. But corrupt police powers operations cutouts using texts and emails have been and are commonplace in these racketeering pattern acts – which have also included assigned close relations. I spent well over a decade with one of them, Jeanette, while her nominal stepfather, my nominal father-in-law, bore a marked resemblance to the eventual 46<sup>th</sup> President. See complaint paragraphs 608-614 for descriptions of these crowded, assigned, and destroyed relationships.

This February 26, 2025 texted proffer appears to be yet another desperate bad faith operational acceleration without legal foundation by your Department (Manhattan FBI and DOJ SDNY are familiar here) in these stylized instability operations.

These police powers operations are occurring as (i) a Supreme Court cert petition 24-6448 is pending in the wrongful Fifth Circuit appellate decision 24-10614 and the accompanying bad faith acts related to the original complaint NDTX 2:24-cv-123, while (ii) my managed apartment unit is announced being sold yet again by another in the series of its mysterious trust owners and another offer to cancel my lease has been made by a letter from this property manager as from the one before, and (iii) as the HUD Section 8 voucher which provides essential housing assistance is at stake, which could force my loss of housing and/or relocation in the event of yet another in the long-running series of bad faith acts by the Department (see further Section 8 bad faith acts below). The texted proffer also included (iv) a Special Needs Trust offered to provide monthly income, though such trusts are restricted by law. I am not eligible for a special needs trust, despite the Department’s prior best efforts - bad faith actions in my false imprisonment without hearing in a Bergen County, NJ psychiatric facility at taxpayer expense from October 2, 2010 to March 30, 2011, related at NDTX 2:24-cv-123 paragraphs 522-523.

That HUD Section 8 voucher was initially used to traffick me yet again in 2018 to my current apartment into the physical proximity of two FBI/SDNY target in the NJ Senator

Menendez investigation (paragraph 524). Those two now-convicted defendants have offices 550 feet away from my current residence. A doctor who abandoned his NJ medical practice after a referred colonoscopy, which resulted in my hospital recovery room fall and near blow to my temple in April 2022 (paragraph 706), which echoed my sister's 1970 experience falling from her pony and striking a metal pipe (paragraphs 417A, 805AA) after her twin sister's 1970 death (paragraphs 803, 805), also had an office in that same office building.

This HUD Section 8 voucher was not transferable to another location when I attempted this in mid-2020 related to Gia, paragraph 613, also 608, actually another doubled undercover female in another assigned relationship FBI related sexual abuse scandal. I attempted to transfer the voucher to another location when Gia claimed to be relocating to a nearby university. This lack of portability directly contradicts HUD regulations, which provide portability of Section 8 vouchers for relocation. This voucher is essential to my housing stability due to the prior criminal acts of FBI and others against my rights, property, and employment over six decades, see complaint paragraphs 350-711.

Since none of that, nor any other police powers operation lacking legal foundation has worked in the past 17 plus years in the NYC/northern NJ area despite epic provocations, torture, sexual abuse, wire fraud, investment fraud, and so forth, as summarized in the timeline at paragraph 30; and since former FBI Directors such as Mueller and Comey, among others in the federal justice apparatus are implicated;.....

PERHAPS there is another agenda to relocate me to some other form of obscurity, since these repeated crushing attempts in full public view in the region have thus far failed.

It would be a reasonable line of inquiry for a properly functioning Internal Affairs or Inspection operation, as it would have about six decades ago when these depraved acts began. But the Department never has and does not have an effective capacity in either of those functions, see paragraphs 571-584 and Interline Exhibits 17-19.

*This currently running sequence – forward from the death and cadaver burial in October 2024 - is yet another in the Department's long-running series of operations to pressure and entrap in its sustained continuity of coverup operations. These operations have become remarkably easy for me to identify having been run so many times with no result as always. The Department frankly looks foolish, reckless, and worse, in these continuing feeble flagellations occurring in full public view.*

## **Pattern Official Silence – And Worse - By DOJ**

With the exception of this most recent 2024-25 sequence relating to my mother's death and family of origin, these matters have been clearly communicated in hand delivered correspondence to the US Attorney for the Southern District of New York. These direct written communications were started in December 2021, during the course of my now years-long laborious and tedious forensic reconstruction process. None has ever been answered by SDNY. These communications are documented on the ProjectMindBreaker.org website page entitled Executive Branch Failures.

As for the Department, the right "to petition the Government for a redress of grievances" is an absolute myth in the Department of Justice. There has been no action, no communication, no alternative remedy, only official silence and the now well-recognized continuing pattern of bad faith actions and operations, all of which lack any legal foundation – on and on, then on and on, and then again and again.

The front door to Justice Department headquarters was physically blocked to me by two uniformed officers on October 10, 2023 when I visited Washington, D.C. The Union Station US Post Office then refused my attempt to mail the document set I was trying to deliver to Justice Headquarters on that day. The Department's US Attorneys have operated as human traffickers (e.g., Charles Rosenberg, Eastern District of Virginia), and Assistant US Attorneys have acted to adversely affect interstate commerce (e.g., Daniel Goldman, Southern District of New York). These acts are well outside their Congressionally prescribed legal authority under 28 U.S.C. §§ 541, 542. This list of acts well exceeding constitutional authority and failing to protect is extremely long. The complaint presents only 110 such sequences of individual adverse and predatory police powers acts by the Department and its co-conspirators.

When the Department's Assistant Inspector General was contacted in writing in 2021, they initially disclaimed all interest, and then refused to even answer my pointed reply, to their initial dismissal, shown at Interline Exhibit 19 in the above referenced complaint. So much for Inspectors General protecting the public from extreme overreach.

Meanwhile, our federal courts, approximately 88% former Department employees, offer these same types of responses in writing, repeatedly demonstrating an utter lack of interest and worse in the rule of law, as described on the ProjectMindBreaker.org website on the Federal Courts Reject Federal Law webpage.

## **Constitutional And Legal Obligation To Act Against Illegal Government Operations**

Our Declaration of Independence, which the Founders fought and died to bring to life for us all, provides the reason our government exists at all: "That to secure these rights,

Governments are instituted among Men, deriving their just powers from the consent of the governed....”

But what We, the People, have actually experienced in lieu of the justice promised in our Constitution and in the 1870 enabling act which created your Department is, in these illegal programs of rights violations and pattern racketeering operations, far different from that promise –

- the illegal bioweapon program has operated for more than 60 years in an ever-increasing spiral of depravity to and including coercion, frauds, loss of property and income, torture, sexual abuse, forced relationships, and lethality;
- a long-running pattern of fraudulent concealment run by the Department and other elements of the Executive Branch, which fraudulently conceals abuses by the government’s illegal bioweapon program; and patterns of racketeering acts styled as intelligence operations, but which are actually run against targeted citizens of myriad races and religions; all concealed behind this thin veneer of state secret privilege, and used to target and destroy families, marriages, careers, and private businesses;
- a progression of federal officials, including judges, hailing from the Department, who have perpetuated this pattern, and engaged in further fraudulent concealment to avoid their own inculcation while previously employed by the Department; and similar acts by other current and former Executive Branch departments and agencies and their officials (examples at paragraph 105) in public and private life; and
- an ever spiraling pattern of depravities and criminal acts by federal police powers, intelligence, and military departments across the intervening decades, acting against the “unalienable rights,” personal rights, and property interests of the American People.

These patterns of enterprise and associated-in-fact enterprise racketeering acts, enabled by the Department’s actions and failures to act, were initially run alongside other illegal but now cancelled programs which ended only after public exposure and outrage. Those now cancelled programs included:

- FBI’s 15 years of formal Cointelpro, which used 30% of FBI resources to conduct a war including disruption, sabotage, mayhem, and violence on religious, social, and civic organizations, and on civil and constitutional rights, but which patterns of bad faith acts continue despite the program name Cointelpro being banished from the agency;
- MKUltra’s two decades of drug induced depravity, while CIA, with Army and other DOD support, operated as the world’s largest drug dealer, secretly administering 100 million doses of LSD to unsuspecting members of the American public, then stood back and watched in official silence while their mayhem continued in America’s communities, and,

on discovery of their role, destroyed all the evidence of the deaths and other depravities it caused, and

- Other myriad other secret reckless and illegal programs, described in other media and Congressional investigations, spanning the decades since World War II. All this while.....

The Department of Justice has NEVER criminally prosecuted these organized enterprise patterns of crimes as the racketeering acts which they actually are under federal and state laws. This on-the-ground pattern of Departmental failures has once again been the reality perpetrated by FBI and the Department in this matter – not just this once, and not just for the sixty-four years of my own personal direct experience from age 5 - but for millions of Americans over these decades of government depravity.

The net result of these Departmental failures has been a broad and durable loss of constitutional and civil rights by the American People – the church hijacking described here is but one among the casualties in the federal government’s war on rights perpetrated by the Executive Branch with the participation and complicity of the Department of Justice, formed to “establish justice.”

Cointelpro and MKUltra investigations in 1975 led to the Congressional reforms which followed, but only on paper. Those reforms and the grand sweep of federal law have been simply ignored - by FBI and by other federal police powers - as was the 1993 Religious Freedom Restoration Act, among other acts of Congress – laws also ignored by both federal district and appeals courts in this matter.

### **Sustained Involuntary Servitude, Sustained Predatory Departmental Operations**

That’s why I am a 69 year old, 64 year “Involuntary Servant” of the federal government, one of the many “loyal subjects” who are victims of endless entrapment efforts, depravity, torture, and other psychopathic patterns of Departmental and other governmental conduct, including its current operations. Complaint paragraph 820 incorporates the clinical definition of psychopathy. That working definition has been met by the pattern of acts and behaviors demonstrated by the Department and other police powers operations involved in this matter, in their patently illegal, unconstitutional, and deadly set of illegal human experiments to develop a bioweapon.

We threw out the requirement to be “loyal subjects” with the Revolutionary War. That era supposedly ended in 1781. More recently, the fascist Hitler could only dream of such a weapon despite his best efforts and the illegal experiments by his Dr. Mengele on human victims in his enclosed, captive police powers operations, assigned ghettos and camps.

The United States agreed in the 1972 Bioweapon Treaty “never to possess” such weapons. And there is no constitutional authority to engage in secret lifetime restraint of any American without due process of law – and the desperate entrapment attempts lacked any legal foundation, and have utterly failed to date, at least in my situation.

The only constitutionally permitted suspension of rights is by a Congressional act to suspend the writ of habeas corpus temporarily, found in Article I section 9. But the United States and this Department do so nonetheless, while continuing and permitting these predatory police powers operations against victims of prior corrupt acts and illegal government programs.

I would know - and I am far from the only victim.

These profoundly adverse impacts – loss of life, property, dignity, and rights – which have and do result from the government’s patterns of depraved and criminal acts - extend well beyond my family of origin, unquestionably crossing the lives of many other Americans, including many who have faithfully served our nation, and their dependents and descendants. These acts deserve no quarter. These perpetrators have earned their dates with a truly independent justice system - one which operates according to the rule of law, not according to some other arbitrary rule of men who act in corrupt self-interest.

\* \* \* \* \*

Our Constitution, the Department’s 1870 enabling act, federal statutes related to the illegal bioweapon, racketeering crimes, rights violations, and the Department’s own sustained pattern of negligence in its neglect to prevent, all obligate your Department to act swiftly.

We expect the constitutional administration of justice. We do not have it. Our Declaration of Independence is due for a full public review in 2026, during it’s 250<sup>th</sup> anniversary year. The Department of Justice, and its agencies, would be wise to right themselves swiftly and be found on the side of the rule of law, as “it is the Right of the People to alter or to abolish it....”

Sincerely,

Dennis Brewer  
1210 City Place, Edgewater, NJ 07020

## Appendix

### **Service To The People Is A Sacred Trust And Privilege, Not A Roughshod Entitlement**

My own great-great grandfather, an unarmed Army Cavalry bugler rode a horse from 1861 through the April 1865 Battle of Appomattox. He was awarded the Medal of Honor for an act of bravery on April 4, 1865 in that battle five days before General Robert E. Lee and his forces surrendered. General Lee himself would surrender his slave holding estate to the service of this nation as Arlington National Cemetery.

That Medal of Honor awarded to this unarmed farmer-citizen-volunteer soldier, together with a sense of disdain among some military general officers for service by conscientious objectors and by his descendants who shared his religious beliefs and convictions, and the sense of self-anointed entitlement among those Army general officers - were almost certainly the key factors in the adverse selection of his descendants through religious discrimination - by the US Army, CIA, and DOJ. In the 1950s, these government departments and agencies began many long decades of illegal and depraved acts against soldiers, their dependents and descendants, and other citizens despite their constitutional oath as officers sworn to serve with honor and defend their fellow citizens with their own lives when necessary.

This attitude of self-anointed sense of personal and organizational entitlement above law and above all others has and does persist among some in government, including in the Department of Justice, other federal police powers organizations, intelligence, and military departments and agencies.

### **Distortion Of The Department of Justice's Original Mission Sustains Depravity**

The Department of Justice was established in 1870, in the aftermath of the Civil War for the constitutional purpose of establishing justice for the People of the United States. It was created soon after the adoptions and ratifications in 1865, 1868, and 1870 of the Thirteenth, Fourteenth, and Fifteenth Amendments to empower people to be free of government enforced slavery and involuntary servitude and provide equal rights. The KKK Act of 1871 was among the first federal statutes Congress adopted after creating the Department, and its enforcement was a primary initial purpose of the Department.

This organizing purpose lost its place as *Plessey v. Ferguson* validated systematic abridgement of rights for some in 1898. Then J. Edgar Hoover leveraged that cruel reality beginning in the early 1900s as he sought to expand his Bureau of Investigations bureaucracy and its funding. He used the filibuster-proof Democratic Senate majority, which was dominated by white southern Senators to do so, expanding his agency's budget and personnel by sustaining a corrupt bargain against the rights of the American People.

With no investigation, there can be no prosecution. That's how the Department and FBI worked their way out of civil rights enforcement as a priority, and into Cointelpro – a war on

## Appendix

religion, rights, and race. Cointelpro consumed around 30% of the agency's 14,000 or so personnel and resources to disrupt and attack national and community civil and constitutional rights organizations and their leaders by the 1950 and 1960s - so Hoover could win budget fights in Congress, while the Medgar Evers assassination and other such violence tallied a handful of agents to investigate after the fact.

After World War II, this pattern of trashing religious and civil rights was also continued by the US Army and other military branches, as their general officers tried to subvert President Truman's 1948 Executive Order 9941 to desegregate the military services. OSS personnel were moved out of DOD to CIA, when it was renamed in the 1947 National Defense Act. CIA then worked with the State Department to secretly traffick Nazis into America to continue their illegal Nazi-style human biomedical experiments, along with other secret programs, and supported Nazi employment in government departments and agencies and through government contracts with civilian institutions.

### **Department Of Justice Racketeering Acts**

This current operation involving my mother's estate, and family members real and otherwise, strongly resembles the pattern of racketeering acts affecting interstate commerce undertaken by federal police powers in New Jersey, Arizona, Ohio, Arkansas, Washington, and British Columbia between 2013 and 2023. Around \$200,000 of government funds were laundered through individual covers, cover entities, and/or persons embedded in private sector organizations in violation of the Fourth Amendment, as equity investments and loans, for the purpose of defrauding me of legitimate opportunities to engage in interstate commerce yet again, as had been previously run from the first days of my professional career in 1977.

In that specific FBI operation, which exploited assets formerly used in the investigation of the Fat Leonard Navy procurement scandal, the FBI cover sued me when I failed to act in bad faith while I was trying to build a business by engaging in good faith interstate commerce. So, effectively FBI sued me in federal court for failing to defraud, see CAED 2:19-cv-01918. That pattern of racketeering acts, which included specific abuses of the legal process in furtherance of forced labor in human trafficking operations, was a violation of 18 U.S.C. § 1589(a)(3). It was yet another such instance in a long series of legal process violations across decades by the federal government, see NDTX 2:24-cv-123 complaint paragraphs 626-627.

The Department has never faithfully followed the law in its own operations nor in its enforcement actions against lawless programs within the federal government. American citizens have lost rights, property, and lives to federal depravity as a result, sometimes by the thousands - sometimes worse still. Not to poor policy choices – to criminal and illegal program operated by the federal government which the department has ignored in decades of official silence.

## Appendix

The Department has long had jurisdiction, and periodically prosecuted, acts related to illegal bioweapons when used by or against US nationals, including extraterritorial jurisdiction, under 18 U.S.C. 175, and has a clear enforcement obligation under this statute and our Constitution, as plainly and clearly related in the legal arguments supported by 51 Supreme Court opinions cited in the underlying complaint in this matter, docketed as NDTX 2:24-cv-123.

While the illegal bioweapon's existence and operation is certain to be claimed by some as a "state secret," that privilege does not extend to transparent violations of law or Treaty, as our Constitution's Article VI "supreme Law of the Land" and 5 U.S.C. § 301 clearly establish (reference paragraphs 250-346 in the complaint). Protection rackets run by governments enjoy no such state secret privilege or police powers exemption either (reference also 18 U.S.C. §§ 1961-1968).

### **Alumni Effectively Operate A Protection Racket**

The 2024-25 actions of the Fifth Circuit Court of Appeals in 24-10614, and the district court in the Northern District of Texas in 2:24-cv-123, and other federal court actions which preceded them in the District of Columbia, Southern District of New York, Eastern District of Washington, and Northern District of Texas, comprised fraudulent concealment by federal courts of the long-running pattern of such conduct by the Department and its agencies, as well as other federal departments, aided and abetted by other police powers and intelligence agencies. Since roughly 88% of federal judges are former employees of your Department, this may explain their reluctance to comply with the rule of law in their own judicial actions as the federal government continued its long-running attempts to continue to conceal the illegal use of a bioweapon on human subjects within and without the United States over the intervening decades since those laws and Treaty were enacted.

*Effectively, the integrity of "justice" in our democratic republic as presently implemented by the United States under Articles II and III is the subject of open and profound skepticism as these acts and failures to act by the Department brazenly continue in the clear public view of many people in many places.*

### **Citizen Vassals – Involuntary Servants Secretly Abused In Illegal Human Experiments**

I have personally known FBI agents, Army officers, police officers, other police powers officials and, unwittingly, CIA commercial cover personnel, federal judges to be, agency Directors, and other police powers officials by the thousands, some for decades. I raised some of their children as my stepchildren and babysat dozens more – parties, zoos, train rides, ballon

## Appendix

rides, bookstore children section visits, and much more. But the absence of professional demeanor displayed in illegal human experiments, entrapments, lethality attempts, systematized provocations, coercive psychological field operations, and other illegal acts undertaken undercover without legal foundation, has been decidedly contemptuous, personalized, unprofessional and, often enough, criminal, as documented in the 54 claims and 110 examples in the above referenced complaint.

My communications with police powers agencies and federal courts have been and remain professional in nature. My First Amendment rights to criticize government operations permit a much broader range of speech than some in the police powers, intelligence, and military community are willing to accept, as they are legally required to do. Their bad faith acts speak for themselves – loudly - over more than six decades.

### **Prior United States Human Trafficking Acts Incorporated Assigned Housing And Relationships**

FBI has long conducted, such as by its agent Charles Rosenberg (and later while he was US Attorney), and by others long before and after, human trafficking operations which also deprived me of property rights in violation of the Fourth Amendment beginning in the 1980s - particularly including in this region forced homelessness in 2006-2007; false employment in 2007-2008 for inculcation into a sequence of defamatory and sexually humiliating acts employing the bioweapon and porn star and subsequent forced unemployment, and theft of services; false imprisonment in a psychiatric facility in 2010-2011; as well as other racketeering acts noted above and in the referenced complaint. These corrupt operations have deprived me of rights to employment and the assets required to carry on a normal and ordinary life independent of government housing assistance.

### **Other Acts of Gross Overreach**

My forensic analysis of the government's pattern of fraudulent concealment continues at present. Further forensic identifications have been made this week, related to the presence of persons, who later became former high ranking State and intelligence officials and Army personnel, in the neighborhood of my 1960-1970s childhood home in Federal Way, Washington. These identifications prove their proximity to violations of federal and state law which surrounded and included the medically induced Reye Syndrome death of Sandra at age 11 in April 1970 at the hand of USPHS, as that service was also continuing similar medically induced lethality operations elsewhere in the United States, which are also historically documented.

Other acts of gross overreach and depravity by the Department and its agencies and by others inside and outside government in this matter, whose acts well exceed any plausible interpretation of constitutional authority contemplated by our Founders and by existing federal

## Appendix

law, are documented in the complaint and, where standing has not been established, on the ProjectMindBreaker.org website.

### **Probable Bogus US Intelligence Likely Took The US To War**

These acts of gross overreach and distortion include at least two instances of a WMD prototype style production trailer being observed at highway speeds in Western Washington in the leadup to the Iraq War. No such trailer or actual WMD was found in Iraq despite a diligent search. Overhead photos of this alleged trailer would plausibly match the configuration of the WMD prototype style production trailer seen in Western Washington. Probable locations for such photographs to match terrain commonly found in Iraq exist throughout eastern Washington and in central and southern Idaho, on or near existing government national security related facilities and laboratories operated by or under contract to the Department of Energy and others.

## **OFFICIAL REPLIES TO BIOWEAPON RACKETEERING COMPLAINT LETTER**

The Constitution's First Amendment provides the unalienable right to "petition government for redress of grievances," including for violations of federal bioweapon and racketeering laws by the federal government. This petition in letter form was sent January 21, 2025 to the principal Executive Branch departments and agencies responsible for this misconduct, its investigation, prosecution, and other remedies.

### **CONTENTS**

Letter dated January 21, 2025

DOJ replied

DOD has not replied

CIA provided a false address which was used to document its falsification

FBI refused the letter as noted after the DOJ reply to coordinate their response

Letters were mailed on date noted. Government hacked the CIA address in Google Maps, so it was used in the mailing to document that hacking process. Replies and returns from other departments and agencies as shown, with date received indicated on envelopes (yymmdd). Confirmation and final appointments had not yet been completed by the date of reply or return, or the reply crossed the final stage of the process during mailing, so the reply may not reflect the actual position of the addressee.

Good day -

The United States has and does operate an illegal classified neurowarfare bioweapon against US persons in violation of 18 U.S.C. § 175-178 and the 1972 Bioweapon Treaty. The use of this banned bioweapon by the United States against its civilian population and the accompanying rights violations and racketeering acts used to fraudulently conceal its use violate the First, Third, Fourth, Fifth, Eighth, Ninth, Thirteenth, and Fourteenth Amendments, federal statutes in Title 10, 18, and 42, and myriad state laws across the United States.

I have personally been subjected to these violations in 44 states and to extraterritorial violations in several allied foreign countries since 1961, as forensically developed since 2021, with definitive links to federal departments and agencies through specific individual identifications of federal appointees, officers, agents, and employees, primarily since September 2023 to the present.

These violations of federal law and regulations are widely known to police powers operations at all levels of government, and to the Departments of Justice and Defense – JAG Corps, which have persistently failed and willfully refused their duty to investigate and prosecute these criminal acts despite repeated direct hand delivered reports and complaints to the US Attorney for the Southern District of New York beginning in late 2021. Mail and electronic delivery to the Secretary of the Army and DOJ headquarters functions, including the Assistant Inspector General for Investigations and other federal personnel and agencies have also been effected. With the exception of a letter from DHS citing an intelligence exemption to a FOIA request, the record is replete with official silence to this durable pattern of criminal violations and rights violations of Title 10, 18, 28, and 42 of the US Code by the federal government.

This matter has been pursued to no avail in federal court civil litigation undertaken, which failures to act are indicative of the complicity of former employees of DOJ who now occupy positions in the district and appellate courts of the United States. The narrative history of these actions can be found at <https://ProjectMindBreaker.org> The legal history is incorporated in NDTX 2:24-cv-0123 and Fifth Circuit 24-10614, currently being litigated through a pending cert petition to the Supreme Court.

It is expected that you will undertake prompt remedial action to correct the illegal acts underway in your respective departments and agencies. These illegal acts have and do adversely impact an unknown total number of US persons as victims over the past more than sixty years of criminal acts and related coverups.

A parallel criminal program operated by Army and CIA known as MKUltra, which ran only one-third as long as this illegal program has operated, murdered one contract researcher in the course of its coverup, and adversely impacted Americans with 100 million doses of secretly administered LSD, with the resultant mayhem, carnage, and homicides left to local police departments and the victims themselves to clean up. See paragraph 9 of NDTX 2:24-cv-0123 for a summary of the MKUltra murder of Frank Olsen, a former Army bioweapon researcher contracted to CIA at the time of his death.

These are not the acts of a federal government – military, intelligence, police powers - engaging in the “common defence” and acting “to secure these rights” as government operating in accordance with its laws and “with the consent of the governed” to protect its citizens. They are the acts of unindicted criminals with badges acting against the people they are sworn to protect in associated-in-fact enterprise patterns of racketeering acts, which are no better than any criminal gang or cartel. These patterns of acts were protected and fraudulently concealed from the American public and justice by prior political appointees operating in secret defiance of US law and of their oath to defend the US Constitution. You must act.

Sincerely,

Dennis Brewer

Dear Mr. Brewer,

Thank you for your letter dated January 21, 2025, concerning allegations of an illegal classified neurowarfare bioweapon and alleged violations of federal law. If you believe that this matter may constitute federal criminal activity, you should contact the Federal Bureau of Investigation (FBI), the investigative arm of the Department of Justice. The FBI will determine whether a federal investigation may be warranted. If appropriate, the FBI will refer the matter to a United States Attorney for a final determination regarding legal action.

We appreciate you taking the time to share your concerns. We hope this information is helpful.

Sincerely,

Correspondence Management Staff  
Public Integrity Section

\_\_\_\_\_

**IN THE  
SUPREME COURT OF THE UNITED STATES**

\_\_\_\_\_

Dennis Sheldon Brewer v. William Burns, Director, Central Intelligence Agency

**ON PETITION FOR A WRIT OF CERTIORARI TO**

U.S. Circuit Court for the Fifth Circuit

**PETITION FOR WRIT OF CERTIORARI**

Dennis Sheldon Brewer  
1210 City Place, Edgewater, New Jersey 07020  
201-887-6541

## QUESTIONS PRESENTED

1. Shall this Court permit the courts of the fifth circuit to openly defy both this Court's mandates and statutes to establish their own circuit specific precedents which effectively override this Court and Congress for:

### **a. Standing?**

The well-established principle of standing is afforded to all who have (i) injury in fact, (ii) can establish causation, and (iii) a statutory means of redress exists, as defined in *FDA v. Hippocratic Medicine* 602 US \_\_\_\_ (2024) issued June 28, 2024, as the fifth circuit was engaged in concurrent, overlapping, and openly defiant actions, wherein a fifth circuit district court disregarded those well-established bedrock principles of standing to dismiss sua sponte on June 6, 2024, one day after docketing, the petitioner's pleading (described at paragraph 11A below, appendix C pages 7-24, appendix H 194-196, paragraph 13-P10D-P10E) and well satisfying these three principles, which dismissal was affirmed on November 11, 2024 under local rule 47.6 by a fifth circuit panel finding no reversible error of law and giving no reason,

### **b. Congressional intent?**

Congress intended to place this indigent petitioner, and others similarly affected, in this case impoverished by acts of the United States as it engages in and perpetuates involuntary servitude, on equal footing with all other litigants in 28 U.S.C. § 1915, but these fifth circuit courts first abused judicial discretion, disregarding this Court's four relevant keystone mandates at paragraph 12A below, then affirmed that abuse of discretion, finding no reversible error of law on November 11, 2024, citing local rule 47.6, providing no opinion as they justified by claiming their affirmance had "no precedential value,"

- c. **Reaffirm de jure this defiant de facto fifth circuit precedent**, overriding this Court's mandates?

A fifth circuit panel denied an en banc rehearing petition as "no active judge expressed an interest," thereby reaffirming this newly found precedent on December 30, 2024 and de jure creating this new circuit-wide precedent establishing the district court's arbitrary and fundamental failures to comply with bedrock judicial principles of standing, impartiality, equity, and fair consideration, as proper uses of judicial discretion under fifth circuit local rule 47.6 (paragraph 11C), exploiting the inherent ambiguity of unexplained fifth circuit panel actions to unambiguously establish on December 30, 2024, this fifth circuit precedent in open defiance of this Court's June 28, 2024 mandate in *FDA v. Hippocratic Medicine* 602 US \_\_\_\_ (2024),

- d. **Failed timely delivery of notice**, using US mail to notify the petitioner three days after mandate publication to attempt to procedurally evade petitioner's stay motion so he can petition this Court for writ of certiorari?

The fifth circuit then published the mandate on January 7, 2025, and the petitioner received notice by mail, the only means of court communication permitted by the fifth circuit, on January 10, 2025, three days after publication, in the fifth circuit court's second instance of failure to timely and accurately communicate with this petitioner/appellant (Procedural History entries for September 26, November 11-December 5, and January 7-10),

- e. **When it elects to do so in its sole discretion, the fifth circuit can de jure by defiant precedent, disregard rights and law to enshrine violations of the religious establishment clause** and 42 U.S.C. §§ 2000bb, bb1-bb-4 in this circuit by the United States Army, Central Intelligence Agency, Justice, Homeland Security, Health and Human Services, among others, in this and other violations of rights and law in the fifth

circuit extinguishing rights and claims of the petitioner, other civilians, and those of thousands to millions who faithfully served the United States, particularly Army and CIA, and have been injured as intelligence or military service veterans, their dependents and descendants, who may be similarly situated to this service member descendant petitioner since childhood and the age of five?

**The immediate and prospective practical effects of the fifth circuit's defiant judicial precedent extend to the extinguishment of rights and claims of persons well beyond this petitioner, including persons related to over 100,000 who currently serve in military service,** to thousands to millions of others similarly situated, whether impoverished or otherwise harmed by these acts of the United States in this fifth circuit. More than 100,000 current active duty and untold millions of former military personnel, as well as their dependents and descendants, which include members of the petitioner's own extended family who are related to his uncle, a former Army medic who served at Fort Hood, Texas serve in this circuit's jurisdiction, most having no Bivens special relationship with the United States. The fifth circuit's precedent will prospectively extinguish the rights and claims in the fifth circuit arising from Controversies created by illegal acts of the United States as it has and does violate its own Laws and Treaties to engage in illegal acts including, without limitation, (i) human experimentation, in its testing and deploying an internationally prohibited bioweapon, (ii) sustaining involuntary servitude, (iii) racketeering acts against rights and property, among other offenses; against persons adversely selected through discrimination against religious rights protected under the Constitution's establishment clause in the absence of any compelling governmental interest, (iv) in other violations of constitutional and civil rights, and (v) other violations of law.

2. These violations have, do, and will trample upon and fatally negate (a) the petitioner's *First, Third, Fourth, Fifth, Eighth, Ninth, Thirteenth, and Fourteenth Amendment* constitutional rights and (b) damage perhaps irretrievably those of others similarly injured in this circuit, and (c) negate the civil remedies readily available in the plain and clear Congressional statutory language and legislative intent expressed in 42 U.S.C. §§ 2000bb, bb-1-bb-4 cause of action for religious discrimination absent compelling governmental interest, 28 U.S.C. § 2679(b)(2) individual liability in governmental acts violating rights, and 18 U.S.C. §§ 1961-1968 civil cause of action for racketeering acts, other federal and state statutes, and long settled caselaw related thereto.

3. The constitutional and statutory rights of the entirety of this class of injured US persons will be severely compromised and extinguished in all practical senses in this fifth circuit if these willful bad faith precedents sustaining arbitrary applications of judicial discretion in the fifth circuit are allowed to persist based upon a single district court's overly broad abuse of discretion in its determination of "frivolous" in its finding against facts and law for decades of illegal acts of government, which acts, violations, and injuries are profoundly similar to those prosecuted by the United States and its allies in *United States of America v. Karl Brandt et al.* (1947). Broad discretion must not extend to the egregious abuse of discretion, else we have no rule of law.

#### **LIST OF PARTIES**

4. This Controversy arises between the courts of the fifth circuit, and the petitioner and others similarly situated. No respondent service is required as parties have not been initially served. The parties are listed in the caption of the relevant action filed by petitioner for this

beginning at page 19 below lists paragraph numbers and uses the RED color page number at the BOTTOM of each page for ease of reference.

**B5.** Page total number in footer varies from page to page as the document was printed in increments not in a single print session, for the explicit purpose of minimizing the known pattern of document hacking after proofing and before printing, which has occurred in previous printed documents. See also the description of defendant CIA’s malign long-term patterns of practice in evidence and document tampering at paragraph 17. The final document contains 1324 printed pages.
