RE: FREEDOM OF INFORMATION LAW
REQUEST: FOIL-2021-056-13163

Dear Mr. Brewer:

This letter is in response to your email, dated September 3, 2021, appealing the determination issued by the Records Access Officer (RAO) on September 3, 2021 regarding records requested from the New York City Police Department. Your request, pursuant to the Freedom of Information Law, was originally received by the FOIL unit on September 1, 2021 and subsequently denied pursuant to Public Officers Law §87(2)(e)(iv).

Your appeal of that determination is denied because a diligent search has been conducted for the requested records based on the information provided; however, no records were located. The New York Court of Appeals has determined that “[w]hen an agency is unable to locate documents properly requested under FOIL, Public Officers Law § 89(3) requires the agency to certify that it does not have possession of a requested record or that such record cannot be found after diligent search . . . Neither a detailed description of the search nor a personal statement from the person who actually conducted the search is required” *Raitley v. New York City Police Dept.*, 96 NY2d 873, 875; 730 NYS2d 768 (2001).

Furthermore, in 2009, the Appellate Division held that an agency cannot produce documents it does not possess or cannot disclose and that the Court cannot require respondents to produce documents that they certify they cannot find after a diligent search because petitioner “has received all that he . . . is entitled to under the law” *Bernstein Family Ltd. P’ship v. Sovereign Partners, L.P.*, 66 AD3d 1, 8; 883 NYS2d 201, 206 (1st Dept 2009).

You may seek judicial review of this determination by commencing an Article 78 proceeding within four months of the date of this decision.

Respectfully,

A handwritten signature in black ink, appearing to read "Jordan S. Mazur".

Subject: RE: Possible SBI Order and GPR Website Status

Mike – Was not able to secure a production slot for the SBI orders, so SBI cannot fulfill these orders. Since this type of outcome has been the case with each and every quote received since about 2017, well before the inception of SBI in January 2020, I am pulling the plug on this effort.

So, we will see what is next, and go from there.

Thanks.

Subject: RE: Possible SBI Order and GPR Website Status

Mike - Great, thanks. I got confirmation this morning on ocean freight rate and availability, the other numbers seem to line up fine. Even if this turns out to be a false flag, there is no risk on these funds other than bank fees, as we have a transferable DLC which guarantees payment and allows us to assign it so we can pay our supplier. So, the PB bank fees are the only real risk and should be quite small. The \$6,500 is almost all refundable to you in the event this is not a credible deal. We will make about \$19,000 on this initial shipment – what do you want in terms of a fee?

Once this trial order is complete, the monthly gross profit will be in the \$190K range so we will be able to find the GPR startup without much risk.

Thanks.

Subject: Possible SBI Order and GPR Website Status

Mike - Received ICPO for possible new order, checking shipping availability and verifying authenticity now. Will require \$4860 collateral for Performance bond plus bank fees. Could use \$6,500 as insurance will also be required. Can you support or know someone who can?

ICPO attached. Good news is that LC is transferable so there should be no issue with getting this first 2 can trial order shipped, assuming refer availability as westbound ships are mostly shipping empties back to China right now. No PB needed on subsequent shipments.

Website has been transferred to GoDaddy dev2 environment. Awaiting admin access. Getting closer to soft go live time but some testing remains of WooCommerce and related plug-ins at new site. We will need marketing automation in place to handle users and WeFunder leads follow-up.

Let me know what is possible on the \$6,500 for PB and insurance, and timing if you are able to do it or can locate someone who is able to complete.

Thanks.

Hi Dennis,

Eli from [Symbrosia](http://symbrosia.co) here. How are you doing? How are developments with Gannett Peak Ranch going?

Last we spoke was a bit over a month ago, and you were still putting some of the puzzle pieces together around your start date and production rate.

Are you available any time this week or next week for a call to catch up? I'd love to hear any updates on your progress and see if we can pencil in a rough start date for our [A. taxiformis](#) feeding trial. If not, no worries. Would still be good to catch up.

All the best and hopefully talk soon,
Eli Etzioni

NAME of
FIELDS DATA

Topic: PUBLICSAFETY

Good day - My FOIL Appeal was denied by the NYPD related to a counter-terrorism operation which was conducted with me as the subject. The initial denial was based upon The New York City Police Department (NYPD) has denied your FOIL request FOIL-2021-056-13163 for the following reasons: In regard to the document(s) which you requested, I must deny access to these records on the basis of Public Officers Law Section 87(2)(e)(iv) as such information, if disclosed, would reveal non-routine techniques and procedures. An appeal was filed immediately, which appeal was answered by NYPD on September 15 with a no responsive records reply to the appeal. Your appeal of that determination is denied because a diligent search has been conducted for the requested records based on the information provided; however, no records were located. The New York Court of Appeals has determined that "when an agency is unable to locate documents properly requested under FOIL, Public Officers Law § 89(3) requires the agency to certify that it does not have possession of a requested record or that such record cannot be found after

Message: diligent search . . . I replied as follows to the appeal denial but have received no further reply as of Oct 1: Sgt Mazur - Please confirm that NYPD has absolutely no records of any kind anywhere in its files related to Dennis Sheldon Brewer DOB September 23, 1955, SSN 536-04-4235, NJ DL B73661638209554 and, further, that there is no provision under New York law which permits an agency to lie to a target of such an investigation, whether active or closed. If you need further information from me, I will be pleased to visit your office in person at any time to present my identification and provide any other information required to assist in this search. I would note again that I was met by a line formation of approximately 24 dozen NYPD officers with bulletproof vests and sub-machine guns on the Eighth Avenue side of the Port Authority Bus Terminal in the Fall of 2007 during my first visit to NYC after relocating from Boston to northern New Jersey in August 2007. I wish to avoid the necessity to file an Article 78 action against NYPD but must do so by year end to preserve my rights under NYS law. Please advise the assistance the Mayors Office can provide in this matter.

Dennis

This is good news, but at some point we should review your proposed timing a little further.

With a late 2021 start with Architecturals there may not be enough time allocated for the proposed design drawings and appropriate approvals.

We can discuss this further when you feel it is warranted.

Thanks for keeping me in the loop and stay safe!

Chirag – Hope all is well with you. We are expecting, but not assured, of a \$277MM Korea sales contract in February. If that goes, we will start up our organic business in March/April with first products hitting the market in September. Assuming the initial retailer and consumer response is highly favorable, we will recommence the planning for the production plant in Indiana in late 2021, breaking ground in Spring 2022. To accomplish that, we will need to begin architectural design in late 2021. If that holds, we will likely be looking at commissioning your study in August/September 2021. So, check back with me in 60 days to see how the Korea contract is going and what our then current timeline looks like.

Thanks for your patience.

Selwyn – Hope you are doing well. We are expecting a \$277MM contract with a Korean entity for US beef in the next two weeks. We have submitted a contract for approval by the customer but it has not yet been signed by them. The trial order will be shipped by air in February and 12 subsequent monthly orders will be shipped in partial orders going every 2 weeks to Busan, Korea from Los Angeles.

We need up to \$25 million in financing each month. Each order will be paid with an at sight DLC for 100% of the monthly order amount. This DLC will be provided by the customer's bank at time of each order. We have been informed this will come from a world prime bank, one of the Top 50 banks in the world by assets. We have requested a draft DLC for review. We are targeting total financing fees in the 0.5% to 1.5% per month range. These advances, or letters of credit satisfactory to our suppliers, are required at the time of each order for the 12 month duration of the contract or until we establish sufficient credit to eliminate this requirement.

Korea Contract - Internal Freight Services				
		February '21	March '21 - Feb '22	
		Trial	Monthly	Total Contract
Sales - Contract		\$ 999,480	\$ 23,037,851	\$ 277,453,686
Sales - Backhaul		\$ -	\$ 492,784	\$ 5,913,406
Total Sales		\$ 999,480	\$ 23,530,634	\$ 283,367,092
Cost of Sales - Contract		\$ 627,824	\$ 19,854,923	\$ 238,886,894
Cost of Sales - Backhaul		\$ -	\$ 293,535	\$ 3,522,426
Total Cost of Sales		\$ 627,824	\$ 20,148,458	\$ 242,409,319
Gross Profit		\$ 371,656	\$ 3,382,176	\$ 40,957,772
Freight, Transload, SGS		\$ 271,000	\$ 944,353	\$ 11,603,232
Commissions		\$ 23,990	\$ 587,257	\$ 7,071,074
Contribution to O'head, Profit		\$ 76,667	\$ 1,850,567	\$ 22,283,466
Overhead		\$ 38,646	\$ 189,153	\$ 2,308,486
Fees, Interest		\$ -	\$ 191,667	\$ 2,300,000
Pre-tax Profit		\$ 38,021	\$ 1,469,747	\$ 17,674,980
Federal and State Income Tax		\$ 11,140	\$ 275,950	\$ 3,322,534
		\$ 26,881	\$ 1,193,797	\$ 14,352,445
				5.06%

Assuming this contract is signed as expected, we are also expecting to purchase \$9 million of equipment, including farm equipment and business aircraft in 2021, using 20% to 30% down. This equipment will support both our international and domestic operations, including our domestic organic grainfed beef production program. This equipment will be acquired over the course of 2021 beginning with \$2 million of farm equipment in the April timeframe, after a couple of months of orders have been processed and paid.

Let me know what other information you need.

Regards,
Dennis

Subject: FW: Pricing, CIF Shanghai

Jason – See my response below to Ray. Happy to help, the brand will depend upon who has slaughter capacity available at the time. The brands will not include Tyson, National, JBS, or Cargill which are the 4 largest packers in North America. Other independent brands will be used.

Thanks, Jason.

Subject: Pricing, CIF Shanghai

Ray - Here are some guidelines for pricing during through the rest of the fourth quarter:

- USDA Choice Grade, 23 Cuts Boxed Beef, frozen, CIF Shanghai, \$7,550/MT minimum 10 FCL. Prices adjust monthly based upon live cattle prices. These prices will rise significantly throughout 2022 due to 2021 drought driven cattle herd liquidations.

- USDA Utility Grade, Wrapped Quarters, frozen, CIF Shanghai, \$4850/MT minimum 10 FCL. Prices adjust monthly based upon live cattle prices. These prices will rise significantly throughout 2022 due to 2021 drought driven cattle herd liquidations.

Thanks.

To: Cassi Manner <cassi@gamechangermarketingsolutions.com>
Subject: RE: Final Proposal - Thank you!

Cassi - Okay. My understanding was that you would provide a funding reservation separate from the monthly fee. The agency will be paid in full at the time of the services, per your existing policy. We do not tie one to the other and cannot guarantee a specific return which is different from any other investor. Sorry for any misunderstanding.

It looks like it will be next week sometime before we can begin, assuming the product loading process can be undertaken in the next few days. If you are okay with the contract, you can sign and return. I will sign and remit when we can proceed.

Thanks.

Cc: Mike Maggard <mike.maggard@cfo-search.com>

Subject: Re: Final Proposal - Thank you!

Okay, got it!

We take payment in full at the beginning of each monthly billing cycle.

As far as the WeFunder, I apologize for my misunderstanding. I thought we had discussed on one of our calls that we would have an external contract between our agency and Garnett Peak Ranch that if we were not paid out via WeFunder with our initial investment (20% of our service fees) we would be paid back what the original service cost was within a certain amount of time.

In light of this I am not be comfortable giving any percentage of the monthly fees to the refund or campaign, though I am sure this will be a great success! I am sorry to change this up on you last minute, I had an unclear understanding of the agreement. I cannot commit our agency to doing work without knowing we will be paid the full amount due for our services at the end of the day.

Looking forward to getting started,
Cassi

Cc: Mike Maggard <mike.maggard@cfo-search.com>

Subject: RE: Final Proposal - Thank you!

Cassi – In reply to your questions:

- Will we have a secondary contract outlining how/when compensation will be paid? **The agency compensation will include a deposit on inception for the first month's fees. Thereafter, you will bill monthly in advance or arrears, depending upon your normal practice. Any ads will be billed direct on our account as agreed in advance.**

- Will this contract also specify how/when the 20% of service fees being allocated to WeFunder will be paid back in the off-chance we not see a return on investment? **The \$8,000 is simply a reservation in the beginning. Once the SEC filing becomes effective you will receive the same notice from WeFunder as other participants in the offering and have the same rights and risk of loss as anyone else. We cannot offer you additional assurances or rights superior to anyone else, and you will be free to make the reserved investment or not as you choose. Obviously, we believe that the investment will pay off but can provide no guarantee.**

So far as a deposit and start date, we are delayed a bit. I have been unable to begin the product loading process due to either my misunderstanding or some issue with product loading process not yet identified – I'm not sure which it is. Also, we have not yet started the WeFunder offer on LinkedIn since products are not loaded. Our chicken/egg problem here will be solved by the site developer correcting or instructing me on the proper method to load products. That loading process will likely take a few days once the issue is straightened out.

We will most likely be in a position to begin the process with you next week, with a bit of luck. Once we are able to start using the new site and plug-ins, we will want you to set up EngageBay marketing automation for the WeFunder campaign asap, followed immediately by automation for the consumer side and pre-orders. Then you will set up RafflePress and access your network to announce the refer-a-friend contest, store pre-orders, and move ahead from there with retargeting, ramping email lists, etc.

Happy to answer any questions. I'm sure your team is prepared to run hard, just as we are, once we are past this product load issue and free to do so.

Thanks, Cassi.

Regards,
Dennis

Subject: Re: Final Proposal - Thank you!

Hey Dennis,

Thanks for sending this over. Finally had time to read through it all. Everything looks good as far as the deliverables.

A couple easy questions...

Will we have a secondary contract outlining how/when compensation will be paid? Will this contract also specify how/when the 20% of service fees being allocated to WeFunder will be paid back in the off-chance we not see a return on investment?

Ready to sign and get started once we solidify these details.

Thanks,
Cassi

Cassi – Good morning. Hope your day is off to a great start. Here is a dull, boring, inartfully drafted agreement, so please pay especial attention to all the elements, including the “fine print.” Seriously, though, please read carefully, think about the various requirements, and please be certain you agree as written. If any of the apps, for example, don’t fit with your understanding, let me know.

Thanks.

To: Cassi Manner <cassi@gamechangermarketingsolutions.com>

Subject: RE: Final Proposal - Thank you!

Cassi - Yes, correct. Hope that works for you. For the moment, it is a reservation only, no funds required now from you.

We will provide a deposit with the contract. You can work and bill against that to start. As cash flow becomes more predictable, we will shift to a more normal regular monthly billing from your agency.

We are currently waiting on our website developer to finish some work, then we can start work on marketing automation activities as the next step while I load product information. Our store is a canned version of WooCommerce with some custom coding. Hopefully, we can work together on marketing automation beginning tomorrow or Wednesday.

Our strong preference is to begin using RafflePress, EngageBay, and your selected SEO app on our GoDaddy hosted platform from the very beginning so no transition of systems is needed in the future. Hopefully, that works for your agency.

Thanks.

Sent: Monday, August 30, 2021 1:38:09 AM

To: Cassi Manner <cassi@gamechangermarketingsolutions.com>

Subject: RE: Final Proposal - Thank you!

Good morning Cassi – As mentioned in my last email, your 20% contribution to the WeFunder royalty campaign will come to \$8,000 between Sep and Dec. I think the best way to handle this is for you to receive the total billed amount and pledge the \$8,000 to the WeFunder campaign now as a reservation, then pay that \$8,000 out of pocket when the time arrives to make good on reservations. That avoids any issues with getting repaid for your work, allows you to judge the success of our joint efforts, and is completely voluntary. It will also help us advance toward our minimum \$50K goal to get the WeFunder campaign off to a great start.

Let me know what you think. Once we agree on the approach, I will draw up a basic contract which reflects our agreement for 16 months of services through the end of 2022.

If you decide to proceed with the \$8K reservation, you can do it at

<https://wefunder.com/gpr.inc.dba.gannett.peak.ranch>

Thanks.

Cc: Mike Maggard <mike.maggard@cfo-search.com>

Subject: RE: Final Proposal - Thank you!

Cassi – please review the attached draft start sequence for the company and marketing and sales spend budget. The overall goal is a coordinated start which puts our finances, operations capabilities, and pre-order activities, including marketing and sales spend on a path toward a coordinated opening and order fulfillment sequence. These things never go as initially planned, and timing and spend will need to be adjusted dynamically but if you have no idea where you are going, you can be certain you will never get there. So, this will be revised daily with a weekly update circulated to our extended team for both visibility across the team and to get feedback on any needed adjustments.

Please review and let me know if this lines up with your reality. We will adjust as needed.

One import element we will need to add to the marketing and sales plan/budget is some objective results to measure the effectiveness of various methods in securing pre-orders in terms of cost per dollar of spend, so we can dynamically reallocate spend as we go. Please give that some thought. All I have to go on right now is the chart below, which I circulated previously.

Conversion by channel

This [research from Episerver retail clients Q1 2020](#) (based on 1.3 billion unique shopping unique retail and consumer brand websites) shows a typical pattern. Conversion rates are higher where consumers have higher intent, i.e. they are searching for products. This compares referred visits where conversion rates are significantly lower.

Also please note our store soft live date has slid a bit more as product load will now start Sunday as there are still a few critical punch list items remaining today. So we will be live on Tuesday or Wednesday next week. Mike will circulate his LinkedIn list on Tuesday, Sep 6, so our more urgent priority is setting up email automation for WeFunder tracking. After that is in place, you will need to move to automating and tracking Consumer, including your Influencer campaign, followed by the email campaign setup to be completed by mid-September so that program can begin. We will also need to do restaurant tracking beginning mid-month.

Here is a link to the new site/store as it sits today:

<https://innovhosting.com/gannet/>

Once you've reviewed and commented on sales and marketing plan/spend, we will sign a simple contract. I have allocated \$2,000 per month of your agency's fees from Sep through Jan to the WeFunder investment. We'll work out exact details on this \$8,000 n contract next week. Thanks for your faith in us and our products, it is appreciated.

I'm available by cell or email next 2 days, in DC and will respond as quickly as I can, but no laptop so some info requests may not be filled until Sunday.

Sent: Tuesday, November 2, 2021 8:28 PM
To: Dennis Brewer
Subject: Re: Authentication Inquiry

Mr. Brewer: We cannot accommodate your request. Please do not make further requests.

John Sullivan

On Mon, Nov 1, 2021, 4:26 PM Dennis Brewer <dsbrewer923@hotmail.com> wrote:

Good day, Mr. Jelinek - I am attempting to authenticate key interactions regarding protein business opportunities which apparently involved a Costco Issaquah Headquarters Vice President (Bob Huskey) related to a potential chilled organic beef supply project for Costco's U.S. operations, and chilled conventional beef supplies for your operations in China and Korea. No contract was ever consummated.

In addition to numerous emails, this particular situation includes the following:

1. March 28, 2019 conference call
2. May 1, 2019 Costco headquarters meeting and presentation (see attached)

Please have someone on your staff validate that each of these contacts directly and specifically involved Walmart personnel, and **not others representing themselves as Costco personnel**. I certainly understand you would regard this as a seemingly bizarre request, so I will provide context for the request below.

This is part of a broad ranging inquiry into federal law enforcement and intelligence misconduct along the lines of illegal Cointelpro surveillance and dirty tricks against activists which the FBI ran from 1956 to 1971 and was uncovered by an activist burglary of an FBI field office. This federal intelligence and law enforcement misconduct led to the 1975 Church Committee hearings in the Senate and numerous legal reforms related to federal law enforcement and intelligence operations.

I worked in and around a series of national security related projects in the 1980s, 1990s and early 2000s, ranging from pre-apartheid banking system surveillance by means of installation of the ATM network in South Africa, to nuclear submarine technologies, to satellites and rockets (Delta IV), without ever holding a security clearance. I was also the post 9/11 subject of a terrorism investigation despite a complete lack of criminal history, any viewing or expression of sympathy for any terrorist organization, and so forth. I could go on, but I think you get my point. So, it is important to trace this history and examine the related facts.

I am attempting to secure as much of this information as possible using the Freedom of Information Act and Privacy Act to secure government records and other needed information without subpoenas and litigation but will go that route as my next step in this process. This is a matter of urgent national interest due to the potential for comparable abuse of other U.S. persons in similar manner. There is no point in sullyng the name or reputation of any innocent party in this inquiry, so I am making this request of Costco on a voluntary basis.

Thank you for your cooperation.

Regards,
Dennis

Mike - Great, thanks. I got confirmation this morning on ocean freight rate and availability, the other numbers seem to line up fine. Even if this turns out to be a false flag, there is no risk on these funds other than bank fees, as we have a transferable DLC which guarantees payment and allows us to assign it so we can pay our supplier. So, the PB bank fees are the only real risk and should be quite small. The \$6,500 is almost all refundable to you in the event this is not a credible deal. We will make about \$19,000 on this initial shipment – what do you want in terms of a fee?

Once this trial order is complete, the monthly gross profit will be in the \$190K range so we will be able to find the GPR startup without much risk.

Thanks.

Subject: Possible SBI Order and GPR Website Status

Mike - Received ICPO for possible new order, checking shipping availability and verifying authenticity now. Will require \$4860 collateral for Performance bond plus bank fees. Could use \$6,500 as insurance will also be required. Can you support or know someone who can?

ICPO attached. Good news is that LC is transferable so there should be no issue with getting this first 2 can trial order shipped, assuming refer availability as westbound ships are mostly shipping empties back to China right now. No PB needed on subsequent shipments.

Website has been transferred to GoDaddy dev2 environment. Awaiting admin access. Getting closer to soft go live time but some testing remains of WooCommerce and related plug-ins at new site. We will need marketing automation in place to handle users and WeFunder leads follow-up.

Let me know what is possible on the \$6,500 for PB and insurance, and timing if you are able to do it or can locate someone who is able to complete.

Thanks.

November 9, 2021

U.S. Department of Justice
Office of the Inspector General
950 Pennsylvania Avenue NW
Washington, D.C. 20530-0001

Good day:

I have filed a civil Complaint against DOJ and FBI, among others, related to a long-running series of civil and constitutional rights abuses by the United States. This Complaint relates an on-going series of manipulations by the Defendants and other law enforcement agencies acting in witting or unwitting cooperation with the United States. A copy of this Complaint, filed in US District Court of the District of Columbia is included herewith. I have also attached a list of cooperating and likely cover entities used by Defendants in their pursuit and manipulation of me as Plaintiff.

I will also note that I complained about this matter to Defendants beginning in 2005 with the U.S. Attorney's Office for Western Washington, and during a personal trip (after documents to be delivered by U.S. mail, UPS and FedEx did not reach their destinations or were missing required proofs of delivery) with a member of the legal team at FBI Headquarters, by hand delivery to DOJ Headquarters, and to the Executive Office of the President, among others. Further, immediately after filing a Complaint in U.S. District Court for New Jersey at Newark in 2010, I was removed from my residence and rendered homeless. That same six unit building had been under FBI surveillance and an alien tenant was removed and deported.

I note that the FBI OIG is conducting a review of undercover entities, some of which may be related to my Complaint and the Defendants' pattern of manipulation and harassment. I am also providing a copy of an NYPD response to my FOIA request under New York State law for your evaluation. Please feel free to share this information with FBI OIG or other OIG operations as you wish.

Kindly review the Complaint and the ongoing series of events and consider careful review of this matter as it is highly likely that similar undertakings against other persons may have resulted in incarceration, injury, destruction of families and businesses, and the death of U. S. persons and others.

Thank you,

Dennis Brewer
1210 City Place
Edgewater, NJ 07020

Personal Identifying Information:

Dennis Sheldon Brewer
SSN: 536-64-4236
Birth: Enumclaw, Washington, September 23, 1955
Passport copy enclosed.

1. On knowledge and belief, Representative Devin Nunes, California – 22nd District, and a member of the Intelligence Committee is related to the principal managing family member of Nunes family enterprises which employs Tom Crossgrove as an officer of a Nunes family controlled company. Greg Crossgrove, his brother, lives or lived in the greater Phoenix, Arizona area and was a consultant to WinnettOrganics, Inc., a Colorado corporation which attempted to commence operations in Arizona beginning in about 2014. Mr. Crossgrove was directly involved in recommendations related to each and every decision made by Dennis Sheldon Brewer, the subject and Plaintiff in a civil suit under the Klu Klux Klan Act, civil RICO, and FTCA. It is my recommendation that this chain of relationships be examined as part of your due diligence process.
2. On knowledge and belief, the subject's business pursuits during this and earlier efforts to form and conduct private commercial businesses from the 1980s into the present were thwarted and/or directed for the convenience of Defendants. A detailed list of Costco and Walmart contacts are provided separately in conjunction with this document. The following institutional and individual business related contacts are from January 2016 to March 2018, and include both cooperating and cover entities and/or individuals relevant to this inquiry:

'Anabella Rojas' anabella.rojas@mail.axial.net

Dear Dennis,

I hope this message finds you well. I'm contacting you on behalf of Volta Global. I came across your listing for WinnettOrganics on Axial, and was wondering if you could please share all the relevant information regarding the deal with us? (business summary, deck, financials, etc.)

We are a private investment group based in Miami, active at the venture/seed stage as well as growth equity and majority acquisitions. We only invest our own capital, so we don't have outside investors or LP's which lets us be long-term, founder friendly partners.

You should know that we do more than just provide capital. We establish long-term partnerships with people and businesses that value integrity and trust, and that share our common set of values. We offer strategic advice and insights/resources across finance, marketing, and operational strategy.

Thanks in advance.

Hope to hear from you soon,
Anabella Rojas

Re: NOTICE OF DUTY TO PRESERVE EVIDENCE

Good day:

Dennis Sheldon Brewer has filed or has threatened to file a lawsuit against various law enforcement and intelligence agencies, including the entity you represent and/or are employed by. The preservation of all documents for the duration of the litigation or until you are notified in writing you are not subject to this litigation is required under federal law and the Rules of Civil Procedure of the US District Court.

Pursuant to the federal Rules of Civil Procedure, every party to a lawsuit has a duty to preserve all evidence which could be relevant to the suit. This includes the duty to preserve all electronic and paper-based evidence, such as notes, emails, communication logs, recordings, plans, analyses, and other relevant materials discussing the incidents or related to matters at issue in the suit. The suit contemplates a broad and durable set of civil rights violations, constitutional rights violations, wrongful process, conduct not permitted under Article I Section 8 of the Constitution, and eminent domain violations. Statutes cited or to be cited in conjunction with the contemplated federal Complaint include the Klu Klux Klan Act, civil RICO, and FTCA.

This duty to preserve evidence is broad and extends to all documents, regardless of whether the document is stored electronically (such as email) or in hard-copy and regardless of the type of document. For example, reports, spreadsheets, photographs, and videotapes are all considered documents that must be preserved. Furthermore, the duty to preserve this documentary evidence extends to all documents in existence as of the time you reasonably anticipated this litigation. This Notice covers information retained on all computers, servers, server back-up systems, CDs, tapes, PDAs, cell phones, and any other device on which information may be stored electronically.

To avoid civil or criminal sanctions by the Court, ensure that all relevant documents are preserved, and no alterations are allowed. Communicate directly with all employees who have possession or control of potentially relevant evidence, including but not limited to personnel who deal with email

retention, deletion, and archiving. Advise each of these employees to preserve any relevant documents in their custody. Furthermore, advise all such persons that any regularly scheduled and/or automatic deletion of email or other electronic documents must be discontinued with respect to any relevant data. In addition, any document destruction (such as shredding of documents) must cease with respect to any relevant documents. All relevant documents, both electronic and paper, must be preserved for the duration of this litigation.

Personal identifying information of Plaintiff follows:

Re: Preservation Demand

Mr. Brewer:

I received your preservation demand. Unfortunately, your preservation demand is not clear and I am currently unable to preserve anything for you. First, while it is true that the duty to preserve evidence is broad as it relates to the evidence which must be preserved, the police department must be on reasonable notice as to the subject matter of the litigation so we can conduct searches for any evidence that may pertain to that subject. You have not mentioned any incident, event, or other subject matter, nor you have informed us of a date or location. Therefore, we have nothing to search for. Second, I conducted an electronic search of your name and your name does not appear in our computer system.

If you are able to send us more specific information about an event, time, location, or some tangible subject for which we can conduct a search and potentially preserve evidence, then please send us back detailed information.

Sincerely yours,

Robert Corbett, Esq.
Lieutenant
Commanding Officer

NYPD Response to FOIL Request 210903.docx;

Lt. Corbett - Thanks for your Nov 23, 2021 letter response to my preservation demand. As you requested, please find further detail below. My request specifically relates to the following:

- I presume my information is not available on your NYPD system generally available to personnel as it relates to sensitive issues. The attached NYPD FOIL response indicates that irregular operations methods were used, likely involving NYPD and other agencies under JTTF.
- A counter-terror operation was undertaken by NYPD, likely in conjunction FBI, various elements of DHS, as well as PANYNJ Police, Bergen County Sheriff, Ramsey, NJ Police, Edgewater, NJ Police, NJ State Police, NY State Police, and including cooperation with Massachusetts State Police and Boston Police beginning in about 2005 and extending into recent times. This series included a highly visible reception by about two dozen NYPD counter-terror unit officers with tactical equipment, including vests and submachine guns lining the sidewalk outside the 8th Avenue Port Authority Bus Terminal South entrance on my first visit to NYC after moving to Cliffside Park, NJ in August 2007. This occurred one weekend afternoon, likely a Saturday, somewhere between September 2007 and November 2007.
- Further, a series of female officer investigatory "dates" were arranged on Match.com and later Tinder.com in 2007 and 2008, including a Canadian resident of New York City known to me as Marinka Modderman who had a residence in the Canal Street area of NYC and an email address on nycroadrunners. We were together for several dates over about three months in Spring 2008 into Summer 2008.

About 15 more one and out dates were arranged via Tinder.com and other dating sites in 2019 and early 2020; followed up by a faux girlfriend who reached back out to me in about March 2021 after a couple of December 2020 "dates." This faux girlfriend was known to me as a resident of east Harlem and used various names, including screen name Shay, and in-person names Gia Shakur and later as Norelle Dean on the id used for air travel, birth date 3/7/1990, address 700 or 720 Lenox Avenue, NYC. A package of materials being returned by me to her was returned to me recently from the 700 Lenox address marked "unknown." This faux girlfriend was with me from about March 2020 until 3 months or so ago. She likely was not directly attached to, or a sworn officer of, any police powers agency but would have had to be permitted by sworn personnel into the restricted access dating site arranged for me in order to make the initial contact.

- A honey trap operation, a series of 8 to ten female undercovers, who were likely dropped off by a marked NYPD van which I had observed moving in that direction as I walked toward the area, was undertaken on the streets of Hunter's Point, primarily along the East River on Center Blvd., between approximately 6PM and 8PM on November 13, 2021. Further, as referenced above, my internet access to dating sites has been highly restricted, whether by NYPD or by another police agency not yet identified.

Similar honey trap operations and faux dates were run against me in 2005 in Washington and Oregon. Presumably, this too involved FBI, as it was done interstate, with local backup or direct involvement.

As you review the NYPD "investigations" and records you will undoubtedly locate other information regarding NYPD investigations, reports, analyses, written and electronic communications within various NYPD units likely including intelligence, precincts, detective units, and with other City agencies, as well as with other federal, state, and local agencies, and so forth. My request is to be interpreted broadly to include the entire sequence of reports, observations, analyses, etc., from as early in NYPD's first awareness of me, which is likely to have extended at least the post 9/11/2001 period and perhaps even sooner.

BACKGROUND

My first visit to New York City dates to approximately 1980. I visited the NYC World Trade Center location of Deloitte, an international accounting and consulting firm headquartered in NYC, in the WTC in about 1983/84 in conjunction with the breakup of AT&T and spin-off of its mobile phone units. Further, I was a member of the Board of AeA (formerly American Electronics Association, now Tech America) from 1999 to 2002, and visited the WTC family viewing area in about November 2001.

I was born and lived in the Seattle, Washington area until 2005. I traveled extensively in 44 U.S. states prior to 2005, travel was mostly on the West Coast, as well as through the NYC area at various other times. I lived in Boston, first in a hotel for about four months beginning in late December 2005 then a homeless shelter, Pine Street Inn, until moving to Cliffside Park, NJ in August 2007 through September 2010, was employed by Establish Inc in Fort Lee, NJ from August 2007 through July 2008. From October 2010 to April 2011, I was at Bergen Regional Medical Center, then in Ramsey, NJ until November 2018 when I moved to my current location in Edgewater, NJ.

I have worked with Federal, State, County, and municipal governments, the Washington State Legislature and three Governors there. No contractual work for any State of NJ or NY agency, nor any city or county on the East Coast. My federal government work involved various DOD facilities on the West Coast, a number of DOD contractors, Boeing Space Delta IV rocket assembly plant for the USAF, Hughes Space Systems satellite launch failures, a nuclear sub and aircraft carrier maintenance base where I was left standing beside an ultra-classified high-tech sub pump for ten minutes by myself for no explained reason, as well as various other technologies touching on national security, intelligence, banking regulation and examination (FDIC), and so forth. I have also worked with and sold to other major and mid-size companies ranging from aerospace (F-35 prototype development and various rocket systems were developed there) banks, software, consumer products, semiconductor manufacturing, and so forth, over the course of my career from 1979 to 2005.

FEDERAL MISCONDUCT PREDATES NYPD INVOLVEMENT

Federal misconduct related to this sequence may well extend as far back as 1980. The spiraling trend of public visibility (never initiated by me) and illegally pretexted police powers operations, were likely first initiated by FBI's Seattle Field Office, and basically destroyed my career in the early 2000s. It is also highly probable that CIA used the Deloitte Consulting units I worked in and with, the local office and the National Banking Unit, to establish a commercial cover for the team leader of an apartheid era ATM system implementation to facilitate the Agency's surveillance of the banking system and financial affairs of the government of South Africa in the early 1980s, as well as a prominent Mideast national airline. That nation's royal head of state's on-board bedroom was bugged while the Boeing 747 aircraft was being fitted out and discovered sometime later, as reported in the media at the time of the discovery.

A couple of other odds and ends - my first wife was the former wife of a King County serial killer task force hunting the Green River killer who later became a Precinct Commander. I also personally knew two Seattle FBI agents and babysat the first-born son of one as an infant. Probably nothing to this but thought I would mention it. I have never been arrested or booked for anything anywhere, have no violent history anywhere, and have paid parking and moving violations timely.

US DISTRICT COURT COMPLAINT

This information is being collected as part of my initial informal discovery process related to an Amended Complaint filed in US District Court in Washington, DC 21-cv-2954, which is available on PACER. A subpoena will follow in a few weeks. Information obtained will be used to, among other things, identify potential witnesses, request depositions, further develop the case, and so forth, as is typical of civil and constitutional rights litigation. This request relates to all discoverable information maintained or archived by NYPD related to me into the present time.

Thanks very much.

Regards,
Dennis

Dennis

At this point I would look at one vessel if you have specific business you are working, would need to know the specifics of the position. I would need to have comfort in your team understanding of the phyto requirements and how that would work before we could look at doing something. With out known specifics I would indicate an elevation in the \$20's/mt CAD. we only do put through no storage.

Once you have more info we can discuss further.

Thanks
Jamie.

Jamie – my mistake, the #2 corn product we would be moving for our larger contract (12 to 18 million MT) would be GMO corn. I mistakenly mentioned Non-GMO corn. Our non-GMO moves would be considerably smaller and more spread out.

Subject: Update

Organic Grainfed Beef and Pork – Website product editing is complete for first pass, pricing will need to be updated most likely, but that is relatively simple, though not very efficient at the moment. Our entire new site will be moved to GoDaddy for testing there, adding of plug-ins and QuickBooks, retesting, then to live environment. We obviously are still behind schedule but will not short-cut testing so we make certain this comes up pain-free for users. A crummy site is the worst thing of all, so it may take a little while to validate before soft live. I'll keep you informed of progress.

Beef Exports - I've granted a few day extension on a couple of SBI export contracts which remain unsigned. We will be dropping this entire line of business if no contracts are signed and in hand on the 15th. We cannot continue to waste resources on something that is going nowhere despite the years of effort. We have put up with Trump's trade war, Covid, supply chain disruptions, contract cancellation by Walmart China due to these issues, a Walmart China reorg, new sales efforts in-country, etc., none of which have gone anywhere over the past 4 years.

I'll keep you informed.

Thanks for your support.

Re: Illegal Police Power Operations By NYPD – 2007 to Present

Dear Mr. Mayor-elect:

Due to the high profile situation I find myself in by no design of my own, you doubtless know NYPD has continued to engage in “investigative” operations against me throughout the Bloomberg and DeBlasio administrations, at times in conjunction with various federal, state, and local police powers operations in the region. It’s part of an on-going pattern of extra-legal and unconstitutional operations against me which has persisted over decades. It has included counter-terror, honey traps, collaborative efforts to sexually humiliate me, control of my rights to speak and assemble, speak and associate with others freely, and a variety of other operations. NYPD is a named Defendant in my litigation against several federal Departments and Agencies within DOJ, DHS, DOD, with additional defendants to be named.

Despite nearly two decades of offensive operations involving NYPD, they have failed in repeated entrapment attempts which have never had any legal foundation of reasonable suspicion, and constitute on-going violations of the Constitution, civil rights law, and racketeering statutes of the United States and the State of New York. While it is unclear how many other people have been swept up in this type of corrupt operations posing as law enforcement, it is clear these have been intended to entrap, discredit, destroy, and to retaliate for making other persons and entities aware of their corrupt conduct.

This type of conduct has been pervasive in federal intelligence operations inside the United States. Cointelpro revealed the common tactics of FBI, including burglaries, disinformation, slander, and entrapment efforts against people focused on asserting their Constitutional and civil rights and the rights of groups they represented. MKULTRA, despite the best efforts of CIA to destroy evidence of its illegal activities within the United States against US persons, was exposed for direct and indirect efforts to sanction (kill) some of those caught in their experiments, also enabled by elements of the U.S. Army. In more recent times, senior citizens were investigated by Department of Commerce and Department of Homeland Security police powers operations for such protected activity as political speech and reportage. This lawless conduct has persisted due to the federal government’s inability to manage and police its own agents, officers, and task forces even inside the United States. Coverups continue and violations go unpunished. For example, FBI failed to properly investigate one medical doctor’s on-going misconduct against hundreds of female gymnasts and others. FBI promptly fired the supervising agent who allowed the conduct to continue by his negligent and dilatory investigation, exactly one week before a highly publicized Congressional hearing – six years after his improper conduct.

I am certainly confident you are much more aware than I am of similar patterns of conduct inside New York City's police power operations. The culture of large institutions with a tradition of impunity, retaliation, lax and difficult to accomplish discipline, and the tendency of senior leaders to discipline lower level personnel for conduct they had previously engaged in themselves, had ordered others to conduct, or had consistently failed to discipline until a matter became politically difficult for the agency, is extraordinarily difficult to change.

It is not, however, impossible to accomplish the required change, transparency, and accountability. For example, accountability in the protection of money has gone through a series of evolutionary actions over the last 100 years. The current iteration, with updates to state and federal laws, protect money and wealth with independent regulatory agencies, such as the Security and Exchange Commission, independent financial audits, and the explicit requirements of Sarbanes-Oxley for independent auditors to seek out corruption and to be periodically rotated so incestuous relationships with auditors and regulators. An independent entity fully read in on police powers operations and completely independent is the best way to accomplish accountability and transparency.

In addition, it is probable that NYPD has been willingly or unwittingly co-opted into improper investigations and coverup by self-interested federal actors. Taken together with the police powers/intelligence community's pattern of entrapping and self-exculpatory conduct, an on-going culture which does not serve the public well, prior terror attacks in New York City, the presence of the United Nations and the obvious presence of various international actors working to acquire intelligence and political advantage on the world stage in New York City, it's clear NYC is fertile ground for both confused operations, misinformation promulgated by any number of sources, and misconduct.

Among the possibilities for these completely inappropriate extra-legal and unproductive operations against me and other persons like me is the employment of current or former members of the federal government within NYPD. The most likely root cause of this type of perpetuated misconduct would be an individual or team resident inside NYPD whose actual on-going allegiance is to a "working group" within CIA, FBI, or a DOD special operations unit. To date, each of these agencies has stonewalled my requests for information. After its initial acknowledgment of a counter-terror operation against me, NYPD has also denied the existence of any related records.

Its field operations conduct is far more obvious. For example, on November 13, 2021, NYPD rushed two units to the front door of the 108th Precinct station as I was walking by. The Precinct had previously dispatched a vanload of plainclothes female officers to run about a dozen lone female pedestrian honey trap operations against me. I encountered the non-concealed "bait" members of this team as I walked through the Hunter's Point area along the East River a few minutes later that evening, between about 6:30PM and 8:00PM.

A recent letter to the NYPD PALS unit resulted in a response from Lt. Robert Corbett, Esq., on November 23, 2021. Lt. Corbett stated the basic computerized records available to line officers has no record of me. The likely reason is the sensitivity of these operations conducted off books due to the initial terror designation by the federal government abusing the JTTF process.

I strongly encourage you to have your new Commissioner closely review these actions using a trusted team member who is independent of current JTTF, Intelligence, Precinct, and other line operations. This review will find durable misconduct, both witting and unwitting by NYPD, as well as the abuse of JTTF

case designation and investigative procedures in my case and others. Discrediting and retaliation after those initial counter-terror operations in my case will also likely be readily identifiable.

Corrective action for this misconduct by the incoming Mayor and Commissioner would seem to be preferable to widespread adverse publicity and the inevitable blame-shifting attempts to the City of New York by the federal agencies which initiated this entire problem and process. As mentioned, NYPD is being sued in the US District Court for the District of Columbia and will be served soon. Other Defendants will be added to the existing list of federal Department and Agency Defendants as needed to responsibly and properly litigate this case. It is also possible that additional Plaintiffs with ties to the NYC area will be identified during the discovery process.

Sincerely,

Dennis Sheldon Brewer

Subject: Advances

Mike – Approximately \$700 of funds from GPR have been advanced to SBI and to me in the past month or so, some of which was to support GPR but not all. I just wanted you to know these funds have been fully accounted for and are to be returned to GPR within 6 months. Our project is on hold for the time being as litigation issues are being resolved. Unfortunately, this means we will miss the pork opportunity which is materializing in California early next year as anticipated. But the future of organic protein is bright, particularly given our ability to grow and finish it in a climate friendly way.

Hope you and your family are well, kids are enjoying school and their friends. Happy Holidays!

Regards,
Dennis

Subject: Shipping inquiry

Hi Dennis,

Any possibility to get a shipping contract with DLC? I believe I can ask the buyer to add some 30% extra on the DLC for guarantee. Iron ore from Lazaro Cardenas to Caofeidian Port, China. 50k per month

Also, I have another inquiry for NON GMO soy bean. 50kMT per month to Shanghai.

I know, but gotta try any request that comes in.

Thanks.

John
