January 13, 2023

District Court for the District of Columbia

United States Marshals Service (as process server)

I direct your attention to the following:

**Websites used by the Lead Plaintiff to develop this Complaint may have been hacked and/or spoofed, and the information provided in the Complaint regarding citations and content of statutes, Defendant addresses, and certain historical context information may therefore be inaccurate despite my best efforts to be complete and accurate.** This sort of tampering by Defendant has been encountered in a wide variety of online information and may lead to inaccuracies in certain elements of this Complaint and exhibits derived from sources other than the Lead Plaintiff. These inaccuracies are the sole responsibility of the Defendant(s) who so engage using their police powers and essentially unlimited resources to discredit the Lead Plaintiff and ought to be regarded by this Court as the pattern of obstruction, tampering, and retaliating offenses they are under 18 USC §§ 1503, 1505, 1506, 1512, 1513, 1962(c), 1962(d).

Please use your locating services to independently verify all Defendant entity registered agents and all individual addresses on the Summonses and in the captions prior to service of process.

**I used the relevant Secretary of State entity searches and Spokeo to locate the registered agents and individual defendant addresses on the Summonses and caption. However, I have experienced extensive hacking and spoofing of websites throughout the preparation of this Complaint, some evidence has been blocked from access, and I have very low confidence in the information sources I am able to access for this purpose.**

This Complaint is fundamentally about dirty cops, dirty intelligence operators, and tie ins with business and political officials - public corruption - which reaches into the upper elements of government and business interests in New York, New Jersey, Arizona, California, Arkansas, DC, and elsewhere.

As a non-insider, I have and am experiencing treatment which is comparable to a typical police powers or intel whistleblower, so it is best to exercise caution. Mail fraud, email fraud, wire fraud, and visual and verbal threats have also been commonplace. There have been three serious remotely driven attempts on life since a verbal threat in mid-July 2022, including two involving City of New York municipal assets, and one involving a potential MTA express train derailment mass casualty event on Sep 11, 2022.

Let me know if you need assistance – but be wary of cut-outs – they have been used before. This is a long-running racket.

Submitted under penalty of perjury. True, accurate, and correct.

Dennis Brewer
