

Table 2: Key Events 1972 to 2023 – BRMT Biomedical Abuse, Racketeering Act, and Rights Violations Patterns

BRMT, including both the actual biological mechanisms of operation of the brain hijacking bioweapon itself, and the complex technological system (supercomputers, software, and precision directed energy systems) which delivers it, were first reverse engineered by Lead Plaintiff in 2021. Table 2 summarizes key occurrences of BRMT and racketeering violations of law and rights against the Lead Plaintiff since approximately 1972 (age 17). These acts began at the age of 12. **See First Steps Supplement at pages 12245-12250.**

BRMT bioweapon brain hijacking development apparently began in earnest in the 1970s as Defendant CIA was “terminating” the illegal MKUltra LSD program and Defendant FBI was “halting” Cointelpro, two secret programs of criminal violations of the US Constitution and laws. These 1950s programs were publicly “terminated” in the 1970s due to public exposure and outrage. There were absolutely no criminal consequences to these agencies nor to any government executive, manager, or agent, for the hundreds of thousands of felony law violations against American citizens – drug distribution, prostitution, mail and wire fraud, accessory to assault and murder, funding of violent extremist militia, evidence destruction, and obstruction of justice, to name just a few.

The behaviors simply continue in secret as before, perhaps morphed a bit to get around some new laws. But mostly those laws are simply ignored. The FISA Court recently published another report in a series which documents 45 years of FISA violations. Congress recently memorialized the 15th year of Section 702 violations in hearings. The Senate Intelligence Committee was spied upon by CIA in 2014 during oversight related to torture abuses by CIA. CIA then removed the internal CIA report on this spying from the computers used by the Senate

Intelligence Committee. These are other indications of the executive branch intelligence and police powers operations pattern of practice simply ignoring the Constitution, law, rights, and even the separation of powers, since there are no consequences for their actions anyway – never have been.

Lead Plaintiff began using forensic reverse engineering to identify the basic medical and technological tools required to abuse with BRMT and its effects on humans in 2021. Using this biomedical abuse knowledge, and newly recognized past patterns of handler and minder tradecraft embedded in Defendants’ signature tradecraft, woven into their psychological operations, and direct knowledge of racketeering both as a victim and as an involuntary servant of these criminal operations against US persons and enterprises, the timeline below was constructed.

Year Age Jan. 1 2- 0001	<i>Actions: Destroy Families and Personal Relationships Primary Methods: Episodically intervene to destroy personal relationships, induce fraudulent and exploitive relationships, disrupt and destroy marital community, personal friendships and networks.</i>	<i>Actions: Destroy Career, Businesses; Pretext, Entrap, Incriminate Primary Methods: Manage employment options using mail fraud, wire fraud, and insider recruiters directing employment options. Starve personal and corporate resources through financial frauds and legal partial settlements. Force expenditures of personal and corporate resources on expensive litigation.</i>	<i>Actions: Destroy Physical and Mental Health Primary Methods: Induce illness through biochemical manipulation, food contamination, and BRMT brain biochemistry manipulation. Limit lifespan using BRMT to induce long-term health issues. Terminate liberty or existence of BRMT victims to perpetuate criminal acts against US persons and other innocents using “state secrets” cover as in Cointelpro and MKUltra.</i>	<i>Executive Branch Officials Primary Method: Ostensibly protect “state secrets” while illegally experimenti ng on, manipulatin g, and depriving US persons of human and Constitution al rights.</i>

0043

This is also my first unwitting involvement directly in a series of cross-border acquisitions of broad-form intelligence platforms usable by foreign intelligence services in a partner country. This method “permits” under color of law a foreign intelligence partner to legally acquire and share otherwise illegally acquired intelligence with an intelligence “cousin” or a police powers “partner” in the country where the spying occurs. Carefully scrubbed of its origins, it is otherwise known as a Fourth Amendment violation.
