Dennis,
I'm just leaving a hotel in Baltimore, and will follow-up on C&S. I also am contacting Reinhart soon. I had a meeting scheduled in VA today, was postponed, Chairman won't be able to see me to early July, his flight in was delayed days.

My efforts are concentrating on raising up to \$10 million and equity tied to RE after the debt is reduced and also a seed investor \$2 million to get us started.

Will keep you posted as I get closer to \$\$
Best,
Richard

Subject: Checking in

Hi Dennis,

I'm following up to see if I can ask you to sign the contract that we discussed this week.

I completely understand that Winnett is waiting for some financing to come in but I want to also make sure we are allocating resources on our end.

We can be flexible on receiving the first payment (net 30) and if the financing didn't come through for some reason and we hadn't started the engagement we would not hold you to the contract.

I would really appreciate it.

Neal

I understand. We are putting the offices at UA Tech Park as the rent in the building we were after on Oracle was not appropriate. We got gross for the price of NNN by locating at the tech park.

Hi Dennis,

IF your office is going to be on Oracle and Magee, Vail is an hour and 15 minutes or more drive away. I have worked the Vail area as well so I know how far that is. It's far!

There are some fantastic horse properties here in the NW, not to mention land opportunity by the Catalina Mountains and you would only be minutes vs 1 hours and 15 minutes or more from the office. If anyone has told you it's not far from the office, that is not the case

Please let me know how I can help.

Jon – I have decided against the airpark as the runway and taxiway are too close together. We are going to put the plane at TIA instead. So, I am looking at the Vail area to get more property to build a home. I still do not know when I will be in Tucson, we are working on funding here in New York now.

Subject: Re: Concept Document

Hi Dennis,

It's been a while since we corresponded. Therefore I wanted to take the time to wish you and your family a wonderful 4th of July.

Also...

There have been properties since we last spoke that are now under contract at the LA Cholla Air Park. So.. I thought it may be beneficial to you that I set up my Virtual Finder for you. What it will do is send you the properties via email to your in box. I can set it up and you will receive a message to log in with a new password that I create for you (first initial and last name). Once a new listing becomes active in the airpark you will be notified that day, the program will also show properties that have price reductions, sold and much more. May I set you up on this?

Lastly, a couple of the properties that I wanted to show you are now under contract. Therefore, I was thinking of sending out a mailer to the residents to see if any of them are interested in selling their property. Would that be something you would like for me to do for you?

Happy 4 th of July

Date: Wed, 18 May 2016 23:24:23 +0000
Hi Dennis,

Per your request, attached is a conceptual of the property with a road from Kachina and an eastern Road along side of the property. Along with two additional structures and helipad. If I may, I'd like to offer an idea for cost containment and or reduction.

The "south eastern" property line does have a large block wall to which I believe is about 8 ft in height. In order to create an eastern drive on the property would require the wall to be partially torn down. What I would suggest is to utilize the existing driveway and eliminate the idea of the road from kachina and the eastern roadway. Thereby reduce the cost of laying an extensive roadway. Then you can allocate money toward those areas that mean the most to you.

With that said...Upon your arrival to Oro Valley, I'd like to show you 3-4 other properties that have some of

the features currently in place and priced very well. Which could very well reduce your overall expenditure due to the fact that the cost for existing upgrades are sunk cost vs the cost of developing your desired features from the ground up. Food for thought.

Please feel free to call me anytime

< [REDACTED] >
Subject: Up to \$60,000,000 Funding for Winnett Organics

Dennis-

Regarding your request for up to \$60,000,000 + in start-up funding for your organic food company in Arizona, we can help with a bond consulting company who can structure 100% of the total start-up costs as needed.

Based on the representations made in our loan worksheet this transaction would qualify for this type of bond funding program as shown in the attachment.

The 41 year old bond consulting company and its affiliates and partners, that we are representing, have closed over \$200 Billion in loans of this type in the last 10 years alone.

If you want to proceed with the terms as outlined above and in the attachment we will prepare formal broker engagement documents and would require a \$5,000 REFUNDABLE retainer. The retainer is 100% refundable if the borrower does not receive a proposal from the bond consulting company in accordance with the above.

A 2 point broker closing fee for arranging the financing would be required payable out of the funding amount as funded.

Please advise.

Subject: RE: Personnel at Admin Offices

It does help. Thanks.

FYI – awaiting word on California investor from Rafael sometime today I believe but will be small if anything. Working on our Hyder landlord to see if he will front us some funds and lease shadehouses to us. While not the perfect location for shadehouses due to housing issues, this combination may be one that can get us going.

Subject: Personnel at Admin Offices

Morning Dennis,

Sorry for the delay on getting this info. back. I was waiting on both Jason and Rafael so here is my best guesstimate.

Logistics- Jason does not expect anyone else in his department to need space at Corporate. He plans on having people at the Farm Terminal and Shipping point.

QC/QA - I think Rafael would need an assistant to act as Coordinator for lab testing and Reports. His managers will also be staged at the Field, Farm terminal and shipping points.

Operations - We will have a Chief Agronomist, Manager of Operations and Maint. overseeing ongoing construction projects, and probably some type of Admin. Asst. for the Dept. Everyone else, such as Field Agronomists, Irrigation and Tractor Foreman, and Harvest Managers, will work out of the Farm Terminal Office and Production Facilities (Packing Sheds).

Hope this helps.

Regards,

Mike

Pedro – Nice to hear from you. Here are my answers to your questions:

Equity only - raise \$60 million, yields 45% of total outstanding shares to investor

Debt only – raise \$60 million, no equity to investor

Debt plus small equity – raise \$50 million debt plus \$10 million equity, yields 7.5% of total outstanding shares to investor

Subject: Re: Organic food - USA

Hello Dennis,

I think we have to wait to have the better alternative...

- My Funder1 (that I can not send by now), he would review for Equity+debt... and IF ALL IS OK, he can give the funds\$\$ in short/average time...

- Now, the Funder2 (that look for 50M or 100M or more)... he would review for Equity or Debt or MIX (equity+debt) too... but here, I am not direct, so the fee/comission for 3%... if all ok, we could close in short time too...

Then, 2 direct questions.. for a "X Funder 1,2,3", ok... pls inform... very important... thanks...

a) if **ONLY Equity**, what is the MAX value\$\$ you would want to RISE... ex: \$50M-70M... and for that, what Equity% to GIVE to Investor ex: 40%... 60% equity to Funder...

b) if **ONLY Loan/Debt**, what is the MAX value\$\$ you would want to RISE... ex: \$90M, 100M...

c) if **ONLY loan/debt + little equity**, what is the MAX value\$\$ you would want to RISE. and what Equity% to GIVE to Investor... ex: \$100M (and how : 80M+20M)... & ex: 15%equity...

Subject: RE: Organic food - USA

[Thanks for the update. The total amount we are raising is over \\$50 million if you include debt. We would be willing to substitute equity for debt if that would work for your second funder. Then we could raise still more debt to increase our total raise to around \\$100 million \(up from \\$59 million\) and grow faster than projected. We could use more of our 31,000 acre land base sooner as well as build our shadehouses \(\\$22,000 per acre capital cost, \\$300,000 per acre annual revenue\) more quickly. And we could start our new packing plant \(\\$24 million\) months sooner than planned so we could pack root vegetables by the middle of 2017 instead of the beginning of 2018.](#)

Subject: Re: Organic food - USA

[Good day – Thanks for your interest.](#)

1 -- I am revising the PPM and the presentation to make it clear **good...**
we are talking dollars in thousands. I will send these revised documents later today. **ok, good...**
Thanks for your comments about this.

2 – We are looking for \$22 million in equity now and \$12 to \$25 million in equity in our IPO in 4 to 6 months. According to our revised documents, we can accept up to \$37 million in debt and leases from either banks or investors. The debt portion would be 5 years at 5.5%. A mix of debt and equity from an investor would be acceptable.

Dont understand...

a) \$22M, NOW... ok...

b) And \$37M (5.5%rate) in debt... when... NOW...

so, you are looking NOW for \$59M for a MIX (equity+debt).. yes/not.. pls confirm... if yes, then i can focus in one of my Funders that prefer to review MIX (than Only euqity), right... and 59M is not problem if they decide to go, righth...

3 – Commissions – The Company can only pay these to licensed broker-dealers in the US. I will check on out of country consultants and see what we can do. I do not know what the funder can do but that is their business not ours.

a) I work with 3 USA Funders and they have No problems with me...in any case, the FUNDER can deduce my fee%(3-4%) from the Funds (ex: 59M) and then you receive the balance and no problem... One Funder, then my group ask 4%.. in this case the Client (by Fee Agreement) paid to one of the group, he is in USA... pay the full 4% to him, ok.. and then HIM pay to me and my other partner of the group, that is out of USA too... so you pay to my contact in USA, and he pay to me and my contact.. so you have NO problem... this is normal, ok...

b) My consult: you will pay to me (depending on Which Funder I will dedice) my 3% (If I alone) or 4%(if with group) from that 10% of Adamsom, or you wil pay apart/separate that 3-4%... pls confirm...

Subject: Re: Organic food - USA

Hello Mr Dennis,

- 1)
- so we would be talking in PROFITS for \$242M (in the 5y), right... now thats good... profits for \$6.9M... 78M.. 242M... good...
- pls "review and modify" your 2 files to that "financial proietions" be Very CLEAR (informing if numbers are in hundred, thousand, millions) to any potential Investor when review your files, right... anybody will review and see/understand just \$242K (when you know is 242M), right.. and pls resend to me... important...
- 2)
- So, you are looking for **\$22M** only as Equity... yes/not..
- In file say, for a **\$29M** debt... pls explain...
- So you need to raise a total of 22+29= **\$51M**.. is it... I can review also with a Fudner that like to work for MIX (debt + equity)...
- 3)
- In the shares price say 10% to "Adamson" as fee/commission...
- As Informed I am consultant too, right.. so that 10% of Adamson would be share with me (or my group)... pls inform to undertsnad...
- Depend on the Funder I can review, then I ask 3% (to me) or 4% (to my group)...
- And you say "lisenced broker", well as you can see on my Linkedin I am NOT in USA... so as usual, the client pay/transfer my fee/commission to my Abroad account, right...

To: Dennis Brewer < [REDACTED]>
Subject: Re: Organic food - USA

Hello Mr Dennis,
Thanks for your contact...

- I dont understand well your numbers...
- Your files talk a lot of the MARKET 31bi... but what is the % of this "market" you will get...1%, 10% of the market of31Bi...
- So, you are looking for \$22M only as Equity... yes/not..
- In file say, for a \$29 debt... pls explain...
- So you need to raise a total of $22+29=51$ M.. is it... I can review also with a Fudner that like to work for MIX (debt + equity)...

- In pag7 (of 31p file), we have the ONLY "financial projections" and I don't understand nothing here... you talk in \$6,921... 78,050 ... 242, 394.. is it.. or that is MILLIONS... are you saying that in 2020 you PROFT is just \$242K.... or \$460K (460,586 as pag24 of power point)...not sense, right... and how it turns to \$16.7M or \$24.4M... I don't undertand...
- HOW you will buyback the \$22M in shares of the X Fudner/Investor if don't have money as the Profit is SO LOWER (and we are talking in the 2020).. as you say in 5y (2020) you will grow to \$900M... how, with a minimal profit of just \$242K... also, need to payback a loan/debt of 29M (+ interest), right.. pls inform/explain... important.. thanks...
- The "market" can have 31Bi, can have 100bi or more... the point is, what "you" will sell (revenue, cost, PROFITS) to arrive to \$900M in 5y... if you have a "financial projections" showing this 900M would be good and very interested... not a \$242k or 460K, right...

- In the shares price say 10% to "Adamson" as fee/commission...
- As Informed I am consultant too, right.. so that 10% of Adamson would be share with me (or my group)... pls inform to undertsnad...
- Depend on the Funder I can review, then I ask 3% (to me) or 4% (to my group)...
- And you say "lisenced broker", well as you can see on my Linkedin I am NOT in USA... so as usual, the client pay/transfer my fee/commission to my Abroad account, right...

Waiting your comments to understand in better way... important.. thanks...

Subject: Term Sheet
Attachments: Oliver Term Sheet 160705.pdf

Barry – In an effort to speed things along, I have put together a Term Sheet for you to consider. The Term Sheet includes the office, shop, and 500 acres of shadehouses to be constructed at Hyder this year. It also contains fee-based lease guaranty and loan guaranty arrangements. Taken together with the existing land lease, it provides \$8.2 million of income to you and Diversified Farms in 2017, and \$9.25 million in 2018 and 2019 as acreage climbs to 15,000 acres. And, the new water treatment process we have uncovered may allow us to expand further into areas of your farm which have higher concentrations of total dissolved solids. After you have had a chance to review the Term Sheet, I would like to discuss it with you by phone or in person. I have shown it to Greg Crossgrove, so you might want to get his input on it and on our future prospects.

We are currently working on two important aspects of getting the company to the next level. We have hired our Senior Vice President of Sales and Marketing. He has 33 years of sales and management experience in the produce industry. He will begin this week the process of contracting with our customers for next year's sales volume. We are also working on a \$20 million equity financing package which involves a private placement and an IPO. I feel very good about this package as it involves numerous smaller investments from a large number of people. It is being managed by Zack's Direct, an offshoot of the Zack's stock market research firm you may be familiar with. Zack's Direct reports good success using their platform to publicize and drive accredited investors to our site to make investments directly in the company. We are also partnering with Equities.com to increase investor traffic to our site where they may register to obtain offering materials.

Thanks for your consideration of the Term Sheet. We look forward to working with you for many years to come.

Subject: Re: Good Morning

Hi Dennis,
Sorry for the delay in responding - I just now was able to get emails from 4 days out. As mentioned in earlier discussions, my employment with Taylor Farms ended last month. After we talked on Friday afternoon, I received an email from Taylor corporate asking me to turn over all my company equipment (desk top, laptop, cell phone, company vehicle) on Saturday, July 2. My agreement with Taylor Farms was I would be gone by the start of their new fiscal year - July 1. It has been obvious the company was not pleased with my decision to turn down the promotion and relocation to Salinas. I have lost email communication since Saturday (my personal desktop was getting a virus removed). I should have my desktop repaired and operating this evening. I should also have a new cell by this evening - working with Taylor Farms to keep my same number.

In regard to the W.O. employment opportunity, I plan to bow out and pursue a less risky career path. Even though I believe your company and growth will happen, I do not see a green light for growing, operations, and sales until 2017 at the earliest. The difficulty in capturing enough start-up funding is not a good position for me. By turning down two strong produce careers over the last two months, I showed a sign of willingness and patience but I have concerns with the similar difficulties with funding we see each passing week. I now plan to start an executive position with a local company by next week. If early 2017 finds W.O. funded and moving forward, I would always consider any opportunity that might be a good fit for you and I.

I will reach out to you on phone by tomorrow. I did not want any more time to pass without starting this communication.

Thanks,
Bill

Subject: Term Sheet Expected, Your Help Needed

We are likely to receive a signed Term Sheet next week for \$43 million. If we do, I will need some additional investment to rally the management team before the final funding comes in. Would you be willing to commit an additional investment to the company on the expectation that we will be able to close on the Term Sheet? Same \$1.67 price as before. Last time we will see this price.

The Term Sheet is confidential but has the following terms:
\$12.5 million for 500 acres of shadehouses, shop, and office
\$15.5 million lease guarantee for equipment
\$15 million loan guarantee for ramp up expenses

It will be from our landlord in Hyder where we will be farming 500 acres of shadehouses and 10,000 acres of field grown crops. Happy to answer any questions you may have. My direct number is 970-744-3205 or email me at your convenience. Thanks again for your support.

Regards,
Dennis

Ray – We will very likely need you to turn the attached Term Sheet into a contract for us next week. I do not have a final sign off on the Term Sheet but consider it likely we will be there by Wednesday or so. We will want to turn this around as quickly as we can – of course. But, who knows, you might even get paid for your work if this deal goes through. Imagine that!

Regards,
Dennis

Neal - I fully expect the Term Sheet to be signed next week on or before Thursday. Then we will need loan approval from the bank which will be forthcoming based upon the excellent strength of our guarantor. It will take 2 to 4 weeks for the bank to make funds available to us. We will do everything in our power to fulfill our portion of the Equities.com contract with us. We appreciate your flexibility.

Regards,
Dennis

Subject: Following up

Dennis,

Thanks for taking my call yesterday afternoon and good to hear that it sounds like Winnett Organics will get the funding needed to continue the path to IPO.

As I mentioned Equities prides itself as a partner and we have been along side companies in these types of scenarios many times before and we can be flexible with the first payment.

It sounded like the term sheet for financing should be signed by next Tuesday and then we just need to wait for the banks to transfer funds. Please confirm that my understanding is correct.

As long as the above is the case, and the contract will be honored, we will proceed and remain flexible on the first payment. The next steps will be for Tina from our client services to reach out and onboard Winnett Organics.

Hit me with questions.
