

Subject: Please Respond - Sheldon Beef

Importance: High

Ibrahim,

I have been in touch with Dennis Brewer, he filled me in some on the situation. First off, I want to say I am sorry for your loss. I understand you are going through a very difficult time and I hate to have to find out anything from you now as I know you are grieving. Sheldon Beef is respectful of the fact that you want to take some time to grieve and shore up any family related issues.

The challenge they are facing and can't afford to wait on is they have an offer out on a property they feel confident will be accepted. They are willing to provide a significant 2% equity stake to you to be a co-signer and guarantee provider on a loan that is set to close within a month. This is a significant equity stake in addition to the 3.4% that is part of the terms of employment. I realize there are risks but if you are not in position to make a decision of this magnitude they could be forced to find another person to co-sign and guarantee the loan which would result in the additional 2% equity tied to the loan to be taken away from you.

On behalf of Sheldon Beef I would like to ask the following questions, your answers are appreciated and are critical for Sheldon Beef to determine the path forward.

1. Are you willing to provide your signature to guarantee the loan? (understand that no response or answer will result in this option being taken away from you along with the 2% equity stake tied to this)
2. Are you interested in entering into an employment relationship with Sheldon Beef after returning from Egypt?
3. If the answer to # 2 is yes, Are you willing to commit to a future date or date range? (examples between May 1 and May 15 or before the end of May)

I want to re-iterate that Sheldon Beef is respectful of giving you time to grieve, however, there are some key business issues that can't wait on you. I hope you can respect that and provide information to them that is critical for determining their path forward and overall business success. I can be reached on my cell phone, 469-233-1582, and am happy to talk to you, gain an understanding of where you are mentally and help you make the best decision for you and your family. I am happy to pay whatever costs that may be associated with an international call as well.

On a positive note regarding Sheldon Beef, contract talks with Wal-Mart China have picked back up and Dennis is confident they will be able to come to an agreement. Over the past several months he was honest with me and didn't feel confident about the prospects of that contract working out, he has a history of being honest about that situation. Successfully securing that contract is very important to the company's growth trajectory and will reflect positively on the equity value they have offered as a term of employment and the additional 2% tied to the loan.

Best regards,

Mike Maggard

Subject: Lender

FYI – We have secured a co-signor with an 800 FICO from Lubbock, Texas (coincidentally the middle of Texas cattle country) for the real estate loan. The lender will begin the underwriting process as soon as we receive the legal description and/or the APNs so we can access that information. They understand the LOI is pending but are willing to move ahead with their 4 week process on the way to closing anyway.

Thanks, Joanne.

Thanks Dennis, I may take you up on that (and bring or buy a fishing pole based on the first pic). My plan is to have all documents complete and ready to go and then send a list of diligence items to address. Assuming all items are properly addressed I will then send off the completed documents to the appropriate parties.

If there is a need for financial due diligence on this transaction or more specifically to the ranch/corporation being acquired/purchased history, please let me know. I can provide hourly options, I have a guy in Nebraska open to that kind of work. He was CFO of Henningsen foods which recently sold and lives close enough to the ranch that he could be onsite cheaper than most. I would do this at cost, no personal benefit to me or CFO Search.

Mike – Thanks, sounds great. You are welcome to join us for the closing tour in mid-April (low 50s high temp), livestock are south of Rock Springs, calving and lambing. Or, if you prefer, wait until Summer when the temps are warm (mid 70s high temp), livestock are in the headquarters area, and the Wind River Range alpine areas are accessible. Either way, you will be able to meet team members. Some decent hotels in both Rock Springs and Pinedale – Hampton Inn, Holiday Inn Express, etc. Commercial air service is available to both Rock Springs and Jackson, 2 hours north of Pinedale.

Subject: PFS To Complete

Mike – Hopefully this signed personal financial statement (there are four tabs to complete) and a “few hundred” signatures on documents around closing time will be all that is required of you during this lending process for Big Sandy River Ranch. Please send the completed PFS to the following, referencing Sheldon Beef and Big Sandy River Ranch Real Estate Loan:

Miles Reiten [REDACTED]
[REDACTED]

If you have a recent copy of an online credit score from one or all three credit bureaus from a web site which you can include that would be nice, but is not required. Send information direct to the above as I do not need a copy. No huge rush to get this done – mid-week next week is fine.

Advise me when this activity is completed, please.

We will complete the agreement regarding the guaranty and your 2% ownership next week once I know what role, if any, you must play to be on the loan. As you will recall, we expect to have news from the Seller by 5PM MT Thursday. I am out of town from early Monday until Thursday evening but can be reached by phone or email on my phone.

FYI – the person copied on this email, Ray Sullivan, is our legal counsel. He has been with us for years, has extensive experience, and is very involved in all significant activities we undertake.

Thanks, Mike!

Subject: RE: PFS To Complete

I remember being cold in August first time I went to Wyoming so I understand the cold.

Thanks for all the info as well. I am starting to see how my signature (and guarantee) could be enough to push this through, the obligations are lower than I could have imagined before digging in to the details and understanding the variables. I would expect and understand the need for capital expenses soon after closing and I like that the costs will be backed by sales. Working through the personal financials, almost done with those and have the ok from my wife so everything is trending in the right direction on my end. Will get a final list of questions to you by tomorrow, it should be a pretty short list.

Sorry for my earlier partial answer. Loan term 30 years, 3.8% to 4.5%, annual P&I about \$505,000 to \$535,000. I expect you will be released from the loan in three years or so as my credit will substantially improve over the next six months and the business will be seasoned with the lender by that time. If that release does not happen timely, we will arrange additional compensation for whatever added time the lender requires.

Dennis,

I assume the \$7.74m Cash to owner is the amount of the loan from Ag America and the primary reason for my signature to guarantee the loan? Assuming that is accurate, can you provide the terms of the loan, years and interest rate (even if approximate)? If SBI is bringing cash to closing please include that information so I can get a ballpark idea of payment.

Thanks,
Mike

Subject: Response to Brewer Proposal #3

Joanne,
Good morning.
Pursuant to Dennis Brewer's proposal of March 2nd, 2021, (Proposal #3).

The seller is not interested in any form of financing with the purchase of the Big Sandy River Ranch (BSRR). The seller would consider the buyer's offer of \$17,000,000.00 and include selling the shares to the buyer. Buying the shares assures the buyer a seamless transition into the ranch operation.

The ranch has no conservation easements at present. Something the buyer may want to consider.

The 480 acres are not for sale. The seller shall retain the 480 acres which are considered a family heirloom property.

The seller will have available somebody to assist in the transition with terms to be determined between the parties.

The seller shall require at least three months to remove livestock and personal possessions off the BSRR.

Thank you for your patience. If you have any questions, please call, or drop me an e-mail

Yours,
Theo

To: Joanne Labelle
Subject: New Mexico

Joanne - Further to our discussion about price per AU, we have located a 5,100 AU property in New Mexico at \$6,392 asking price per AU. Should be little problem to get this to the \$5,800 to \$6,000 level. Carries cattle and sheep, with older improvements in similar condition to Big Sandy. Tanks, seasonal streams, and well water at 500 feet depth, distributed by pipeline throughout the ranch to maximize grazing. Pivots are possible and the aquifer is unrestricted. It is a relatively compact unit at 232,000 acres, and varying elevations with good winter grazing options, though summers can be quite dry. Mix of deeded, BLM allotments, and state leases renewing now for the next 10 years.

We are discussing a financing package similar to the Big Sandy package.

If the Big Sandy River Ranch sellers wish to reconsider their position, now is the time.

Thanks, Joanne.

DENNIS BREWER

From: DENNIS BREWER
Sent: Thursday, March 11, 2021 11:34 AM
To: Daniel Lonergan RMC
Subject: RE: Sheldon Foods (China) - Quotation inquiry (Beijing Hung Yuen)

Daniel – It will be significantly more difficult to fill orders with cherry-picked cuts from the carcass, particularly with Berkshires in short supply. We would strongly prefer they continue to accept 6-way cut carcasses. If they have a strong and continuing demand for Berkshires, we would be willing to sign a multi-year contract with them to supply these hogs once we get past the trial order. Given our sourcing challenges on this item as of this moment, it is unlikely we will be able to source 5-10 containers per month in the short run.

We would be willing to establish the supply chain for these hogs in 6-way carcass form. If this is of interest, please let us know. We can locate a breeder to raise weaners for us, and a finisher and processor to complete the job. But it will take 11-12 months to get to 5-10 or more containers, so we would need a renewable contract, three years to start, with a nine month out clause. Please let us know if this is of interest.

We continue our work to source these orders. By the way, the second customer mentioned in his email is Walmart China, for whom we are already working a quote.

Thanks, Daniel. I will be traveling the balance of the day but will get back to asap if you need anything else.

Hi Dennis,

Our salesman continues to get a very positive reaction to his efforts in China. The latest inquiry comes for a buyer that our salesman has a very good personal relationship with, so this is a very serious inquiry...

EMAIL BELOW FROM CHINA SALESMAN

Hi Raymond,

Please note that I've updated the client's company name in the email subject. As mentioned earlier, the client is also interested in Berkshire hogs. But they have updated me with the cuts/parts today, they've changed the quotation request with below instead of 6 cuts.

Berkshire hogs (1 - 2 FCL, around 3 months)

1. Coppa or Butt - 5 tons
2. Belly boneless skinless - 5 tons
3. Spare ribs - 5 tons
4. Jowl - 5 tons

May I know if possible that I could have the more quotation with more containers such as 5 FCL or 10 FCL?

If you have any question, please feel free to contact me.

I look forward to hearing from you.

Jason

Hi Raymond,

Please note that I've received a quotation inquiry with below products.

Shipment 1 (1 FCL - including with below) *prefer Prime and would be okay with Choice

1. Boneless ribs - 4 tons
2. Chuck eye roll - 2 tons
3. Flap meat - 4 tons
4. Chuck rib meat - 4 tons
5. Brisket navel end - 6 tons

Shipment 2 (1 FCL - around 20 tons) *prefer Prime and would be okay with Choice

1. Oyster blade

Client is now importing beef products in US (Tyson) and Australia. They are purchasing their products from a local wholesale company, and would be happy if they could do direct sales with Sheldon. Client would like to have a quotation with above products as first test trial.

If you have any question, please feel free to contact me.

Jason

To: David Phillips
Subject: FW: Brochures of all feed products

David – see below. We will be importing molasses direct to our finishing operation in Montgomery City, MO once that starts. They had also mentioned a variety of other products suitable for beef and dairy. They are working a new super-carb product for dairy with Organic Valley now. Very nice people, worth a discussion. Let me know if/how you would like to be introduced or feel free to contact them directly. They are aware we will be using you as primary finishing ration provider and I gave them your company name.

FYI – We are shipping \$3MM of beef and pork to China over the next month. If our trial orders go well, we can expect volumes to increase by 5-10 times in 2.5 to 3.5 months later for regular orders. Then it will take about 60 days to get everything in place in Missouri to commence organic finishing operations. So, we are 5-6 months out from the first days of finishing operations most likely. My current best estimate, subject to change, of course.

Thanks.

Regards,
Dennis

Sayida - Well, since I get to pick the place, we can meet at Original Pancake House at City Place in Edgewater. City Place is located at 225 River Road, Edgewater, NJ 07020. Precise arrival is not required. Have Pradeep call me on 201-669-4933 when he arrives at the restaurant if that is possible. If it is not possible for him to call me from the restaurant, I will plan to arrive at 10AM. I am in the same building so I can be there in less than 1 minute.

Thanks. I look forward to our meeting!

I am returning to NJ on Thursday evening so I cannot do anything that day. Friday will work for me, basically any time of day in Edgewater, NJ or NYC. Since I live in an urban area, I use transit rather than a car. Getting to NYC is very easy if that is preferred.

Thanks.

Dear Dennis

Greetings.

I apologize for my delay in response.

Actually I am waiting on the rates of bringing the flexi load at your farm from the carriers. Haven't got any pricing yet.

I will follow on this tmr and ensure that I bid on the flexi container delivery by tmr.

In meantime, I can offer in IBC plastic totes which has about 230 gallons each in it.

For the volumes you have cited for this year, we can have a delivered price of 39 cents per pound.

The price will go down substantially by next when year when volumes reduce.

Our molasses is fantastic quality, very stable, higher brix about 85. Hence you will be very happy with the quality.

Please let me know your valuable thoughts.

Dear Dennis

Flexi bag is a giant bladder with 44000 lbs molasses in it.

It is fitted into a container and yes it can be unloaded in the tanks. Will need some high capacity motors as the containers have to be returned the same to the port.

I am pasting a picture for your reference.

Dear Dennis

Many thanks for the quick revert.

Will work on the pricing.

Have you handled flexi bags in containers?

If we can import and deliver straight in the containers, that always works out best in terms of pricing as compared to any further handling.

Also our other packaging is plastic tote with metal cage which has about 2750 lbs in each as net.
