

“Laura Akoto” is third from left in photo below. This photo is included in the email sent to Lead Plaintiff by “Laura Akoto” on August 21, 2014. “Laura Akoto was the pseudonym used by Defendants for Janessa Brazil. Ms. Brazil is a resident of Florida as determined by Lead Plaintiff using a photo recognition system in the first half of 2018. Ms. Brazil has a collection of salacious photos posted online. These photographs and those included in various e-mails in this exhibits binder were likely retrieved from those internet sites. Note that the email series includes a number of “adult content” nude photos which are included in the emails.

The pseudonym “Laura Akoto” was used by Defendants to sustain their control of Lead Plaintiff’s finances during 2014 through early 2018. Plaintiff sent funds via Western Union and other remittance services during this period while his oxytocin level was being carefully boosted through BRMT manipulation.

Note Broward County Sheriff patrol boat in upper right just in front of the large boat at center. Broward County includes Fort Lauderdale, FL. "Laura Akoto" supposedly lives in Ghana. "Laura Akoto is partially visible in the extreme lower left of this excerpt of the photo above.

"Laura Akoto" photos from public website were used by Defendants between 2014 and 2018 for use with BRMT bioweapon manipulation of oxytocin (love hormone) levels to defraud Lead Plaintiff.

See “Laura Akoto” in the upper left corner photo from January 23, 2023 online edition of the Financial Times and compare photos. Ms. Janessa Brazil (pictured) had no involvement, she was offered by the use of publicly available online photographs under the pseudonym “Laura Akoto” by Defendants to Lead Plaintiff, together with oxytocin (“love hormone”) using the BRMT bioweapon and bioweapon delivery system, to remove approximately \$11,000 to \$15,000 from Lead Plaintiff between 2014 and 2018 using email and Western Union as well as other payment services for which records have not been recovered as of this date.

I started the new business plan for the million yesterday and am working on that this weekend, hoping to get it completed by next Friday so I can talk to investors the following week and maybe get the million committed before year end.

I hope you are doing well and everyone else is good as well.

no, not yet, we still have to meet with investors which I hope can happen next week, then the funds should come from those meetings, I am only saying that it is possible we will get there quickly once the meetings are held and that we would only need \$250,000 to come in right away.

hi love I am doing fine. I miss you too and love you very much. I think of you many times every day.

I started the new business plan for the million yesterday and am working on that this weekend, hoping to get it completed by next Friday so I can talk to investors the following week and maybe get the million committed before year end.

I hope you are doing well and everyone else is good as well.

I am trying to get the million dollar raise started today if possible so we can get it done soon. I have interest from a guy in Thailand but am treating it as another scam for now, we will see if anything materializes from it, I doubt it. these things usually involve people asking for money at some point so I will be careful. otherwise things are going well. I hope you had a good time with anita the other day and are doing well yourself, love you very much

thanks sweetie, I am awaiting a call on our business plan today so we can move forward with that quickly, and get the money we need to get going and to get you here. I only need a quarter million to get going and you could come then too. then I would be able to get more orders. if we get the full million, we will be able to hire the president full time as well and things will go much faster then.

I am trying to get the million dollar raise started today if possible so we can get it done soon. I have interest from a guy in Thailand but am treating it as another scam for now, we will see if anything materializes from it, I doubt it. these things

usually involve people asking for money at some point so I will be careful. otherwise things are going well. I hope you had a good time with anita the other day and are doing well yourself, love you very much

hi love, I am doing well and have gotten some emails out to vendors this morning looking for more financing commitments, that is going pretty well, now we just need cash and customers to complete the equation. I am a few pages ahead of the other party on our business plan as I am trying to get that done this week so I can talk to investors next week about the million. so, it is going well and I expect to have the major vendor commitments wrapped up this month and then we will hope for the best on cash and customers as well. hope your day is enjoyable and going well, love you

yes, I know you love me and I love you, it is nice to hear it too as we both know. I will do what I can as soon as I can, wish I could do it right now but there is nothing to do it with. it will probably take all of next week to get the business plan done and then I can talk to investors after that and something good will come for us in time.

Yes, we will see what comes in the next few weeks. if the funding comes in on time I will be able to help you but for now I think we should not count on it happening until it actually does. I am enjoying some relaxing music this weekend and hope you have a good one too. I will be thinking of you a great deal and how nice it will be to spend my time with you.

hi love, it was a long weekend from Thursday until now with the thanksgiving holiday that day so I am glad we are back to work. I am trying to get the million dollar raise started today if possible so we can get it done soon. I have interest from a guy in Thailand but am treating it as another scam for now, we will see if anything materializes from it, I doubt it. these things usually involve people asking for money at some point so I will be careful. otherwise things are going well. I hope you had a good time with anita the other day and are doing well yourself, love you very much

hi love, it was a long weekend from Thursday until now with the thanksgiving holiday that day so I am glad we are back to work. I am trying to get the million dollar raise started today if possible so we can get it done soon. I have interest from a guy in Thailand but am treating it as another scam for now, we will see if anything materializes from it, I doubt it. these things usually involve people asking for money at some point so I will be careful. otherwise things are going well. I hope you had a good time with anita the other day and are doing well yourself, love you very much

Hi love glad you sent me a message. I have a new Yahoo Messenger version which does not show my status but I am still here most of the time. Try it first as I do not know if it alerts me to your being online or not so we need to find out. If that does not work, then email me at dennis_brewer@winnettorganics.com so I will see you message right away and we can then chat. All is well here, still getting proposal ready for the landlord. Love you. Big kiss and chat soon!

WorldRemit just called me back and said they would not do the transaction. I had told them it was to buy a computer for an employee and they told me it cannot be used for business purposes. So, I tried MoneyGram but cannot use them because I can only do one transaction every seven days.

Please give me your bank account numbers so I can do a wire transfer directly to your bank account.

Hi love - Thank you for thinking of all of us in your chat message. We had dad's funeral yesterday. There were about 150 people there, mostly from his church. It was a very nice service and it went well. We did a private internment at the cemetery with just the family. I got to see the rest of my family for the first time in aa long time and that was very special. Mum is holding up well. We are going to lunch today.

I miss you too. I love you very much.

I will be traveling to Phoenix tomorrow morning and will be there until noon Monday when I travel on to Tucson. I should be available on Sunday evening your time to chat. Hope we can make it then.

Love,
Den

yes, I do know that and I thank you for your flexibility and commitment. what got me to thinking about the ranch again was that they have lowered the price and it is a good deal and we have to live somewhere. anyone can live in the suburbs but only a few people get to choose to live on a ranch. I do not like the house on the ranch very much but we can always remodel or rebuild it to our liking.

Sorry for our network trouble. The UK people were fake, they put fake checks in the business account so they are no good for us. Blackpool is an investment bank I have known for several years. They will raise the money in 90 days after I sign a contract. I have to come up with a \$5000 retainer which I will work on next week. Also, the Wyoming ranch sellers are to get back to me next week about whether they are willing to sell to us on our terms.

I am doing fine otherwise and am spending most of my time on business issues. Just want to get this part done so you can come and join me. I love you very much. Big kiss from me.

Love, Den

Hi love we seem to be having problems with yahoo messenger . I have seen you come on twice in two days with greetings but when I try to respond I get no response back from you. I do not know what is wrong but keep trying so you get through.

I have bad news and good news: The bad news is the UK investors appear to be bogus. I have one more thing to check out but it does not look good. The good news is that Blackpool Group has shown interest in what we are doing and wants to raise ten million for us. I have to get a couple of things cleared up with them to make sure we can go ahead but it looks good. No word yet on the ranch deal.

I hope you are doing very well and your last bits are coming together well on your project. I love you very much and give you a big kiss from me.

Am very sorry I missed you yesterday, sweetheart. My next best way to get this done is with Don Morse and his investment firm. Once I know what they are looking for, I will adjust the Business Plan and get it to them.

The pastor's email is pastorjohnkofi@outlook.com Please be careful in case this is a scam but he has been very conscientious in following up so far. I hope this will work out without trouble.

I love you very much.

Pastor John Kofi from Accra will be contacting you to transfer some money due to me from a

prior business dealing to you as we cannot find any way to get it out of Ghana. Please help him complete this transaction. You should not pay anyone any money to complete this transaction as that would mark it as a scam. Hopefully, this will be simple and not require too much effort on your part. I love you. Chat with you soon.

Hi love- I will not be going to Dubai. The other party made a last minute demand for a fee which is a sure sign something is wrong. I am sorry that this is not working out as I had hoped to be with you very soon. I am afraid it will now have to wait a little longer. I do have two other options which I am exploring and we can talk about them next time we chat. Hope all is well with you. I love you very much.

I have reviewed the company's website and am going to prepare a list of questions. the interview will be 45 minutes on the phone and then if selected I will go to their office about 40 miles from here to an in-person interview which will take most of the day. for that interview I will have to prepare and make a presentation on some information technology topic. I am excited as this is a good opportunity with a good salary of 230,000 to 250,000 and it is interesting work

I sent 155 dollars about four months ago and the pastor found it when he came back from a mission in Australia in the last week or so. now he is in congo. so it is money I would rather not lose but it is not the end of the world. we will know soon whether the check is legitimate or not, I think.

so do not worry too much about this. it will work out one way or another fairly soon without me spending any more money on it. I appreciate your concern.

yes, thank you, I am trying to figure out if it is a real check by having the church secretary send me a scan of the check. I have not sent them any money except for a small amount for the courier service, so nothing important has been lost so far.

how are your buildings coming along? have you had your malaria training for the people yet? and everything is going okay with your project?

Hi sweetheart, glad things are going well for you and you seem quite happy.

I am trying to figure out how to get \$180,000 out of Ghana if it is real. A pastor named John Kofi - from Accra, I think has a package left for me by the Kabah family some time ago but cannot send it out of the country so I am trying to figure out if this is real or another fake.

Otherwise, things are going well. I was looking at all your beautiful pictures again today - it is a real treat for me!

I have reviewed the company's website and am going to prepare a list of questions. the interview will be 45 minutes on the phone and then if selected I will go to their office about 40 miles from here to an in-person interview which will take most of the day. for that interview I will have to prepare and make a presentation on some information technology topic. I am excited as this is a good opportunity with a good salary of 230,000 to 250,000 and it is interesting work

I sent 155 dollars about four months ago and the pastor found it when he came back from a mission in Australia in the last week or so. now he is in congo. so it is money I would rather not lose but it is not the end of the world. we will know soon whether the check is legitimate or not, I think.

so do not worry too much about this. it will work out one way or another fairly soon without me spending any more money on it. I appreciate your concern.

yes, thank you, I am trying to figure out if it is a real check by having the church secretary send me a scan of the check. I have not sent them any money except for a small amount for the courier service, so nothing important has been lost so far.

how are your buildings coming along? have you had your malaria training for the people yet? and everything is going okay with your project?

Today has been very relaxing for me, no work and just goofing off. Like I said earlier, two people have indicated they have solid small money opportunities for me this next week, so let's hope they are right and we can get this done soon.

You are my very smart, very capable love of my life. I can hardly wait to be with you and will be excited to see you when the time comes. In the meantime, please know that I love you and admire your character and work ethic. You are my star.

I replied to an ad months ago for the Vice President job and they are now getting around to interviewing me at long last. I hope the interview will go well this Friday. The job involves information technology consulting to large and medium size companies so it is a good fit for me. It should pay around \$220,000 to \$250,000 per year. So it would be a very good job.

I have one small money investor who says his client has the money and wants to make the investment but needs to transfer it. Hopefully, he is telling me the truth. One other investor is interested in buying up to \$10 million in farmland which we would then use as collateral for the loan we need. So, things are looking better all the time.

I am hopeful we will be together soon.

Love, Den

Hi love sorry we are having trouble with chat. Hope you are doing well and are having a good day. Hope your project is progressing okay, too. Glad you will be home next weekend and with your friends since I cannot be there with you.

I am fine. I went out for a hamburger today to get out of the house in between snowfalls. We have about a foot of snow on the ground now. As I mentioned yesterday, I have an interview for a Vice President job coming up this Friday. I am excited about it as it is with a very good company that pays well. I did not hear any more on small money as yet, am still waiting on over a dozen contacts. I expect to hear from some of them next week. I am looking toward Valentine's day with anticipation at my surprise for you.

I love you very much. Big hug and kiss from me. I hope we can chat soon.

I have been continuing my work on small money and have 11 interested people. No results yet but I am working hard on it. I hope your work is going well and that you are comfortable at the place you are staying. It is lover's month and, in fact my dad's birthday is February 14th. I hope to chat with you tomorrow.

Thank you for your wonderful words and the love you express. Glad your work is going well. Mine is going okay, too. I have 17 leads for small money that I am working right now in hopes that one of them will come through with the small money. I also have a phone interview for a Vice President job next Friday. So, that is exciting. I love you very much and hope you had another good day. I long for you and will be very ready to be with you when we finally meet.

Love, Den

Hi love. I was here until about 10PM your time when I went to check the TV news. Sorry, I do not know why you could not see me online. I love you very much and love to chat with you. I have been continuing my work on small money and have 11 interested people. No results yet but I am working hard on it. I hope your work is going well and that you are comfortable at the place you are staying. It is lover's month and, in fact my dad's birthday is February 14th. I hope to chat with you tomorrow.

Love, Den

I replied to an ad months ago for the Vice President job and they are now getting around to interviewing me at long last. I hope the interview will go well this Friday. The job involves information technology consulting to large and medium size companies so it is a good fit for me. It should pay around \$220,000 to \$250,000 per year. So it would be a very good job.

I have one small money investor who says his client has the money and wants to make the

investment but needs to transfer it. Hopefully, he is telling me the truth. One other investor is interested in buying up to \$10 million in farmland which we would then use as collateral for the loan we need. So, things are looking better all the time.

I am hopeful we will be together soon.

Love, Den

Hi love sorry we are having trouble with chat. Hope you are doing well and are having a good day. Hope your project is progressing okay, too. Glad you will be home next weekend and with your friends since I cannot be there with you.

I am fine. I went out for a hamburger today to get out of the house in between snowfalls. We have about a foot of snow on the ground now. As I mentioned yesterday, I have an interview for a Vice President job coming up this Friday. I am excited about it as it is with a very good

company that pays well. I did not hear any more on small money as yet, am still waiting on over a dozen contacts. I expect to hear from some of them next week. I am looking toward Valentine's day with anticipation at my surprise for you.

I love you very much. Big hug and kiss from me. I hope we can chat soon.

Wow another lovely picture big smile beautiful eyes, lovely breasts and a great butt. Makes want to kiss you all over. Which I will when you get here. You can send me all the pictures you want as

I devour them with my eyes. They are a special treat for me. Glad you are going home to a concert and get a break from your important work. I love you very much. Big kiss from me.

Love, Den

Thank you for your wonderful words and the love you express. Glad your work is going well. Mine is going okay, too. I have 17 leads for small money that I am working right now in hopes that one of them will come through with the small money. I also have a phone interview for a Vice President job next Friday. So, that is exciting. I love you very much and hope you had another good day. I long for you and will be very ready to be with you when we finally meet.

Hi love. I was here until about 10PM your time when I went to check the TV news. Sorry, I do not know why you could not see me online. I love you very much and love to chat with you. I have been continuing my work on small money and have 11 interested people. No results yet but I am working hard on it. I hope your work is going well and that you are comfortable at the place you are staying. It is lover's month and, in fact my dad's birthday is February 14th. I hope to chat with you tomorrow.

Hi love - I wanted to let you know that the Morocco deal was postponed at the last moment as they needed money to pay an attorney since our attorney did not go. This means we will have to wait a little longer before making our plans. I am working hard to resolve this situation as quickly as I can. I love you very much.

Hey, glad you are having fun! Enjoy every minute.

UK deal is dead, Hong Kong \$32M needs a payment bond which we are working on, a man in Mississippi is considering making a \$5M investment plus \$60M guarantee for 70% of the company, a party from Casablanca wants to invest \$40M (could be fake, I do not know yet, should know next week). So, there is plenty going on.

I love you.....

Hi love - It appears that the UK deal is fake - they finally asked for money before closing. It was the deal for \$28 million. We still have the one for \$32 million in Hong Kong left and may be able to get more money from them once it closes. It is the better of the two in any case. We will keep moving ahead.

Thanks for all your positive coaching. It really helps me to have a partner like you at disappointing moments like these. I love you very much.

Hi love - I did not hear from the people in Hong Kong or the UK today. I had sent them both emails last night. I did hear from Charles today. He has a new opportunity with Hain Celestial for me to study and respond to in the morning. Hain Celestial is a large publicly traded company in the New York area and is looking for new suppliers. They could be a source of funding for us.

Most of all I want to tell you that I love you very much. And that I miss you and am sorry I did not have more chance to chat with you today. Hope you slept well and have a great day.

Hi love - Hope everything is okay - just not used to not hearing from you two days in a row. I'm busy preparing for investors a new Business Plan and trying to find consultants to help us design a packing plant in California and in Arizona. Went for a walk early this morning - saw a deer that came within ten feet of me. I love you and miss chatting with you.

Hi love - I hope your day went well and that everything was in order on your field visit. I finally got the information on the Arizona property and it has very good water and soils. So, we will be trying to buy that property if we get the funds. This also means I will be living in Tucson, which is a very good place to live, if you can stand hot summer days, as it has 350 days of sunshine each year. It's a nice city of about 500,000 people. I'm looking forward to that.

Charles, our investment banker, got a new lead today - seems very promising. We will know whether they are interested soon. Nothing is happening on the Kabah thing until Monday. No word from Malaysia today.

I miss you and spent a while just gazing at your pictures today. I can't wait to see you, touch you, kiss you.

I love you.

Hi Love - I hope your day went well, sorry we have not been able to chat. Just want you to know I love you. Walked 2.5 miles today. Got subscription agreement and name of bank consultant on Mrs. Kabah's proposed investment today so that is moving ahead. Completed \$8.1 million loan application for UAE development company for submittal on Monday. Also got word of \$10 million five year convertible debenture from United Kingdom today (which I did not expect). So, very productive day for me. Thought of you often today and am looking forward to our future chats when you can do it again.

Hi love - just got your mail glad you had a good day and time with friends - very nice. I have received confirmation that money moved to Tanzania so that is one more step in the right direction for investment. I also spoke with investment banker today regarding starting a land fund so we can buy more land - he was very positive about it and will begin taking action on it in a week or two - so more good news for developing the company into something bigger and more secure. I walked about three miles today in good weather - it felt good to walk. Thought of you a good deal and looked at your pictures as I do every day. Sorry we can't chat but this is next best thing. I love you - have a good night.

How long does it take to get your passport renewed? Please check on that. Once you have your passport, you can get a visa from the American Embassy in two days after your interview - I checked and that is how long they say it will take.

Once you can get your passport renewed, we can get a ticket to the US for as low as \$900 if you can travel on certain days, otherwise it will be \$1200 or so. Either way, you would have to make one stop to change planes and the trip would take about 16 hours total. Let me know what you think.

Hi, sweetie - Those are very good questions. I have not done this before so I have no experience with long distance romance. If you can travel to the US this summer, we could spend a week or two together here. I cannot leave the country before September because my passport has to be renewed and that takes a couple of months. Also, my business needs my attention as investors are not very patient people when they are making a decision whether to invest in the company. So, it would be best if you could come here. Laura dear - Work is going well. We have \$11 million in new orders for our products. We have three new investors interested in funding the company. Hopefully, one of them will come through with the investment money we need to grow the company to medium size.

I have travelled mostly in the USA, to 45 out of 50 states. It is a big, beautiful country. I spent a total of 6 weeks in London, and about two weeks in France, primarily in Paris but also in Cannes. I also spent a couple of days in western Switzerland. But there are many other places in the world to go. I hope to see them in the next twenty years or so.

Hi, sweetie - I hope all is well with you today. My reading is confined to the New York Times, work related issues - mainly on the internet, and your e-mails. In the past, I read lots of travel guides as a way to understand the rest of the world better. I've also read the biographies of American presidents, and adventure books. I especially liked one series by Patrick O'Brian about an English sea captain in the 18th century. His adventures took him to many places around the world and the entire series was very well written.

Do you like travelling? Where are you interested in travelling? Where have you been in the past that you enjoyed a great deal?

yes and am happy that my this people and i are putting happiness in the face of my people , we do construction of school buildings , bole hole that is underground water system ,market to create employment to the community women and many more , with this the people have their own work to do to get food to their mouth and family as well, talking about knowing each other we both have the basic ideal and that is getting to know each other and what each other does ,that we have done , what we need to do again is what we seek here and what are the qualities as well also as we have being able to achieve that as well , so what left for us to do is start to create a forum where we will be able to share the way of communication , distances and ability to understand that yes this is what we facing and need to work towards that as meeting each other is our primary aim,what do you also think ,as this is what i think left for us to do.

Laura - Sounds like very meaningful work. You must affect the lives of many people in a positive way. It would be nice to have some examples of the kind of work your field workers

actually do.

So, given all your expertise in human socialization, how do we go about building strong emotional ties in the absence of shared activities and physical closeness? It seems very challenging to me but I have not thought about it very much until just now.

If you can pay for your passport renewal, I will buy your ticket to the US and to return to Ghana. You could be here as soon as June 14. Does that seem reasonable to you?

I will have to do some work while you are here but will try to do less than usual for the time you are here.

How long does it take to get your passport renewed? Please check on that. Once you have your passport, you can get a visa from the American Embassy in two days after your interview - I checked and that is how long they say it will take.

Once you can get your passport renewed, we can get a ticket to the US for as low as \$900 if you can travel on certain days, otherwise it will be \$1200 or so. Either way, you would have to make one stop to change planes and the trip would take about 16 hours total. Let me know what you think.

Hi, sweetie - Those are very good questions. I have not done this before so I have no experience with long distance romance. If you can travel to the US this summer, we could spend a week or two together here. I cannot leave the country before September because my passport has to be renewed and that takes a couple of months. Also, my business needs my attention as investors are not very patient people when they are making a decision whether to invest in the company. So, it would be best if you could come here. What do you think?

Laura dear - Work is going well. We have \$11 million in new orders for our products. We have

three new investors interested in funding the company. Hopefully, one of them will come through with the investment money we need to grow the company to medium size.

I have travelled mostly in the USA, to 45 out of 50 states. It is a big, beautiful country. I spent a total of 6 weeks in London, and about two weeks in France, primarily in Paris but also in Cannes. I also spent a couple of days in western Switzerland. But there are many other places in the world to go. I hope to see them in the next twenty years or so.

Hi, sweetie - I hope all is well with you today. My reading is confined to the New York Times, work related issues - mainly on the internet, and your e-mails. In the past, I read lots of travel guides as a way to understand the rest of the world better. I've also read the biographies of American presidents, and adventure books. I especially liked one series by Patrick O'Brian about an English sea captain in the 18th century. His adventures took him to many places around the world and the entire series was very well written.

Do you like travelling? Where are you interested in travelling? Where have you been in the past that you enjoyed a great deal?

How long does it take to get your passport renewed? Please check on that. Once you have your passport, you can get a visa from the American Embassy in two days after your interview - I checked and that is how long they say it will take.

Once you can get your passport renewed, we can get a ticket to the US for as low as \$900 if you can travel on certain days, otherwise it will be \$1200 or so. Either way, you would have to make one stop to change planes and the trip would take about 16 hours total. Let me know what you think.

If you can travel to the US this summer, we could spend a week or two together here. I cannot leave the country before September because my passport has to be renewed and that takes a couple of months. Also, my business needs my attention as investors are not very patient people when they are making a decision whether to invest in the company. So, it would be best if you could come here. In the past, I read lots of travel guides as a way to understand the rest of the world better. I've also read the biographies of American presidents, and adventure books. I especially liked one series by Patrick O'Brian about an English sea captain in the 18th century. His adventures took him to many places around the world and the entire series was very well written.

yes and am happy that my this people and i are putting happiness in the face of my people , we do construction of school buildings , bore hole that is underground water system ,market to create employment to the community women and many more , with this the people have their own work to do to get food to their mouth and family as well, talking about knowing each other we both have the basic ideal and that is getting to know each other and what each other does ,that we have done , what we need to do again is what we seek here and what are the qualities as well also as we have being able to achieve that as well , so what left for us to do is start to create a forum where we will be able to share the way of communication , distances and ability to understand that yes this is what we facing and need to work towards that as meeting each other is our primary aim,what do you also think ,as this is what i think left for us to do.

Laura - Sounds like very meaningful work. You must affect the lives of many people in a positive way. It would be nice to have some examples of the kind of work your field workers actually do.

So, given all your expertise in human socialization, how do we go about building strong emotional ties in the absence of shared activities and physical closeness? It seems very challenging to me but I have not thought about it very much until just now.

Laura - Sounds like very meaningful work. You must affect the lives of many people in a positive way. It would be nice to have some examples of the kind of work your field workers actually do.

So, given all your expertise in human socialization, how do we go about building strong emotional ties in the absence of shared activities and physical closeness? It seems very challenging to me but I have not thought about it very much until just now.

Sorry, I'm not sure I understand what you are saying. You need to renew your passport, you need a visa which costs \$160 and you need an airline ticket which costs about \$900. If I pay the \$900 for the airline ticket, can you pay for the passport and \$160 for the visa?

How long does it take to get your passport renewed? Please check on that. Once you have

your passport, you can get a visa from the American Embassy in two days after your interview
- I checked and that is how long they say it will take.

Once you can get your passport renewed, we can get a ticket to the US for as low as \$900 if you can travel on certain days, otherwise it will be \$1200 or so. Either way, you would have to make one stop to change planes and the trip would take about 16 hours total. Let me know what you think.

Hi, sweetie - Those are very good questions. I have not done this before so I have no experience with long distance romance. If you can travel to the US this summer, we could spend a week or two together here. I cannot leave the country before September because my passport has to be renewed and that takes a couple of months. Also, my business needs my attention as investors are not very patient people when they are making a decision whether to invest in the company. So, it would be best if you could come here. What do you think?

Laura dear - Work is going well. We have \$11 million in new orders for our products. We have three new investors interested in funding the company. Hopefully, one of them will come through with the investment money we need to grow the company to medium size.

I have travelled mostly in the USA, to 45 out of 50 states. It is a big, beautiful country. I spent a total of 6 weeks in London, and about two weeks in France, primarily in Paris but also in Cannes. I also spent a couple of days in western Switzerland. But there are many other places in the world to go. I hope to see them in the next twenty years or so.

Hi, sweetie - I hope all is well with you today. My reading is confined to the New York Times, work related issues - mainly on the internet, and your e-mails. In the past, I read lots of travel guides as a way to understand the rest of the world better. I've also read the biographies of American presidents, and adventure books. I especially liked one series by Patrick O'Brian about an English sea captain in the 18th century. His adventures took him to many places around the world and the entire series was very well written.

Do you like travelling? Where are you interested in travelling? Where have you been in the past that you enjoyed a great deal?

Hi, sweetie - You can come any time after June 10 and stay as long as you can. Can you be flexible on your travel dates so we can get the best fare?

I will have to do some work while you are here but will try to do less than usual for the time you are here.

Hi, sweetie - Those are very good questions. I have not done this before so I have no experience with long distance romance. If you can travel to the US this summer, we could spend a week or two together here. I cannot leave the country before September because my passport has to be renewed and that takes a couple of months. Also, my business needs my attention as investors are not very patient people when they are making a decision whether to invest in the company. So, it would be best if you could come here. What do you think?

Laura dear - Work is going well. We have \$11 million in new orders for our products. We have three new investors interested in funding the company. Hopefully, one of them will come through with the investment money we need to grow the company to medium size.

I have travelled mostly in the USA, to 45 out of 50 states. It is a big, beautiful country. I spent a total of 6 weeks in London, and about two weeks in France, primarily in Paris but also in Cannes. I also spent a couple of days in western Switzerland. But there are many other places in the world to go. I hope to see them in the next twenty years or so.

Hi, sweetie - I hope all is well with you today. My reading is confined to the New York Times,

work related issues - mainly on the internet, and your e-mails. In the past, I read lots of travel guides as a way to understand the rest of the world better. I've also read the biographies of American presidents, and adventure books. I especially liked one series by Patrick O'Brian about an English sea captain in the 18th century. His adventures took him to many places around the world and the entire series was very well written.

Do you like travelling? Where are you interested in travelling? Where have you been in the past that you enjoyed a great deal?

Laura - Sounds like very meaningful work. You must affect the lives of many people in a positive way. It would be nice to have some examples of the kind of work your field workers

actually do.

So, given all your expertise in human socialization, how do we go about building strong emotional ties in the absence of shared activities and physical closeness? It seems very challenging to me but I have not thought about it very much until just now.

yes and am happy that my this people and i are putting happiness in the face of my people , we do construction of school buildings , bore hole that is underground water system ,market to create employment to the community women and many more , with this the people have their own work to do to get food to their mouth and family as well, talking about knowing each other we both have the basic ideal and that is getting to know each other and what each other does ,that we have done , what we need to do again is what we seek here and what are the qualities as well also as we have being able to achieve that as well , so what left for us to do is start to create a forum where we will be able to share the way of communication , distances and ability to understand that yes this is what we facing and need to work towards that as meeting each other is our primary aim,what do you also think ,as this is what i think left for us to do.

Laura - Sounds like very meaningful work. You must affect the lives of many people in a positive way. It would be nice to have some examples of the kind of work your field workers actually do.

So, given all your expertise in human socialization, how do we go about building strong emotional ties in the absence of shared activities and physical closeness? It seems very challenging to me but I have not thought about it very much until just now.

Laura dear - Work is going well. We have \$11 million in new orders for our products. We have three new investors interested in funding the company. Hopefully, one of them will come through with the investment money we need to grow the company to medium size.

I have travelled mostly in the USA, to 45 out of 50 states. It is a big, beautiful country. I spent a total of 6 weeks in London, and about two weeks in France, primarily in Paris but also in Cannes. I also spent a couple of days in western Switzerland. But there are many other places in the world to go. I hope to see them in the next twenty years or so.

Hi, sweetie - I hope all is well with you today. My reading is confined to the New York Times, work related issues - mainly on the internet, and your e-mails. In the past, I read lots of travel guides as a way to understand the rest of the world better. I've also read the biographies of American presidents, and adventure books. I especially liked one series by Patrick O'Brian about an English sea captain in the 18th century. His adventures took him to many places around the world and the entire series was very well written.

Do you like travelling? Where are you interested in travelling? Where have you been in the

past that you enjoyed a great deal?

Best, Denny

Laura - I enjoy being a bit impulsive myself - don't think its necessary that everything be planned to the last detail. While I enjoy going to the beach sometimes, my favorite spot is hiking in the mountains, seeing what's around the next corner, enjoying the spectacular views into the distance. I enjoy scenic driving for the same reason - to see what's around the next corner. I love that sense of anticipation - and reward for making the effort to get out and do something.

My work is very creative - an entrepreneur starts with an inspiration or idea and creates a business out of that idea. In my case, that is an organic foods company which has gone from nothing but a scrap of paper to a business plan to customers and location and a set of capabilities to get the job done. We are now working on getting \$10 million together so we can make this a medium size company in the next few years. Its very exciting, though sometimes tedious, work. It has the added satisfaction of putting other people to work in a healthy environment and creating healthy food for people to eat - no non-organic chemicals.

I'm interested in knowing about your work as well. What does a field director do? What expertise do you bring to your work each day? What challenges you and excites you about your work? What difference do you think your work will make?

I am generally an optimistic person with a sense of humor, fairly easy-going, and I don't think that I'm too critical about things.

I love spontaneity and being a bit impulsive. I am continually attempting to function from the inside out and to go with my intuitive impulses, because sometimes the spontaneous actions are the most fun, not expected and purely delightful. so that tells you that am introvert and

i believe when one is driven from the feelings of his or her inside , she or he have the social gratification string to do what he or she want to perceive, again i love what i do ,hat is my work and the people i make friends with are carefully chosen as i seek advice from my friends and that advice have to have influence on me and my life i want to live ,surprise is one thing that makes me happy and going to the beach as well and driving also .what about you also.

Laura - Thanks for another lovely photo. I appreciate your answers to my questions. My next question is how would you describe your own personality? Are you an extrovert or an introvert? Are you mostly a fact driven black and white thinker or do you think in shades of gray? How much do your feelings affect your judgment about things? How else would you describe your personality?

I'm generally of even mood, very optimistic, make friends fairly easily, am a creative problem solver, and carry a relaxed attitude about most things. I tend to think in shades of gray rather than black and white, and look for the reasons that things are the way they are. I am very persistent once I decide to do something. I look for the reasons behind my own feelings.

I'm excited about you because of your education level and the fact you are very physically attractive to me. That is the reason I asked you to come over, having forgotten for a time that you are not in New York. While I wish we were closer together, I am looking forward to learning more about you, what makes you tick, what you're excited about, your work and other things about you.

Laura - You say the right things and are very persuasive. Please send me a full length photo of yourself and tell me again how tall you are and what is your education. These things are quite important to me since I cannot meet you soon. I realize they are not as important as your personality and attitudes about life but they are a place to begin our conversation. I look forward to hearing from you again.

Laura - Thank you for the thoughtful note - your reply intrigues me and I'd like to get to know you better. If you can, please come to Ramsey tomorrow afternoon so we can meet and spend some time together. If tomorrow won't work for you, pick another day.

Dress casually and wear comfortable shoes for walking. I'll be wearing shorts and a Nautica tee shirt. If you want to take the train, you'll need to go to the Ramsey Route 17 stop and I'll meet you there. If you want to drive, I'm at 450 Island Road Apt 35 in Ramsey. I hope you can make it.

I very much look forward to meeting you.

Laura - What am I looking for in a woman?

High integrity - I too have suffered from low integrity relationships in the past and am looking for someone who will be honest about feelings and any problems in the relationship so we can build a strong healthy relationship together

Smart - I have an advanced degree and would probably relate best to someone of similar educational attainment

Tall, attractive - I am 6-4 so would prefer someone tall, and attraction is part of the magic that people call chemistry

Those are a few attributes I am looking for. It is a short, overly simplistic answer to a very complicated question. As for the other issues you brought up:

Age - the age difference is an advantage as I am interested in starting a family

Distance - I hope to be close to the one I care about so that we may become emotionally and physically intimate over time

Trust - between two people is developed over time by keeping your word, treating the other person with care and respect, it cannot be proven in an instance or a single action

I am looking for someone who has a great sense of humor and big heart, is curious about new things that would like to share new experiences or old habits.

I am looking for someone who believes that a true intimate partner looks out for the other and vice versa. While navigating life together, we are caring and concerned for each other's

well-being because we make each other so happy and we love each other very much.
Looking for a serious long term relationship with someone who possesses strong character and is goal-oriented. He must love the Lord with all of his heart, then I know he will love me with all his heart.

Hi Laura -

Hello my new found friend am so happy that i found u ,this is all what i can remember about my ex relationship and it breaks my heart so much that is hardly to talk about to any one i kept it secrete but will tell u so u don't repeat the same mistakes he did so we getting to know each other ,all i know i will die I thought I loved him, but he had to break my heart for me to know what true love really is. It was 23rd may 2005 when i was sent to mini shopping mall in the suburb of Canada, Ontario to shop for the weekend when he saw me. He approached me telling me he has been spotting me long time since i was in Gateway

College but was so furious that i left him there without saying anything. Later that same day i was to report for French classes to learn vocabulary in French because dad wanted me to be a journalist. I went there only to see the man i meant when shopping also in the classes room offering the same course as i am and i developed some self confident in him as responsible. He was a journalist in one of the media consortium in France; he was really rich and ready to offer me all i wan if i will marry him soon. he told me a lot and i developed some feelings for him but unluckily for him dad told me to travel with mum to his country GHANA IN THE WEST AFRICA.SO WE WENT FOR HOLIDAY AND LATER REALISED THERE was a university there so i was enrolled there when i came down there and after that had four years till i got my degree to work there it was 2010 in November that time but i traveled back to canada to to visit dads family because dad have die in early before, The guy called Williams came to meet me at the airport and soon we got into serious relationship .my best friend was a model and really beautiful called anita. she was free with my boyfriend not knowing, whiles i was away she was sleeping with my guy and I one day caught them real handed when i went to pee in a club house toilet facility so we broke up .from that day i told myself that i will do everything alone will never love\d any man cos they lie ,cheats and weird till i got to this site

Nice to meet you. What part of NYC do you live in? I live in Ramsey, NJ about 20 miles from Manhattan. I run a small organic foods company called Winnett Organics. Later that same day i was to report for French classes to learn vocabulary in French because dad wanted me to be a journalist. I went there only to see the man i meant when shopping also in the classes room offering the same course as i am and i developed some self confident in him as responsible. He was a journalist in one of the media consortium in France; he was really rich and ready to offer me all i wan if i will marry him soon. he told me a lot and i developed some feelings for

him but unluckily for him dad told me to travel with mum to his country GHANA IN THE WEST AFRICA.SO WE WENT FOR HOLIDAY AND LATER REALISED THERE was a university there so i was enrolled there when i came down there and after that had four years till i got my degree to work there it was 2010 in November that time but i traveled back to canada to to visit dads family because dad have die in early before, The guy called Williams came to meet me at the airport and soon we got into serious relationship .my best friend was a model and really beautiful called anita. she was free with my boyfriend not knowing, whiles i was away she was sleeping with my guy and I one day caught them real handed when i went to pee in a club house toilet facility so we broke up .from that day i told myself that i will do everything alone will never love\d any man cos they lie ,cheats and weird till i got to this site

Nice to meet you. What part of NYC do you live in? I live in Ramsey, NJ about 20 miles from Manhattan. I run a small organic foods company called Winnett Organics. You can see us on the web at www.winnettorganics.com I'm tall, 6-4 blond hair blue eyes. I gathered from your bio that you are a social worker and have a Masters degree. I too have a Masters degree and am very attracted to smart women. What are you looking for in a man?

Regards, Denny

am laura and just net here , am here looking for the best of a real man to move along with and mine interpretation of a man is one that is willing to have a date , a serious one of course , i chose the internet because i will like to know my man from afar

which is getting along well with distance means you will be perfect when you close , i got to be part of this site just today and a friend did registered the site for me , wished you could mail me back and we talk about where am from and where you are also from and see what we can come up with as we get to know each other , i will be waiting for your mail back.
