Dear Sibel,

Yes we offer Carcass but I just took a look at sailing times - it takes too long to get cargo to Istanbul - 35 days - to ship it fresh, it will have to be frozen, as the shipping time from the Midwest US will be a total of 40 days. Fresh meat is good for 28-35 days only. so for Istanbul we can offer frozen beef.

Regards,
Tim

Hi Dennis

Do find attached the new PO as promised. We have had to reduce the order volume as a first order and also based on the past issue we had with regards to your fulfillment. Do forward through all the necessary documentations once you have them and confirm the delivery schedule hopefully this volume will be easier to process.

best regards

Charles

Hi Charles,

Thank you so much for your prompt response.

We have engaged **Celtic Bank** for our inventory line and **PMF** is our backup source. We are working with both of them to ensure we have an adequate inventory facility available to us on or before **July 10th**. They have both said this is a doable transaction.

A **PO** today or Monday morning (UK time), will permit delivery between **July 19th** and **23rd** to **Bawtry's** designated warehouse in the **UK**, depending upon the exact date of sufficient air freight availability. Anything later will delay the delivery process by about a week.

Attached are the two **EU approved facilities** we will use highlighted in yellow on **pages 5 and 7**. Customs officials in the **UK** will look at the facilities the beef has been processed in and transited through in their online database to be sure they are on the **EU approved list**.

Packaging and carton specifications will be delivered to **Bawtry** based upon the cuts ordered within **5 business days** of their order.

We will forward the packing list and all other documentation including source and age verification prior to shipment. Halal certification is attached.

If **Bawtry** will document the extra costs they incurred to fill the **May 29th PO 846371**, we will credit them these extra costs on their second order with us.

Thanks.

Regards,

Tim

On my umpteenth try this morning, I located a New York-based firm which says they will do inventory loans for us. If this holds true, we will have an inventory line in place next week for about \$500,000. We can then resume with Bawtry Distributors and other customers. Also, this morning I located a meat broker who is willing to take on our business in the US with Further Processors, enabling us to sell relatively quickly the balance of inventory we do not export. This will help to keep our inventory levels down

If these connections hold up, we will be profitable in July and cash flow positive in about two months.

Regards,
Dennis

Happy Father's Day Tim,

As we inch forward to our NDA agreement with our counterparts in China, the US and China are going to start a Trade War. I am sure you are aware that US beef is one of many items that are labeled on the \$ 50 Billion dollar list. My partner have acknowledge that will place the US beef in a really unacceptable high price in the Chinese market. I am sure you would agree with me. I know you mentioned opening an office in Shanghai next year will help sales in China, but without relief in importing taxes, I think you should think twice about that idea too.

I have attached the Chinese version of the tariff and US beef is one of the items include in this tariff list. (This is from my partner in China)

Regards,
Murphy

as you are aware of that US and China trade war starts recently, To retaliate US's special tariff towards to Chinese exporters, Chinese government has widen their lists to 545 items of agriculture, seafood, and automobile related merchandise are subjected to 25% tariff to US exporters.

This will cause more issues with our initial plan to export beef to China. Below is the most recent announcement about Additional custom duty Policy issued by Chinese State Department 6/15/2018. The detailed items are in the attachments.

Hi Tim,

Thanks for reaching out. We might be all set with our beef needs.. by now but just to be on the safe side quote us anyway ..57 tons of dried salted beef omasum in frozen package. We have been seeking a usa based supplier with low shipping fees and from a state which doesn't charge state sales tax.
Shipping destination : Hanoi Vietnam.
This is expected to be repeat order, not a one time purchase.

Please let us know what prices and terms to expect from your firm, the starting shipping point of product, lead time etc. I'll pass all info to my team.

Thank you very much.

Hi Tim,

Below is the summary of our discussion:

1. Description: Full beef carcass
2. Origin: USA
3. Grade: USDA Choice
4. Halal Certified: Yes
5. Cattle Type: Conventional grown, or natural grown
6. Packaging: 75 pound (27 kilo) cartons, approximately 10-12 cartons per carcass.
7. Destination: Jebel Ali port, Dubai, UAE.
8. Pricing: \$7.55 per kg, FCL, CIF for conventional grown, \$7.78 per kg for natural grown. Customs clearance and in-country transfer at additional cost.
9. Payment: DLC, payment at destination port.

Please comment and let me know if there's any error. I would also consider all the procedural and legal requirements will be complied. We would need to do 2 tons trial by air freight.

In fact, as I've told you on the phone, our colleagues from China have taken a break in discussing this purchase. The point is that first of all we're Oil&Gas Equipment producing and trading company, so "food products" isn't quite acquainted branch for us, but we're absolutely interested to deal with it. By now our chinese colleagues've concerned about how to issue a permit for import this kind of stuff (e.g. dried beef omasum) to PR China. In spite of our yet uncertainty we actually would like to receive your quotation for us to be able to make further consideration. So, according to your mentioned scroll:

- 1) Dried beef omasum
- 2) 60 metric tons monthly, for example
- 3) Shanghai port/ Tianjin port
- 4) As i'm approximately aware of 60 tons of Dried beef omasum is about 2 x 40 feet containers.
- 5) Payment terms: 30 % in advance, 40 % in front of shipping documents, and 30% after receiving the goods
- 6) Payment mode? -- Is it mean the way how we're sending funds?? So, using swift code.
- 7) Rus-KR LLC
- 8) Below in this letter
- 9) Purchased/Imported before from USA? : Yes, but only Petroleum Equipment

Waiting for your response.

Kind regards,

Mishin Yegor

Arnold - Sorry for the delayed response. Your answers are below:

- Are you slaughtering yourself? No, it is illegal to own both final production and a slaughterhouse in the US
- Do you have your own cattle? Our first own cattle will be ready next May, then at the rate of 180,000 per year
- Are you working with eu importers already? Yes, and all facilities are EU approved
- Where are slaughtering? Omaha, Nebraska is where we would slaughter for your company. We also use facilities in California and Texas for other customers

Hi Tim,

Thank you for your reminder.

Regarding this is a very big tender, we expect answers from our costumer at its earliest in the 2nd week of January 2019. I know you'd rather have them yesterday, but unfortunately that's not how this tender works.

If you think the prices will change in this period of time, then send us the new pricing before the 3rd of January 2019.

We will revert as soon as we have any news.

Thank you for you patience.

Thanks for your reply.
May I ask if you have the authority to export beef to China?
As the attached documents, can I assume that your beef is American products?
