

CAMOFILL

CAMOFILL is a new infill designed for today's multi-color thatch, made with a specially sourced blend of multiple colors for the most realistic natural look possible. Being safe for children and pets, this all-purpose infill can be used as infill for artificial lawns, playgrounds, and putting greens.

- **Vinyl coating includes ZOE Zinc Omedine to inhibit the growth of bacteria, fungi, and algae**
- **Encapsulated sand with ZOE helps reduce pet urine odors**
- **CA Prop 65 exempt**
- **Properly graded particle sizes ensure superior drainage without compaction**
- **Rounded particle shape is not abrasive to the turf, feet or paws and settles into putting green surfaces effortlessly**

Camofill blends perfectly into turf!

MADE IN THE USA
