## **Deliverance Jesus Is Coming Church Coronavirus Update – March 14, 2020**

Church Family and Friends:

Greetings In the Name of Our Beloved Savior, Jesus Christ:

I share with you prayerfully in response to the current concerns of the pandemic/spreading of the Coronavirus, the many closings of schools, universities, public facilities, and even houses of worship. We at Deliverance Jesus Is Coming Church take the decisions of the state government seriously and have instituted a rigorous hygiene routine in response to the concerns for safety. Tomorrow, Sunday, March 15, 2020, we **will** meet for our regularly scheduled 10:00 am worship service at 815 Springfield Ave, Irvington, NJ. As per the direction of the Center for Disease Control, as well as the recommendations disseminated via state and local government and news outlets, we have taken the following measures in an effort to partner with you to ensure a safe worship environment.

### **Safety Action Steps:**

- enhanced our cleaning procedures by doing a comprehensive cleaning of all the restrooms
- given special attention various touch points in the church, such as the doorknobs, handles, water faucets, handrails, etc.
- Installed hand-sanitizing stations throughout the building for your use.
- modified our meet and greet routines and activities.

### **Please be sure to**

- wash your hands frequently with sanitizers and/or soap and water.
- refrain from simple actions such as shaking hands and hugging.
- Cover coughs and sneezes.

Also, if you have a health condition that suggests you should remain at home, or if you are unable to attend the in-person service for any reason, please worship with us by live-stream on

**FACEBOOK LIVE**

If you attend online please support the ministry by giving online at

or **Text-to-give at 551-258-8547**

We will continue to monitor the development of the Corona virus and any impending threat to our local assembly and make decisions, as needed, regarding congregating. Visit our social media outlets for up to minute announcements.

Please continue to pray in these difficult times for your communities, neighbors, families, our sick and shut in, those who are hospitalized, the bereaved, and also our medical and governmental decision makers.

We are strong in our conviction that God is STILL in control and “He alone is our refuge. In Him we will trust.” (Psalm 91:2).
