

CLAIRE

BIOGRAPHY

A captivating artist with a minimalistic style rooted in groove and space, Claire has carved out a niche for herself in the underground as a dj, producer, and label owner.

Considered a 'DJ's DJ', Claire has shared the stage with many notable artists including Magda, Sonja Moonear, Maayan Nidam, Akufen, and Octave One (to name a few). Her sets are deep, driving, and mysterious, inspired by outer space and the imagining of other worlds.

Her style encompasses shades of techno, micro-house, breakbeat, electro, and silky-smooth minimal grooves: deep, trippy, and sensual with mysterious whispers and low-slung funk. Always adventurous, her performances have brought her to play at events and venues such as the MUTEK festival, Igloofest, Air (Tokyo), Astropolis, the Techno Parade (Paris), Bass Coast Festival, Piknic Electronik, and Club der Visionaere.

A bit of a gear junkie, Claire uses a small but mighty arsenal of synthesizers, samplers, sequencers, and drum machines when she produces and performs live. As well as running her own label, Planète Secrète, she has a number of digital and vinyl releases on labels such as Conceptual, Monoclap, Archipel and more.

Recent projects have seen her venturing into new territory exploring ambient experimental compositions, live improvisation, and conceptual audiovisual performances.
