I Have Made It

If anyone should ask what would make me say “I Have Made It”

My answer would be: “If Quentin Tarantino would say ‘Cool Lists, Man’”

THE MAXX

Animated MTV 13-episode series, originally aired April-June 1995.

[Republished by IDW as The Maxx: Maximized]

I recommend it if interested.

Prerogative:

A special right, power, or privilege.

There are so many that assert their prerogatives to the detriment of others.

It is time for things to change.

Still True

Infinity = Alpha = Pi = Omega

I Had A Thought The Other Day...

I had a thought the other day,

or was it today,

If Alanis Morissette were the most indifferent to being on my lists,

Or the least happy about it, I would say...

Thank You, Alanis...You created jagged little pill...Masterpiece.

And, Thank You, Universe for arranging that.

Things need to be said

And

Things need to change

What do I think...

About my writing projects

and

If they will ever have an impact?

I guess I am not worried. When it was all in my head, I knew whatever I had to offer would disappear with me, for better or worse. Even if I had printed it, all the people around me would think my work was useless, like they did when I lived.

But, now that it is online, it has a chance. To think like I do, I had to meet two specific professors: two specific professors alive at the same time, at the same university, in the same department, with their specific interests which led them to their expertise.

Even weirder still, I had to encounter a specific book that I NEVER would have encountered if not for nearly impossible circumstances.

I bless them all.

I feel like I have more to offer, but, if it is not meant to be, that is all right. If I died when I had my stroke, INFINITY would have disappeared with me. My whole life's struggle would just go away. The only thing I thought could advance humanity from me, gone. Now that it is online (while I am still here to keep the website going)—if the world is ready for it and the theory has something to offer—somebody could stumble upon it, be interested enough to print it out, then they could complete the Evidence In Defence and Afterwards and try to spread the news.

Even now with what is in my head that has not made it online, if others are going to develop LIFE or METHODOLOGY (A DISTANT RECOLLECTION would give clues), then they will stumble upon it, print it, and think about and continue it—more power to them. If I am to keep working, I will.

I say "I will." I don't think I have a choice. Or, if there was a choice to be made, I think I already made the decision a long time ago.
