Fri at work

Dear Jack:

Mom said you called last nite and we were all so mad because we weren't at home so we could at least have said "Hello" to you. But it just happened that we were all out. Emily & I went over to see Catherine Daymon & later on Marie & Em came up there and picked us up and took us back over to Emily's house. She has adapted Phyllis the little girl that Em & his

wife used to board. They've
had her since before & now.
She's 7 yrs old this month.
And she goes to school at
St. Ignatius. Well anyway
Emily served cup cakes &
tea & so we got home
about 10:45. Josephine went
to Club at Ellens last nite.
So that's how it was. Any-
way mom was glad to
hear from you Jack. So you
got the money & also the
cake o.k. That's swell. How
was the cake, was it
bitten at all? Mom made
the Chocolate cake & I made
the other one. I send half
of them to Arnold.

I've been so worried
about Arnold all week

because I had a letter from him a few days ago and he said he didn't think he'd be in that camp so long any more because they told all the married men that have their wives up there to make arrangements to send them home - so - o - o that doesn't sound so good. I hope I can go down & see him before he gets shipped away from there, because he'll probably go to Calif. and that's an awful distance away. Jack I also hope you can come home before you get sent too far

away. where you're at now
you could even come
home & on a 3 day pass
couldn't you?
You said I didn't send
you Joe M. address, I
swee did I tore it out
of the envelope. but maybe
you dropped it when you
opened it. Anyway its
the same as the heading
on top of his letter. just
look on the top of his letter
on the first page. Well
jack I'm writing this at
the office and the bell
is about ready to ring so
I think I better ring off
too. Let us know if you
get the bedroom slippers—
Mom told me to say Hello
to you & also she sends her
love. Good bye jack take
good care of yourself.

Love from your sister Ann Fisher
