Fri. mite. 10/15

Dear Jack: just a few
lines to let you know we
still think about you & talk
about you every day. And
I sure must hand it to you
You sure do write the letters.
And we all enjoy reading
them. And mom is glad
to get them too so keeps im
ralling. Mom told me to
tell you that she got the
2nd check today from the
government and she's giving
me \$5.00 of it to send to
you. She said I should
tell you she had to spend
all of last months. But
this months check she's going
to put aside for you when
you come home on furlough.
Here's hoping you do soon.
mom said I should tell

you that you should keep
after them to give you a
furlough. Because some-
times fellows get shipped
overseas and they never
even get a furlough. Did
you read in the Press about
that one kid? Mom said
I should ask you if you
get the Press steady. Also
do you read Ernie Pyles articles?
Mom & I never miss him.
He's sure good alright.

Mom said that we'd send
you those gloves & bedroom
slippers over the week end.

We have to look them up.
Billy said he knows where the
gloves are. So here's hoping we
find them O.K. Mom went out
to Joe's today he's sick again
He had Bronchitis & Tonsillitis
the dr. said. I guess he never
really got over the other

attick. I guess he went back to work too soon. But you know you cant tell him anything. He's a little better today. His fever was gone. and he got up for awhile. So I guess he'll stay home this time until he's all over it. I hope so anyway. Mom said Mary Lou wrote you a letter. I don't that nice of her? The weather has been wonderful the last few days. Just like spring, the sun was shining and the temp. was 46°. Not so bad eh? But its really too early yet I guess thats what makes people sick. Mom is feeling better now. She's upstairs taking a bath now. Billy ~~is~~ is at the show

Love from your sis Ann
We just came in this morn.
Its just 10:30 now. Marie & Em
went downtown to a show &
Jose went downtown to meet
Chuck. He hasn't got a car, so
she has to meet him down-
town. Some fun eh? He
didn't bother with the Chevy
any more. I guess he was
discusted with it. I guess
theres more. Then one thing
wrong with it. Its just
been standing around too
long. So you liked the gloves
& scarf? Pretty good taste eh?
I picked them out. We're all
anxious to see the snap-
shot of you. So you better
hurry up and have some
taken. I'll bet you look
pretty keen eh? Well! gack.
Good-nite now. Mom send
her love & she says take
good care of yourself.
