Dear Joe & Jean & Kids

Got your package the other day and it sure was swell. Thank a lot for everything. I suppose by the time you get this letter why the hustle & hustle of the Holidays will be gone for another year. Boy I sure miss it! I figure tho, that if things keep going like they are we should be home by next year, (I hope!)

Well brother yours truly is on V.P. today. That's right we have it over here too. It isn't as tough as it was back in the States but my hands never were made for water ha-ha.

Everything over on this side of the world is fine ol, hope its all the same back home.

Gee I didn't know Chuck
 is over here in N. Africa!
 I'd sure like to bump into
 him. How about Joe's bow.
 Is he in the Army yet? By
 the way, we got a little monkey
 for a Co. mascot. What a
 screwy little firk. The chow
 here and everything else is
 still the same. Including
 the female situation, pretty
 tough when you can't speak
 their language.

Well brother I've about
 five more letters to get at
 so I'll sign off for now.
 Say hello to all for me

Love to all
 Yaww Kid Brother
 Jack
