Dear Jack:

How have you been lately. We are o. k. with the exception of Mom who was in bed all day yesterday. She doesn't feel well again, has pains in her stomach and legs. We think its because she carried the rubbish & klinkers up from the basement the day before. She forgets she's 60 and not 20. Also she has to go to the store everyday and she carries home all the groceries which are very heavy sometimes. She felt a little better tho this morning and got up and made breakfast. You know

When Pa was here he did all that and now she does it and it's just too much. We would gladly do those things for her but she never asks us to, just does everything herself.

Jack, I suppose Ann told you Craven tried to get our old "Chevy" started last week, + without success. I hope your car is in better condition when you get back. Joe came over + pushed the Chevy with his car. It started + kept going for a while but then stalled. Everything's wrong with it I guess + they can't seem to find out ~~just~~ just what.

Jack about those pictures I sent, I mean the ones we took before you left, its O.K. for you to keep them. I can always have another set made for myself + of course I know you wont lose them. Anyway you can keep them Jack.

I didnt send the Snow with the other things sent Jack 'cause its all apart. I lent it to some girl + thats' the way she returned it to me. I never noticed it before 'cause I havent used it. If you want me to send it anyway let me know. Maybe you can fix it. All the nuts, bolts ect. have come off the handle + we cant seem to find how it goes together.

Not much news Jack, Paulie Pieper stopped over Sunday. He looks swell. He was wishing

you could have got your furlough
with him.

Well Jack I can't seem to think
of anything else to write about
so I'll close for now

With Love
Your sister
Jose

P.S. In enclosing a
picture of someone I
think you know, Jack.
Remember her??
