

My cousin, Lauren, helped find the Lem family village. He was close to his grandparents as a teenager and they told him about trips to Battonya to shop. Lauren went to the N.G. Public Library, asked for very detailed old maps, found Battonya (it's in Hungary), then located the Lem village, named at the time Remelperuz (name was changed when it became part of Romania after end of World War II).

Less family village where my mother was born in 1902.
