

6-7-1918

Louis Leuz V. 8, p. 85

Post diphtheria

paralysis of head

side 2 days

(Two children of Louis Leuz who died in 1918 flu epidemic)

↓
died 1:30 AM

Frank Joseph V. 7, 586

died 2:35 AM

Theresa

587

↓
Toxic gastritis due to

using gage supposed
to be topical alum.

6 day illness

I suspect these 2 youngsters were given "medicine" supposedly to help them, but instead it hastened their death.

Mary Minnichsaffer

V. F, p. 121

41 years

born in Germany

pneumonia

13 days

John Minnichsaffer

46 years

strangulated Hernia

died 1:30 PM

Contributory cause -

Alcoholism or

a Hill Plaster

21 days ill

Father was stone

mason
