## NJ State Federation of Women's Clubs Facts

Several years of lobbying and study by the New Jersey State Federation of Women's Clubs led to the preservation of the Palisades from commercial development and to the creation of the Palisades Interstate Park Commission by New Jersey and New York. This stone watchtower, a replica of ancient watchtowers built on the Rhine River in Germany, was built on the Palisades Cliffs overlooking the Hudson River to honor the successful efforts of the New Jersey State Federation of Women's Clubs in stopping the quarrying industry from blasting the Palisades Cliffs to pieces. The watchtower was dedicated on April 30, 1929.
