The beautifying elixir leave-in treatment is a one step treatment that detangles, moisturizes, fights off unwanted frizz, heat styler and color protector! This product is perfect for any and all hair types that helps deliver inner repair for dry, damaged, overworked hair.

Tips: For max results, apply to damp, towel-dried hair.

- For medium → coarse hair: apply a generous amount and comb through
- For thin/fine hair → a light mist will be sufficient

PRO TIP: Use in conjunction with Eufora's Sculpture for color protection or with Smooth'n Oil Therapy for added moisture & shine!

SERVICE OF THE MONTH

DERMAPLANE TREATMENT

Dermaplane is a mechanical exfoliation method that immediately rejuvenates the skin by removing dead, dry, keratinized surface cells and vellus hair. It is highly effective in minimizing the appearance of fine lines, wrinkles, and acne scars, while leaving skin smooth, supple, and vibrant. Dermaplaning also increases the penetration of active ingredients in treatment room and home care products. It creates the perfect canvas for makeup application.
