

WHITE LAKE BY THE NUMBERS

Lake Surface Area = 1,067 acres

Lake Volume = 6,796 acre-feet (2.215 Billion Gallons)
Rainfall on Lake Surface is Primary Source of Lake Water
Groundwater Maximum Contribution is 6% of Lake Volume

At Lake Elevation of 64.5 feet NAVD 88:

Average Depth = 6.4 feet
Maximum Depth = 9.6 feet

Annual Lake Level Variability = 10 to 14 Inches
Lake Level Decline Up to 24 Inches During Severe Droughts

Shoreline Length = 4.77 miles
Town Building Code Minimum Set-Back = 20 Feet From Water's Edge
Number of Drainage Ditches and Pipes Going to Lake = 58
Seawalls = 151 (Coverage of Approximately 45% of Lakeshore)

Boat Ramps = 14 (One Public)
Mooring Buoys = 445
Piers = 297
