It is recommended that you view the “**Intro Video**” first, which will cover tips, tools & expectations before moving into the workshop.

A template (outline) of each portrait feature is attached to the email. You print it off and transfer the template to better quality paper, by tracing it (using a window or lightbox). A 70- 100 lbs paper is recommended for the workshop.

A completed rendering of each portrait feature will be sent to you in a separate email.
