Our goal at Fun Fit Kids, LLC is for the children to have a wide variety of fun activities. Our "Kids Fun Specialists" will incorporate creativity through arts and crafts, imaginative play, and of course a little bit of exercise. Yes, exercise! Whether that's building a small obstacle course or using GoNoodle which is an interactive website that has various races, exercises and much, much more! We hope that your child will enjoy their experience while you enjoy your workout!
