HOMESCHOOL MINI POD 2024-2025

This program consists of meeting at the home-based location or a nearby friend's. Understand that this is a resource and learning should continue at home with parents

Meetings can be on Monday, Tuesday, and Wednesday or on Thursdays and Fridays. Every day we meet for up to 2 hours. Pods consist of up to 3 students max inside the bus.

On Wednesdays, we do our outdoor classroom morning all together from 10 am to 1:30 pm.

We use Time4Learning as a curriculum option, in order for the students to keep working at home even when Ms. V is not with them. Learning is guided by the student's desire and personality. As a small group, we will also have a field trip once a month.

Our environment is a relaxed, stress-free, and loving space, we will work up to the capacities of each student.
