ABOUT RISHI

RB has been clicking pictures since a very early age. His unique vision and optical magic makes his photographs a joy to look at. His first camera in early 1990s was a MINOLTA 460 TX, Kodak Kroma 35 in late 90s, followed by Canon A710 in the 2000s, then the SONY cx130, succeeded by a Canon 200 D Mark 2 in 2017 and a SONY Alpha mirrorless today.

Along with that, gradually he also developed an immense love with cinematography, with the Japanese SIGMA Cinema lenses being his favorites.

Rishi is now pursuing film direction.
