Graphic Artist

Graphic Design, Illustrations, Web Design, Branding, Photography, Presentations

Career Summary

Over 40 years of experience, I have served as a senior-level designer, providing visual direction and creative/graphic services for complete design processes (i.e., market research, conceptualizing, design, and implementation of projects) using specialized technical skills in multiple disciplines (i.e., design, photography, illustration, page layout, typography, branding/visual identity, marketing, animation, and interactive media/web) and creating successful design solutions for both digital and print for a variety of commercial and military corporations. These positions required me to comprehend broad conceptual requirements (oral and written) which convey complex issues, scenarios or technical/scientific concepts. Experienced in detailed analyses and development of best technical approaches for presentation to senior level management. Highly experienced in the area of trade show coordination and exhibit design. Proficient in the use 3D modeling for use in the development of specific illustrations and animations. Highly knowledgeable in the area of all facets of print design and pre- and post-press proofing. Creative photographer and videographer with excellent knowledge of pre and postproduction editing.

Relevant Experience
