WHAT ARE E-COLORS?

Hillmont Associates
Health - Safety - Environment - Quality

A PERSONALITY DIVERSITY INDICATOR WITH REMARKABLE RESULTS!

E-Colors is a tool that identifies different personality styles. As a Personality Diversity Indicator (PDI) it indicates people's strengths and potential limiters.

We all know that the human brain is divided into 2 hemispheres, each containing 6 discrete lobes. Each part of the brain is responsible for different functions including movement, visual processing, memory, speech, emotion, perception, and more. The E-Colors system divides the brain into four major personality types that become 12 different E-Color combinations.

- **The Doer (Red)**
- **The Socialiser (Yellow)**
- **The Thinker (Green)**
- **The Relater (Blue)**

Although every person has all 4 colors within them, after completing the PDI questionnaire, their top two E-Color combinations are revealed with surprising accuracy. These E-Colors describe a more specific personality style leading to a heightened **awareness** of yourself and others, and also increased **engagement**, **productivity**, and **safety** levels by enabling people to better understand different communication styles and behaviours.

What makes E-Colors even more unique is its simplicity - once you know your E-Colors you'll never forget them. They help you understand and appreciate your strengths, how you work with other people, and even how you interact with family and friends.

This remarkable tool has helped everyone from school children to understand themselves resulting in higher grades and reduced bullying, to leaders and crews on oil rigs throughout the world resulting in fewer accidents and higher productivity.

E-COLORS COACHING

It's one thing to know your E-Colors but our workshops and coaching sessions ensure that individuals really understand and get the most out of the tool.

Through our workshops, we help teams to:

- Better understand your own personality and that of others
- Work more effectively with your work colleagues and professional network
- Reduce your level of frustration caused by people that you don't understand
- Develop your personal effectiveness by leveraging your strengths and managing your potential limiters
- Develop stronger personal and professional relationships by taking a win/win approach to communication
- Enhance your competitive advantage in the marketplace through a deeper understanding of personalities
- Strengthen relationships with family, friends and your community
