

North Star

BREEDERS FURTURITY

The North Star Breeders Futurity:

Mission Statement: The North Star Breeders Futurity is a program designed to promote verifiable offspring of equine breeders in Western Canada. The goal is to raise funds that will be utilized for futurities held in western Canada that will promote and add value to foals competing in Western Canada. The intent is for the program to be independent from the horse show organizations and to act as an advocate for horse breeders.

Examples of verifiable offspring could include horses recognized by the following breeds or color organizations:

- AQHA (American Quarter Horse)
- APHA (American Paint Horse)
- ApHC (Appaloosa)
- PHBA (Palomino)
- PHA (Pinto)
- ABRA (American Buckskin)
- IBHA (International Buckskin)
- POA (Pony of the Americas)

The Program

The North Star Breeders Futurity Program is intended to be a separate independent organization from the organizations that will be hosting the futurities. Funds will be raised for the incentive program through industry leaders and breeders through a stallion auction, nominations and enrolment of foals. Sponsorship and advertisers will also be sought out to help with overhead costs.

The goal is to raise money that eligible participants will be able to compete for through a series of futurities from yearling to three year olds.

Stallions, foals and competitors will be promoted via web site, social media and competitions.

Funds raised in each year will attribute to the breeding and resulting foals for that year only.

For example, a stallion nominated in 2021 will have all of its foals born in 2022 eligible for enrolment and competition right through to their 3 year old year.

All funds raised through that enrolment or stallion auction will be attributed to only that funded pool.
