

PRIME LIVING

BUILDING HOMES THAT MATTER.

YOUR VISION. THOUGHTFULLY BUILT.

OUR APPROACH

Built for life in New Hampshire, Prime Developments brings your vision to life with quality, care, and practical expertise. We design custom house plans that combine thoughtful layouts with distinctive design—delivering everything from budget-conscious new construction to high-end custom homes.

Our streamlined process turns plans into reality through careful preparation and coordinated construction. Most custom builds are completed in just two to three months, guided by dependable craftsmanship at every stage.

For homeowners looking to make more of their current property, we also craft seamless additions, custom garages, and modern accessory dwelling units (ADUs). From concept to completion, we pair smart design with attention to detail to build spaces you'll love for a lifetime.

BARNSTEAD, NH

4 BEDROOMS · 2½ BATHROOMS · 2,680 SQUARE FEET

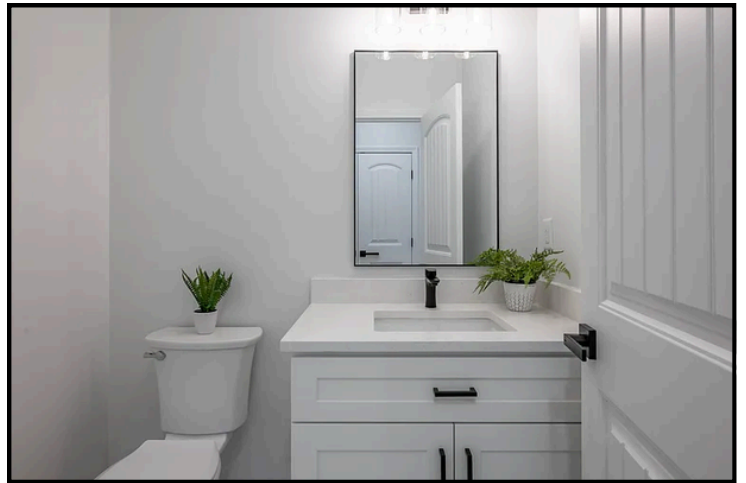

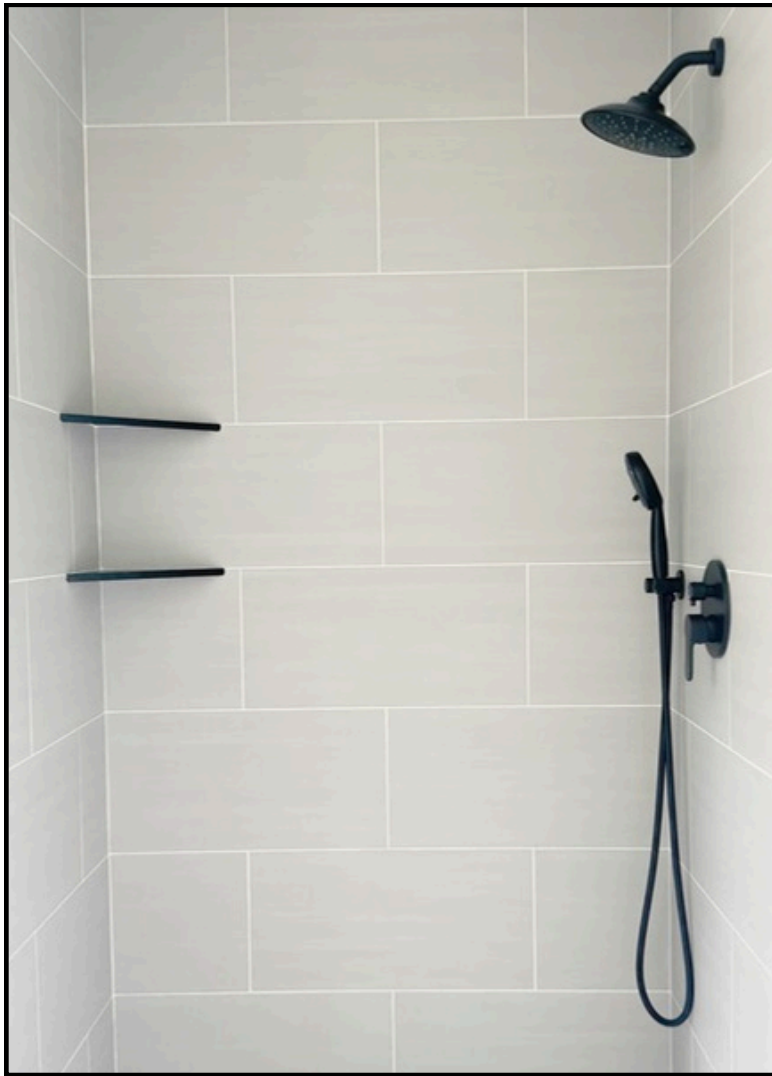

Designed for everyday living with room to gather, this home pairs classic Colonial architecture with a bright, open interior.

Hardwood flooring connects the main living spaces, while a kitchen featuring Calacatta Roma quartz countertops and a butler's pantry brings together style and function.

Four bedrooms, a dedicated first-floor office, and a walk-out basement offer flexibility for changing needs—all set on 11.35 acres in a peaceful country setting.

BOW, NH

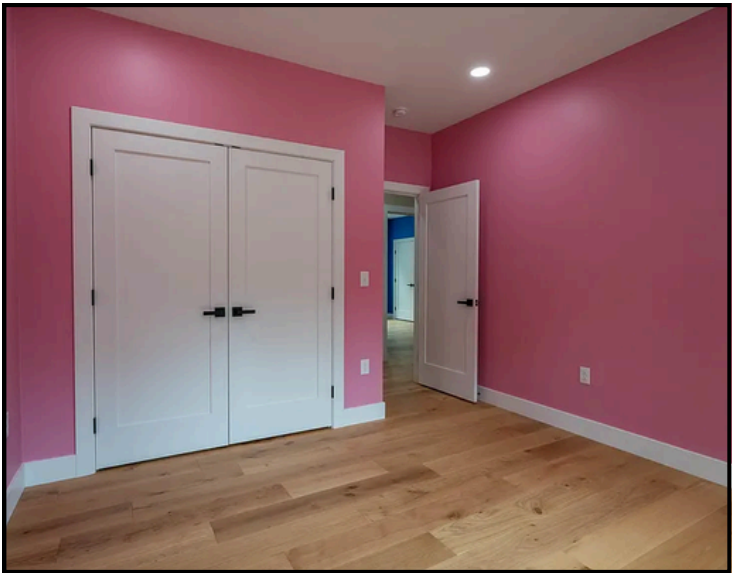

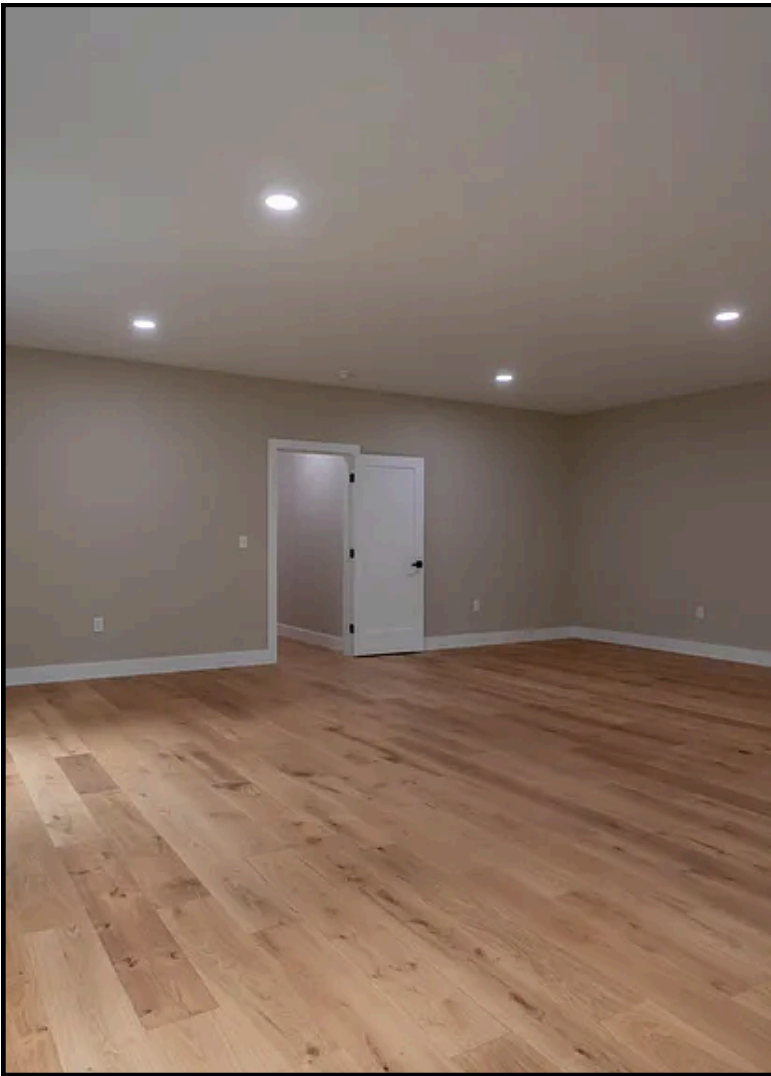

4 BEDROOMS · 2½ BATHROOMS · 2,680 SQUARE FEET

Set on just over two acres, this home brings together classic New England architecture and thoughtfully designed living spaces. An open main floor connects the kitchen, dining, and living areas, with hardwood flooring throughout adding warmth and continuity.

Calacatta Roma quartz countertops and a butler's pantry make the kitchen a natural centerpiece, while a first-floor office provides a dedicated space for work. Four bedrooms and a two-car garage complete a home designed for comfort, gathering, and everyday practicality.

RAYMOND, NH

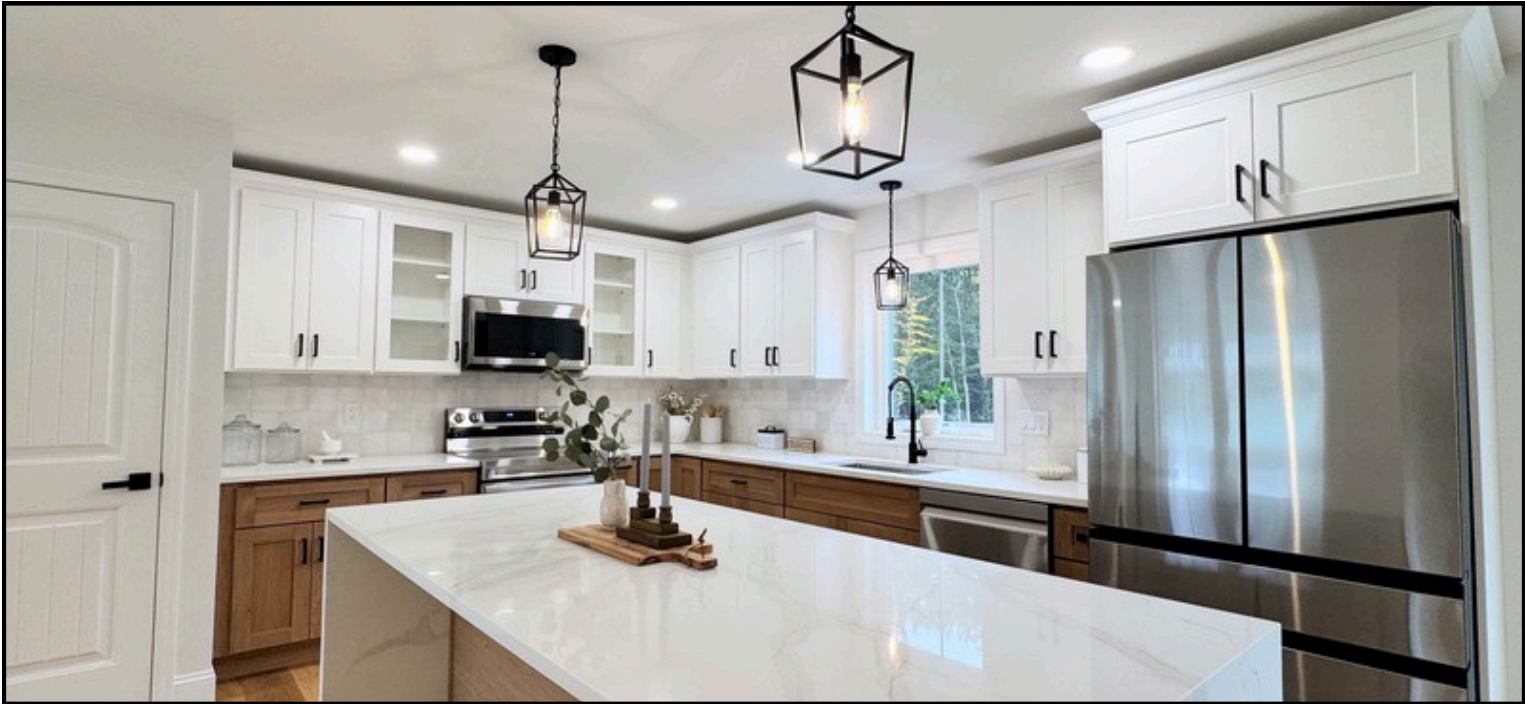

3 BEDROOMS · 2½ BATHROOMS · 2,120 SQUARE FEET

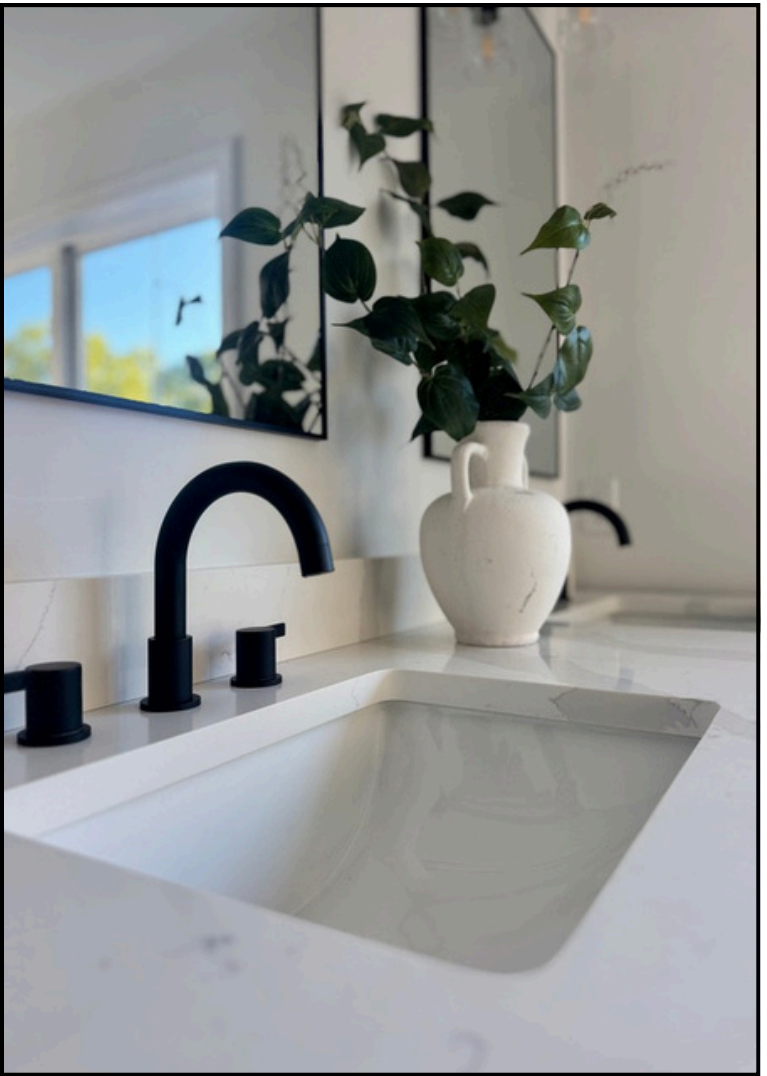

A welcoming front porch and soft gray exterior introduce a home with warmth and character. Inside, hardwood flooring connects the open living and dining spaces, while quartz countertops and a waterfall-edge island give the kitchen a distinctive focal point.

Three bedrooms provide space to unwind, and a walk-out basement offers room for future possibilities.

Set within Whitetail Crossing, the home pairs comfortable modern living with 44 acres of nearby conservation land and walking trails—a connection to the outdoors that makes this New England setting special.
