STATEMENTS**Tom Knight (Suspect No 1)**

I am Tom Knight, 38 years old, married to Olivia Knight. I am a doctor by profession and currently working in SIIMS Hospital. I am a person who is happy in his personal as well as in professional life. I am happily married to my wife and we have 2 children named Susan Knight and Daniel Knight. Susan's death has really left me shattered and broken. I don't know how am I going to cope up with her loss but I have to for the sake of my family.

Susan was very dear to me, she was my little princess. On 9th of January 2020, when she went missing and did not come back to home, I was really worried and I made every effort to find her out, I searched her in her school, near a cafe. Even I called all of her friends but all of them said they did not see her that day. I was really shattered by hearing this. And I along with my wife and my son waited for her all night thinking she might come up and hug all of us. But unfortunately this didn't happen. Then on 10th January 2020 we lodged a Complaint in the police station of kidnapping because somewhere I was certain that it is Fred who did this kidnapping of my daughter. Because one day I saw Susan with Fred in a café. On that very evening I asked Susan about Fred she told me that she loves that guy and they are in a relationship, by hearing this my anger went on a very high level, and I called Fred and told him to stay away from my daughter otherwise he'll face consequences.

I know Fred Rockwell, as he is a compounder in my Hospital only and he is not of a good character. That is why I wanted him to stay away from my daughter. After this incident I felt that Susan was not talking to me even ignoring me at our dinner table as well. This made the situation even worse. When I got to know that police found the dead body of Susan, I went in shock; I was not in my senses when I heard this. I did not want to believe it.

I'm just so very confused about what is going on. My whole world is falling apart. I still don't believe that Fred murdered my Susan .The circumstances were such that it strongly points to the fact that Fred in fact the murderer.

I don't know what more to say. I just want justice to be served. Whoever is responsible for the death of my daughter should be severely punished.

Fred Rockwell (Accused No 1)

I am Fred Rockwell, 23 years old, live with my mother only at H. No. 142/11, Block No-F, and Capital Island. I am a compounder in SIIMS Hospital, Capital Island. I have my mother with me in the name of family, my father left us when I was 5 years old. I have been working in SIIMS Hospital since last 10 years. I was in a relationship with Susan Knight from last 1 year, I loved her so much, and she was most loving, understanding girl. She used to tell me how she was always afraid from her dad, because her dad used to hit her many a times on very pity matters. She often told me that her dad was of aggressive nature and a habitual drinker too. She didn't feel safe at her home; she wants to stay with me.

As I got to know about the incident that Susan is missing, it was shocking news for me. I wanted to find her out, so I decided to find her out on my own. For two long days I was out from my house just to find my love of my life. When I came back to town I heard the depressing news of her death, I couldn't believe this. This cannot happen; I mean how one could kill such a girl who was so nice to everybody. She rarely had any enemies in this town.

It was unbelievable that police is suspecting me for her killing, but I swear even in my dreams I cannot think of doing such act to her. After all I loved her so much, why would I do this to her, I was planning to marry her after she would've attain adulthood. I think instead of wasting time on me police should investigate about her dad, as I think he can do this kind of act, as he did not liked me to be her partner, he was always on rage on her. He didn't even talk to her with etiquettes. I have a reason to think that her dad might have killed her as he did not like me and she was happy that I was a major part of her life. Therefore I think to teach me a lesson; he did this brutal thing to his own daughter.

Security Guard

I am Dale, 32 years old; I am a security guard of BAPS International School. I am working here from 2 years. I know Susan Knight because she used to greet me daily whenever she passes by. Apart from few students, nobody even say good morning to me as I was just a security guard. But Ms. Susan was different, she never treated me as a security guard, instead she always helped me, sometimes she gave her lunch to me for my kids. She was very kind hearted person I've seen

in this school. I don't think anybody could have any sort of problem with her, she was sweet with everybody.

The day she went missing I saw Susan at the school gate but it was very unusual to see that she didn't enter into the school; she never did this kind of act. But that day instead of school she went towards a Black Scorpio car which have tinted glass, therefore I couldn't see the driver of that car, but I noticed the car number because it was unusual to see such thing. The number of car is CI03 CAW 9009.

I often saw Fred outside the school; he often comes to meet Susan.

I just want whosoever did this; he/she must be awarded with capital punishment.

She deserves justice, and I believe that she will get it soon.
