

**Eager to fine tune the difference you are making?** **Who's trying what around Oklahoma?**

## What is it?

Where Oklahoman educators can inquire and solve challenges together.

## What's the main purpose?

- Dedicated time and space to explore challenges with the support of skilled facilitators.
- Cultivating an encouraging professional community with a growth mindset.
- Introduce some ideas, tools, and protocols for solving problems of practice.
- Exchange ideas and lessons learned from our improvement projects.

## What's the commitment?

- Attend bimonthly meetings for 60-90 minutes via Zoom.
- Work in small groups to complete an improvement project
- A "Yes, and..." attitude!

## Who's this for?

All educators. The more diverse the perspectives (in past experiences and in current title), the more we all stand to gain.

## What will we do?

- Inquire (about what concerns *you*). Find other like-minded educators.
- Brainstorm solutions.
- Implement.
- Analyze results.
- Reflect. Determine next steps.
- Share your insights! Supports offered for collective and lasting systemic change.

## Funding

Offered at no cost for the educators.

*In the works: Receive a stipend for your full participation.*

**Why  
do my female  
students score  
lower on math  
tests?**

How  
can I motivate  
students who have  
been burned by our  
system?

What  
should we be doing  
about our sizable  
chronically absent  
student population?

**How  
can I increase job  
satisfaction for  
my teachers?**

Join us! Explore your inquiries and try out potential solutions with educators from across Oklahoma. Together, let's address our challenges ourselves.

*Inquire. Try. Analyze. Share.  
Try again. Analyze again.  
Share again. And again.*

*Genuine growth. Together.*

**Will participants generate the change ideas, or will the program directors choose them?**

Participants!

This is grassroots.

Bottom up, if you will.

**Who is leading this effort?** We are Kaila Gilley, a teacher in Norman, and Liz Zumpe, a professor in Tulsa. We share a passion for teacher-driven collaborative inquiry and share a background as educators experienced in methods of continuous improvement.

**How is the project funded?** It's not yet. We're working on that. We are hoping to offer a stipend for educators by January and are applying for grants as we speak. We're in search of a funding partner who will maintain the integrity of this educator-led space.

**What will the inquiry or change focus on?**

That's up to you! It'll depend on your needs, problems of practice, and ideas. We will also offer our ideas where they might be helpful.
