

Pro-Seal Zebra Mussel Prevention

Polycarbon/Polycarbonate Defense against zebra mussels and other mollusk.

Description:

Pro-Seal Zebra Mussel Prevention System is a defense for concrete and some steel that greatly reduces or stops zebra mussel colonization or other mollusk attack. It may be applied to damp or wet concretes and under water in some instances.

Uses:

- Concrete Intake tubes
- Sea Walls
- Pylons
- Docks
- Buoys
- Pier Columns
- Concrete and Steel out flow tubes, pipes and tunnels
- Any concrete structure that might be exposed to zebra mussel or other mollusk colonization

Advantages:

- Maybe applied vertically or overhead
- Maybe applied under water
- Excellent Adhesion
- Leave a strong barrier that mechanically and chemically bonds with the substrate
- Application is not complicated
- Minimal tools are required
- Cure rapidly to a service cure

Technical Support

Contact our technical department at toll free USA/Canada 800 349 77325, Int'l +1 206 451 9527 or [information @prosealproducts.com](mailto:information@prosealproducts.com)

Together we can reduce the damage.

Application guideline: *(Based on properly mixed product that is correctly applied to a prepared surface)*

1. Prepare the concrete by removing all punky, shaled, damaged concrete with a bushing hammer to sound the concrete substrate. Be sure to leave a $\pm 1/4$ " tooth visible.
2. Apply Pro-Seal DryCrete to a wet concrete surface, when the substrate is concrete, at 400ft² per gallon. If the clean concrete is dry, Pre-wet the surface with clean potable tap water.
3. Thoroughly mix Pro-Seal Hot Foot scratch kote to a slightly flowable paste.
4. Apply paste $1/4$ " maximum thickness to the still wet concrete or other substrate.
5. 10-15 minutes before light traffic is allowed.
6. Hot Foot should cure 28 days for optimum service performance. Under time constraints where cosmetic appearance is not an issue
7. For specific application instructions or guide specifications, contact our technical department at 800.349.7325 or information@prosealproducts.com.

Pro-Seal Zebra Mussel Prevention

Polycarbon/Polycarbonate Defense against zebra mussels and other mollusk.

The Zebra mussel issue is a devastating issue. At Pro-Seal® we have a helpful solution to reduce or stop some of the issues with costly zebra mussel infestation.
