

## ON-SITE CERTIFICATION

No need to ship your flowmeter to the manufacturer for weeks at a time. We perform certification and **testing right in your office**, **minimizing downtime** so that your office can continue treating patients.

## WHY ANNUAL NITROUS FLOWMETER CERTIFICATION MATTERS

- Ensures accurate Nitrous Oxide & Oxygen delivery
- Verifies Nitrous fail-safe mechanisms
- Confirms emergency air intake and rebreather valve operation
- Checks the scavenger system performance
- Tests breathing circuit & bag for leaks
- Documentation provided for your records
- Helps meet ADA & manufacturer recommendations

## HOW OFTEN SHOULD YOUR FLOWMETER BE CERTIFIED?

- Manufacturer-recommends testing **every two years**, unless otherwise required by state or local regulations.
- Regular testing helps ensure patient safety, equipment accuracy, and compliance with manufacturer recommendations.

## WHAT YOU RECEIVE

- Complete equipment inspection
- Calibration verification
- Written certification report
- Documentation for compliance
- Fast in-office service
