AMERICA'S BOATING CLUB
UNITED STATES POWER SQUADRONS®

## Commanders UPDATE OCT 30-2026

Dear All,

While I was in Germany and Switzerland, we had a great meeting last Sunday at Laraine and David Teiss' Cedar Key home. Thanks a lot, to our hosts that had to deal with a challenge (see below). With Jerry Steinbergs leadership the members present had an important business meeting, mainly discussing the future of America's Boating club and its structures. Please find the minutes thankfully produced by David Roque attached.

Dear All, please allow me some remarks about the communication behavior in our Club. I have sent 2 weeks ahead of the event (Fish Fry at Cedar Key), but past the RSVP deadline a list of 20 members that planned to attend. However, 3 from this list did not show up and 13 members showed up spontaneously without letting us know. For the upcoming event on Lake Santa Fe (Nov 7), today is 5 days past the RSVP deadline and I have 6 participants (mee included and 3 Boats on my list. 1 member declined. Looking at this rationally I should decide to "raft" just one bout. Without **you** answering, planning becomes a nightmare!

# RSVP RSVP

is the answer. Please do so immediately for the Veteran's Memorial rafting (Flyer below) to refresh your memory.

Sincerely yours
